The effort to plan our gathering got started late this past summer, well-past when it was already too late. Subsequent volunteering demonstrated no lack of capacity for work, but we did lack a good address list. A telephone tree was planted, and it grew. A few of us who were contacted would contact a few others, find out who they still knew, and we would call them, and so on. After a huge number of telephone calls and e-mails, we had found a couple of hundred of you – a sufficient number to set a date, plan a party, and see who would come.

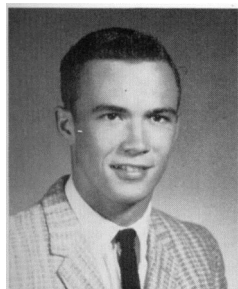

Invitations went out in October. Over 400 classmates had been located – even those who seemed to have been trying real hard to not be found. Most RSVPs seemed to come back after the November 15th deadline, but we never lost the faith that if we threw a party, you would come. And you have. Thank you. We are really pleased to see you.

The invitations, class list, and address gathering were primarily the work of Pat BLOCKYOU Swift, Donald BREWER, Dee LAMKIN Duke, Elissa FEICKERT Feldmeyer, Mary Ellen GROOM Prine, Dee KOHLENBERGER Hoffman, Sue LUTZ Billhymer, Bob KUNZ, Gene SMITH, Marilyn SUTTER Hughes, Sue SWEET Carpenter, Diane HOLLERBACH Wilkerson, and Dick WOODWARD. We attempted to get an invitation to each and every class member, and we worked very hard not to leave anyone out. We were unable to get word to everyone, but our effort will continue to find those still missing.

The event day planning and site arrangements were put together by Sheran BLOCKYOU Raab, Sharon FUTRELL Seibert, Virginia GALLUP Ganschinetz, Bob Kunz, Judy LASCO Meddows, Bob PETRI, Betty REHG Leppard, Karmen RUSE Schaumleffel, Carol SALTZMAN Wilson.

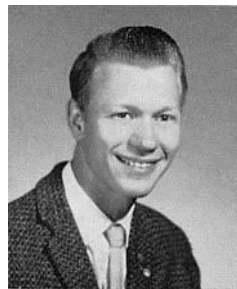

Virginia GALLUP Ganschinetz, Mary Ellen GROOM Prine, and Dick WOODWARD edited the Class Directory. In the directory we have included a number of asterisked * “last known addresses”. If, after many, many hours of review, we still have not extinguished all the typos, misspellings, and wrong information, please tell us. We want to continue to maintain the list for our 45th, 50th, 55th and on.

After leaving high school in early June of 1962, I joined the Armed Services where I served three years in the 101st Airborne Division, being discharged in late June of 1965. Upon leaving the service, I accepted a job as a journeyman machinist which I still do to present date.

On January 9th, 1965 I attended a dance at the American Legion Hall in St. Libory where I met a wonderful girl named Nancy Bonn. She also graduated from B.T.H.S. in 1964. On January 8, 1966 we were married.

After 36 years, we are still happily married. We attribute this to the fact that when we married, we agreed that she would make all the minor decisions and I would make all the major decisions. Fortunately, so far there have been no major decisions to be made. On July 9, 1969, we were blessed with our first son Chad Joseph Agne, and on November 17, 1973 we were blessed with our second son, Brett Allen Agne. Both sons are married. We have four grandchildren, 3 girls and 1 boy. They are Taylor 10, Abigayle 5, Allyssa 3 and Alexander 2.

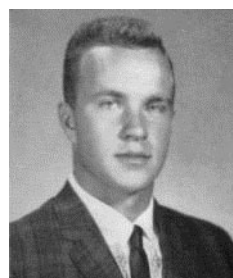

My hobbies include - skydiving, boating, bowling, golf, fishing, dancing and just taking a Sunday drive in the Corvette.

Thank you for taking the time to read a partial story of my life. I am looking forward to reading about yours. See you at the reunion.

his music career.

I had a brief fling as a grade school librarian for five years and seven years at a Christian Media Center but am now retired. I love to paint, sew and quilt while Dennis plays tennis and rides his bike often. When our kids were in high school Dennis and I decided to do an activity together and we discovered square dancing. We are now in two clubs at different levels of expertise and love it. We travel all over the state to festivals in our RV. Four or five years down the line, when Dennis retires, we plan to dance all around the U.S. See you in August '07.

After four long years at BTHS, I endured four more long years at Illinois State University and graduated with a degree in education. I taught school for one year at Wm. Holliday/Pontiac Schools and four years at Bunkum/Illini, all in Fairview Heights, IL.

Meanwhile, I received my Masters in Education from University of Illinois. In 1971 I met my future husband, Dennis, in California and after our marriage in Illinois, I moved to the "Golden State" which unfortunately for me was not so golden. They did not recognize degrees of education from Illinois, so never again was I able to teach. There were hundreds of unemployed teachers out here with degrees so why bother to go back to school. Eight years down the tubes.

I enjoyed being a stay-at-home Mom raising my two boys. Scott was born in 1973 and Brian in 1975. Scott is now a successful art director of a company designing Xbox computer games, a co-founder of the San Francisco Multimedia Art Co-op and now has a book called "Hickee" with several other artists, which will be available in February '03 at Amazon.com. Brian is a senior accounting analyst at Universal Pictures in LA and is busy trying to launch

After BTHS, I attended Western Illinois University (Macomb, IL), graduating in 1966 with a BS in agronomy. Became a USAF officer shortly after graduation, learned that there was a bigger world than I had seen before and stayed on after my initial commitment and Vietnam tour were completed.

Spent 23 years in the USAF before changing employers (goodbye Uncle Sam) and careers. Applied an MA degree and a second BS to civilian work while with Kaman Sciences/ITT Systems in Colorado Springs for 10 years as a systems and software engineer for the missile warning system in Cheyenne Mountain. Changed employers and locations again and am presently working for Raytheon Missile Systems in Tucson, Arizona, also as a software engineer. Presently I am the lead software tester for the Exo-Atmospheric Kill vehicle (EKV), the key piece of the initial national missile defense deployment. EKV employs technology that is like catching a bullet with your teeth.

Along my career pathway, I met Connie in Omaha, NE. We married and began a family. We have celebrated our 26th anniversary and we have three daughters. Kate attended St. Louis University, graduating as a Physician Assistant; she and her husband now live in Anchorage. Rebecca graduated from the US Coast Guard Academy last summer and is now an Ensign assigned to the USCG

icebreaker Polar Star. She has already been to the Arctic and back and before the end of the year will break ice to open the channel for re-supply of the US facility at McMurdo Sound in the Antarctic. Her ship is based in Seattle. Margaret (Mattie) joined us 10 years after her older sisters and she is an eighth grader at Sonoran Science Academy in Tucson where she has expressed strong interest and talent in math, music, science, drama, and sports.

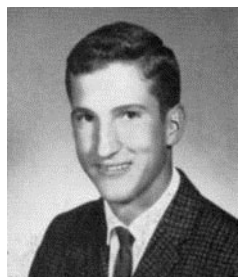

We learned to camp on the East Coast, ski in Colorado, hike in Arizona, visit the mouse-house in California and Florida, and other fun things over the years. We are happy and content, secure in the knowledge that our past, present, and future are within the warm embrace of our Lord. We look forward to seeing Mattie through school, enjoying grandchildren (eventually) and the other simple yet meaningful things in life.

What I learned at BTHS has stayed with me and became the foundation for many other learning situations both academically and relationally.

I would love to come, but I am Manager of a "Large Furniture Gallerie", and I cannot see my way clear to come at that time. I now live in middle Georgia, just south of Atlanta. Three children and three grand ones. Was married for thirty-one years, now divorced. Still a wonderful life to be thankful for. Greetings to everyone.

I own a farm in Fults, IL, of course it washed away 10 years ago when the Mississippi River flooded-that was an interesting experience to deal with. I have minor aches and pains and occasional senior moments. Four years ago I did a Habitat for Humanity with 20 teenagers in Texas which required patience, endurance, and complete insanity. Life is good and I am very blessed with dear family and friends.

Two wonderful daughters. Oldest is Kimberly, married, two beautiful children, Alexandra and Michael. She teaches Honors Biology at Lindbergh High School in St. Louis and loves it. Britt is married, also with two wonderful children, Payton and Cole. She lives close by in Cincinnati. Britt was in Pharmaceutical Sales until the kids arrived. Cole, her youngest, is a Special Needs child. The proudest moments of my life are watching how Britt and her husband have handled this challenge and their dedication in helping Cole become all he can be.

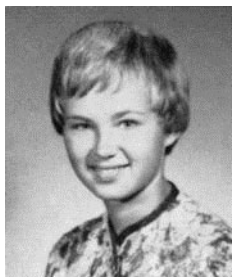

I have a great position with the Kroger Company and travel a fair amount. I have been with Kroger for 28 years in the Deli and In-Store Bakery area of the company. They have moved me from St. Louis to Cincinnati, to Nashville and now back at Corporate Office in Cincinnati. I am now on my 13th position with the company and truly love my job. Cole and Kroger take up most of my time, but I do get to see Don Brewer regularly. I love to work in my garden and play golf but that is becoming a rarity these days! Thanks again for all of your work on the reunion. I am really looking forward to seeing everyone!

How can it possibly be 40 years since high school graduation? Where have the years gone? I have had a wonderful life, so far, inspite of a few adversities. I have lived in northern Illinois for 35 years. I have traded heat & humidity for cold and snow. I am quite a creature of habit-lived in the same house for 31 years, have the same job for 26 years-I design kitchens and bathrooms.

I have 2 terrific sons Kent 36, Kurt 33; 1 incredible daughter-in-law Judy, and the delight of my life, a granddaughter, Katie 1½ years old & another grandchild due in April. I am active in church work, enjoy traveling, gardening, outdoor activities, golf, friends, antiques...I guess because I am one. Character flaw is collecting husbands ... I have had two so far. So if any of you single gentleman reading this are interested in being #3, look me up.

While attending Millikin University, I met and married one of my professors. In September, Ken and I celebrated our 37th anniversary. We have five children, 3 daughters and twin sons. So far we have 9 grandchildren, ages 8 and under and all but one are in the area and come for dinner every Sunday.

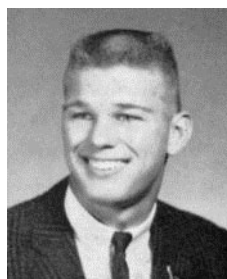

I returned to college and in 1986 graduated from Aurora University with a major in accounting. I worked for 10 years as a senior staff accountant at Shorr Packaging, Inc., retiring in 1997. I presently work part time at the YWCA.

I enjoy swimming, walking, knitting, riding, roller coasters and playing nickel slot machines. Ken and I are active in the Citizens Police Academy Alumni Assoc. of Aurora.

Barb married Robert Pease (college '66) a Navy vet who served in the Vietnam arena. He is now employed at the U.S. Post Office in Phoenix. Time is limited for Barb but she enjoys reading, ice-skating and a Dachshund named Tasha."

After graduation, I went to work in a paper factory. I married in 1963 and moved to Colorado, where I lived until 1973 when I was divorced. I had two wonderful daughters from that marriage, Ronda and Tona. My daughters and I moved back to Belleville. In 1974 I met Gale, the love of my life. We were married in 1976. He had custody of his three kids. So I became the mother of two great sons, Jimmy and Wayne and a wonderful daughter Lisa.

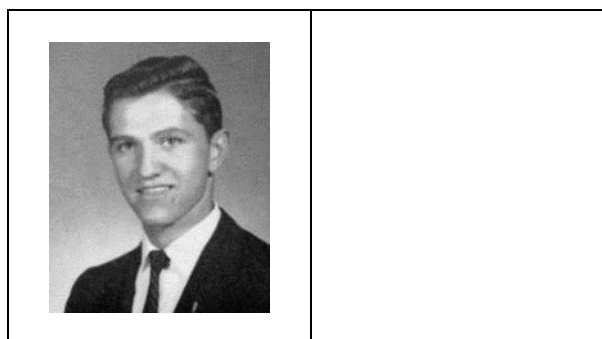

Besides taking care of five kids, I worked at the school as a cook, until I injured my back. I'm now a homemaker. We have 8 grandchildren, 6 step grandchildren, 1 step-great-grandchild and one on the way. We enjoy camping and I love spoiling the grand kids.

After graduation from college in 1966 I began a 20-year career in Marine Corps aviation. My stateside duty assignments were primarily on the East Coast, but I also served numerous tours in the Far East and Western Europe. After my retirement in 1986, I returned to Illinois (Carbondale), where I spent most of my time reeducating myself and raising my five children. This year I officially became an empty nester --although with five grandchildren, I'll

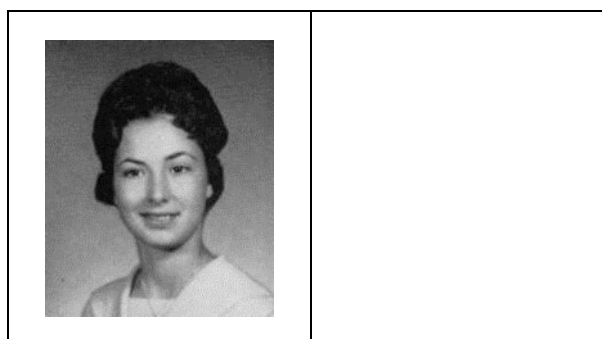

probably have plenty of duty with kids.

Still married to Charlie (35 years!) Still the parents of 2 kids – one of each – we haven't disowned them yet. Still trying for our 3rd child. Since we last saw most of you, we have added grandparents to the resume. Our son and his wife have one of each – Charlie is 5 years and Madeline just 5 months. They are so much fun, we wish we'd had them first. Our daughter, Jenn, and I are in business together. Little did I dream that in my old age I would end up in the old Bollmeier Hobby Shop location on East Main Street – remember? We have a racing collectibles store there and it's a hoot. It's also convenient for keeping track of my mom who still lives in the house next door where "I grew up". Charlie has switched from building houses to building cars and is operating a street rod shop out of the same location – more convenient. Our most recent 15-minutes of fame came, unfortunately, with the tragedy of Dale Earnhardt's death at the Daytona 500 last year. Next

morning, we had scores of grieving customers, 2 newspapers, and 3 TV stations lined up at our door. A day to remember. We'll probably retire when our daughter finishes her EE degree and gets a real job. Meanwhile, we are living well, laughing often, and loving much.

Got my RN and married Jack in 1964. I work in pediatrics. Moved often as he was in the FBI. We settled in Elmhurst 22 years ago. Had 4 children: Robin, John, Merri & Michael. We lost Robin 10 years ago but she gave us our first grandson Johnny, 11. Now have Alex 3 and Connor 7 months. Another on the way so thinking "pink". Our youngest marries in May 2003. All are in the Chicago area, which is great for visiting and babysitting. These past 40 years have flown by too fast.

Have worked as an educator most of my life – in and out of the classroom. Owner of a developmental pre school for 10 years. Was the Director of Education for a student travel company and traveled all over the country talking with school boards and educators about experiential learning. Now a volunteer librarian at a DC school and have raised over \$25,000 for new books. Love my work with children.

Charles & I have been married for 36 years. We have 2 adult children. Chad, our son, is a social anthropologist and works in Tanzania, Africa. Charmaine, our daughter, is a physiologist and will finish her work for her Ph.D. this summer. Will practice in San Francisco, CA.

We hope to retire in 2 years, move to Moab, UT and travel the world! Most exciting adventure: traveled with my 2 sisters all over Asia – 6 weeks of wonderful experiences. Would love to see you all – but we have a "wedding" planned.

Dan and I celebrated our 40th anniversary last January. We have 5 grown sons Daniel 39, Scott 38, Ryan & Bryan 36 and our youngest Ty 23 who graduated from Notre Dame last May and finally after 30 + years freed us from being involved with someone in school. We now go to our grandchildren's school events... Ashtan age 12, Haley age 12, Jackie age 11, Treya age 8, Benton age 7, Marlayna age 6, Gabrielle age 4, R. J. age 1 ½, Bryan III age 1 and Caitlyn age 1. Yes, they manage to keep us busy. Dan is in sales and this is what brought us to the Dallas/Ft. Worth area. I have worked for our church, in the office, for the last 10 years. My favorite thing to do is watch Notre Dame Football either in South Bend or on the TV. We are excited to travel to California November 29 for the USC-Notre Dame game this month. Go Irish!

terms). In general I am the nemesis and question asker on the board. Charter member of the Algonquin Lake-in-the-Hills Rotary, 2002-2003 president.

My hobbies are many and varied. Most say I am nuts but I always knew that anyway. I love antiques, having had with my ex-wife, Sherry, a 120-year-old Victorian, in which we started a B&B in (Victorian Rose Garden) 1995. Sherry still operates it today. I also have an almost completely restored 1968 Corvette. I love to fly and have a Piper Arrow to get up and around the country. I love golf and any sporting activity. I am an avid jogger having as of this writing 12/03/02 run 8 years 11 months and 3 consecutive days (that is without missing) not bad for an old man who made a bet over 8 years ago to do it for one year and my buddy has matched me day for day.

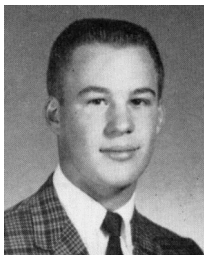

Currently I am building a new 4+car garage for my junk and my wood working shop that I love to spend time in. I have done extensive furniture refinishing and making of woodwork and trim over the years. Woodworking is probably my favorite pastime when I have time to do anything. I love to read aside from the law and have a decent start on a good library to pass to my children and grandchildren. I love the arts having for years Chicago Lyric Opera season tickets (and still can't understand the words), It is always a balance to have season baseball and opera tickets especially when the traffic woes make it a two-hour trip into the city for a ballgame or the opera. As for the arts I was the President and long time board member of the Northwest Area Arts Council. Working with artists is like trying to catch the wind in a bag. Another passion is gardening and flowers. I have had the rose gardens, left those 160 roses for my ex, and now am into wild flowers, lilies, tulips (I planted 2800 tulips last fall). Many say I am impossible but I am always dreaming and keeping myself busy, not out of trouble, mind you, just busy.

My family is absolutely the greatest. I have been blessed with 3 wonderful brilliant children (they got it from their mother and the grandparents), Teresa Brewer (Terri Sierra) a computer systems analyst or something like that for UPS Air Division in Louisville, KY; she is a busy lady and mother. Her husband is a computer guru and drummer. She has 3 beautiful children and one stepdaughter. Jenny, her stepdaughter, is a sophomore in college, Justin (18 is a college freshman), Hunter 13 is in junior high (middle school) is taller than his older brother and getting close to grandpa; Camryn is grandpa's little gal she was 4 in July.

My middle child is Rich (James Richard) 34 years old and married to Rebecca. A graduate of Michigan State in criminal justice he, the artist, paints grand old Victorian homes. They are also in the process of remodeling (having completely gutted and cut the roof off) and making the home a three story Victorian. He has purchase and remodeled several houses since his 1990 graduation and has decided to do the big one for themselves. Their kids to date are 5, 6, or 7 cats, most having names of baseball clubs or baseball players. Rich has been, for years, a gifted athlete and still plays on several basketball and baseball teams year around. Rebecca is a beauty consultant, and they both play the piano. It is great having them live only 2-3 minutes away.

My baby, Alicia, is now 29 – a 2001 graduate of Southern Seminary in Louisville. Poor kid, never got less than an A in any course at any level of school. Wouldn't that be nice? An avid musician (especially piano) she worked and performed in Nashville for three years after college before she went to Seminary. She was going overseas to Mykop, Russia for two years to head up Humanitarian Aid for SE Russia for a company out of Cyprus, Greece. However in July, a suitor came knocking on the door to propose; they were married on November 30 in a beautiful ceremony here in Chicagoland. They will live in Louisville after their St. Thomas honeymoon.

At home, its me and my faithful dog, Sugar a 4 year old German Shorthair. She runs with me daily and is a great companion. Fortunately, I have a Mrs. Kravitz (remember her from Bewitched?) who lives next door who loves dogs and takes care of Sugar regularly when I travel.

Hmm! Let's see what have I done in the last 40 years? Nothing?? Well, maybe so.

Still work as a Welding Engineer at Nooter. They did add "Senior" in front of it (That just means I have gray hair and I am losing that too!). Don't fool with the horse shoeing anymore. Got rid of the "hayburners" and decided to try farming.

(Decided if I had enough money to farm I could just retire). Then started restoring and collecting antique farm machinery. Have about 25 to 30 tractors. I have common ones, such as John Deeres and Farmalls and rare ones such as Rumley Oil Pulls and Keck Gonnermanns. Ran out of barn space. NO MORE TRACTORS!

Moved to Freeburg area (on 22 Acres outside of Freeburg) in 1981. Rented the old house and barn near Yorktown and finally sold out after being a slum lord for about 9 years. Nancy and I raised 2 girls (April and Jennifer) and 1 boy (Art, yeah I made him suffer too, he is the fourth, I am the third). All the kids have engineering degrees and I am broke!

When the kids were teenagers / schooling, that ended the Tractor collecting.

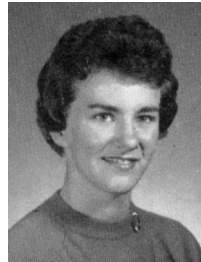

Started serious upland bird hunting after my father died in 1992. Also have a second full time job managing Westhaven Golf Course with my brother and sister (Anybody want to buy into a golf course?) for my mother (little to no pay!).

Four (4) months after my son graduated with a BA in Metalurgy degree from Rolla School of Mines, Nancy died unexpectedly and Nooter downsized (BIG changes taking place in my life). I am still at Nooter with 3 ½ years to go till retirement.

Can't wait for retirement. One of two technical people left in downtown St. Louis office. I guess I have the best of both worlds though (working and

wishing for retirement. Hell, I'll accept being fired to get to retirement).

I am dating a wonderful lady, Juanita Ramsey -- come and meet her. I am rather lucky to have found her, as she has certainly helped my recovery from all the change I have gone through and the retirement change I face. (Almost sounds like "Who moved the Cheese"!)

No awards, medals, or trophies, but it's been a great life!

I have been married to Joe Merriam (BTHS class of '61) since 1966. We have two children, Annette and Brian, who live in San Francisco and Los Angeles, respectively.

I am a Registered Nurse, Certified in Dermatology, and have worked for a Dermatologist for the past 24 years, after hospital nursing.

We retired from water skiing and sold our boat about three years ago. This enabled me to become a golf widow - much of the time - and a very occasional golfer myself. (Maybe I'll get better when I finally retire). We enjoy movies, theater, swimming, reading and travel. The majority to our travel is to the West Coast to visit our children, and to the Caribbean for our annual winter trips.

Good luck on your efforts to locate and coordinate a reunion. It's something I would be interested in attending, except for the travel involved. Also, believe it or not, winter is much milder in Alaska than it ever was in Belleville, Illinois!

I try to get to Belleville every year, but usually in the spring or fall. At any rate, my husband and I will be flying to Wisconsin this December, and driving back to Alaska with my husband's brother/family. We've managed to convert another family member to life in Alaska. I'm sure it had nothing to do with the size of the salmon up here. Hope life has treated you and yours very well.

Thinking back over the last 40 years, I feel fortunate to say that they have been good for my family and for myself. In June of 2002, my husband Ken and I celebrated our 38th anniversary. We married while he was in graduate school and I had just finished my sophomore year at the University of Illinois. I graduated from U of I with a degree in accountancy and later earned a Masters in Education from SIU.

We settled in Sparta, IL, a small town 35 miles from Belleville, in 1965. We have operated our own income tax practice since coming to Sparta. Except for the few months of tax season each year, I was fortunate to be a stay at home mother for about 16 years. Since 1985, I have been teaching social studies to 8th graders at Sparta Lincoln Middle School – a job which is challenging, frustrating, and lots of fun depending on the time of day.

Ken and I have two wonderful children (aren't they all?) Our son Ed graduated from the University of Illinois College of Engineering, served as an officer in the Navy and currently works as a code enforcement and public relations officer for the emergency services department of the City of Virginia Beach. Our daughter Christy is a first grade teacher in Cadiz, KY and the mother of two boys, aged 7 and 5. Our grandsons, Tyler and Conner, have enriched our lives more than we would have thought possible.

We are starting to think about retirement in a few years, moving closer to one of our children, and being able to do all those things we have put off over the years.

Although we have suffered these painful tragedies, I have much to be thankful for - my wonderful husband, our daughter Kim, 2 granddaughters and a grandson and 2 stepgrandsons. Emery and I recently retired and are looking forward to traveling in the near future.

Met my husband, Don, when he was stationed at SAFB, happened to be my sisters boss. Met him at church. The rest is history.

We have one son, 29 now. He does cement construction, generally highway work. Gives you a whole new appreciation for the "slow down" signs. He is a good hard worker and we are so proud of him. He married a local girl, they live in the same city as us.

She works for Blue Cross/Blue Shield. I'm still waiting to be "grandma."

I am the Administrative Secretary for the Chief Public Defender of Sangamon County. My work is NEVER dull. By listening to the news at night, I know what my next day will bring. The work teaches me that life is not equal to all, and it gives me a great appreciation for my own life.

I have two greyhounds (one a retired racer - male, the other female, never raced). Sometimes I feel I need to be rescued from them. We lost our German Shepard a month ago to old age. If I feel I need a good run, I open the front door and let the male out. Just kidding, it's happened on two occasions and he's very hard to apprehend.

After graduation, I went to Bradley University, joined Gamma Phi Beta Sorority, and graduated with majors in English and Latin American history. I began teaching at Washington High School in Washington, IL. In 1968, I moved to Aurora, IL and taught in the West Aurora School District for 26 years.

My husband Bill and I were married in 1978 and will celebrate our 25th anniversary this summer. Bill was also a teacher and coach in West Aurora. We took early retirement in 1994 and I now work part-time at the public library, Bill works for AXA advisers in Chicago.

I have a stepdaughter Kimberly, who lives in Florida with her husband, Mike. We have 2 great dogs, Tika and Gozno – (both mutts). We both enjoy golf and I enjoy also reading, long walks, and exercise at the local gym. I feel that I have been blessed in many ways – but I have only one question – where have the years gone?

Doug and I have been married 34 years and live in Springfield, Illinois. We have truly been blessed over the years. We have two children – Jennifer and JD (Joshua). Jennifer is married and has two children (Alexandria is 2 and Zachary was born in June 2002).

In 1995 JD played in a high school football playoff game at BTHS West (Lanphier played Belleville Althoff). Unfortunately our team lost, but it was a thrill to watch him play on the field where I attended high school.

I am an executive secretary now and work for the Illinois Department of Human Services in Springfield (2 blocks from the state capitol). I enjoy my work very much. All of those hours and practicing and learning shorthand in high school have really helped me in my clerical positions over the years.

I appreciate all the efforts of Dee (Kohlenberger) Hoffman in locating me to let me know about the 40th class reunion. I am sorry I will not be able to attend the reunion this year. We had prior family commitments. Hopefully the next one being held in the summer will make it a bit easier to attend. I still have contact with several people in Belleville and always enjoy hearing from them.

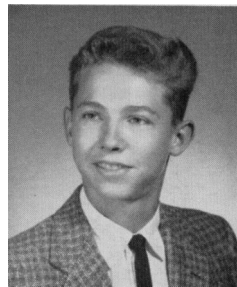

I am very grateful for the excellent education I received at BTHS and thankful for the excellent caliber of teachers our school had. I am very proud to be an alumni of BTHS – the Class of '62.

After graduating from EIU in 1966, I taught Kindergarten in Belleville, until my husband was drafted. About 15 moves later, compliments of the Army (13 months in Hawaii!) and subsequent job changes, we ended up in Bloomington, IL with 2 children.

During the next 27 years, I was manager of a large garden center, got divorced, had 4 grandchildren, got remarried, and worked at Mitsubishi making cars. I took early retirement (can we really be that old??) last spring and am now pondering what to do with the rest of my life.

My past 40 years?? No way! This past year – 2002?? Maybe. In February, my husband Michael and I celebrated our 29th wedding anniversary. I lucked out marrying Michael – he's warm, intelligent, fun, hard working and athletic (has a great fade-away jump shot – his team won Illinois Senior Olympics (over 50) basketball championship this year and will go to Nationals in Virginia in 2003).

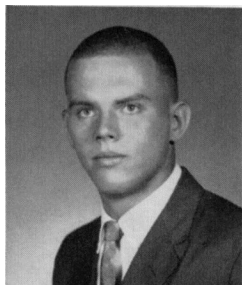

In February we cancelled a scheduled vacation due to illness and death of our family dog Pogo. In March we took an unscheduled trip to northern Minnesota for a week of skiing. In May, our daughter Kelly (our favorite only child) and I took a week's trip to Mexico to do some serious beachcombing, swimming and snorkeling on the reefs off the coast of Cozumel.

Kelly, aged 23, is a 2001 graduate of Regis University in Denver (BS in psychology) where she now lives and works selling software to architects, engineers and businesses (she is top salesperson this quarter). She's also a volunteer and is training for the

Leukemia and Lymphoma Society's marathon in New Orleans in February (Mardi Gras) of 2003.

In April, I completed EMDR Level II training and in May I completed training in Dialectical Behavioral Therapy for Borderline Personality Disorders. I am currently a therapist, practicing clinical psychology, having received a Master's degree in Social Work from Washington University in St. Louis in 1994. (I took an early retirement from Southwestern Bell in 1992.) I work in an outpatient community mental health clinic approximately 30 hours a week. I love my work. (After all these years, I've finally discovered what I want to be when I grow up.) I've been lucky to work with a great team of therapists, psychiatrists and nurses. I especially enjoy supervising the MSW interns from SLU, UMSL, SIU-E and Wash U where I have the pretentious title of Adjunct Professor.

In September we spent a week in Denver visiting Kelly. We plan to visit friends in Austin in October. In November we will be hosting the family Thanksgiving dinner and in December, family Christmas dinner at our house. Traditionally, my mother assisted in the cooking. She died in 1997, but I'll be using her recipes for the rest of my life. Michael and I live in Olivette, Missouri.

I still carry a discolored front tooth thanks to our fellow classmate, Frank Batha, whom I accidentally bumped into on Okinawa in 1969; but otherwise have enjoyed good health. I drive a restored IH Scout II Pick-up and show my bulldog occasionally. Currently building a cabin on Lake Tenkiller in Eastern Oklahoma. After high school, I pursued my dream as a disc jockey at several radio stations in Illinois. In 1963, at the mature age of 18, Vicki Kohlenberger (class of '64) and I eloped.

Drafted in 1968, I went to Vietnam (1969-70) and served in the Public Information Office of the 4th Infantry Division near Pleiku...doing radio and television for the troops.

After returning, Vicki and I divorced, married "middle spouses," and 19 years later, we met again and remarried in 1990.

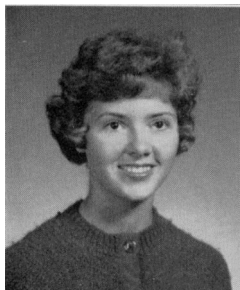

In the meantime, I had started and owned several international trade associations, but have now sold all but one, The Professional Association of Resume Writers & Career Coaches (PARW/CC), which I still own and manage.

Vicki and I never had children, together or apart, but we do have two beautiful Bichon Freise puppies (both are adopted). We live in St. Petersburg, Florida where Vicki serves on the Board of the Florida Orchestra, we play lots of tennis, and I also enjoy woodworking, shooting pool, and picking a few "oldies" on the guitar.

Married 38 years to Joe Ganschinietz (BTHS 60). Joe and I have three children – Scott Eugene, Mary Trisann and Amy Kathleen. Scott has an economics degree from SIU-E, Trisann has an early childhood teaching degree from SIU-E and Amy a biology degree from McKendree. All three kids are married, with Trisann giving us our first grandson, who is now 1. Amy is expecting our second grandson in February. Much of our life revolves around our three kids who all live in this area.

After high school, I attended U of I for two years, and then dropped out to marry Joe. Worked as a secretary for Edison Brothers in St. Louis for ten years. Then, I stayed at home with our children until our youngest was in 4th grade. I went to work for the local school district as the secretary to the Superintendent and to the Board of Education. A side benefit (yea right) is the fact I have to find substitutes for all 55 of our teachers – so my home phone starts ringing early in the A.M.

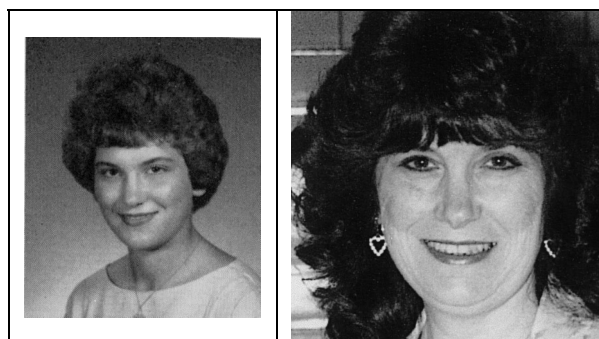

Joe and I are avid campers and have gone from a tent to a tent trailer, then to a 26-foot bunkhouse travel trailer and finally to our current 30 ft fifth wheel. We're accused of having a mobile apartment – and we say – right! as we rest in the recliner under the ceiling fan in air-conditioned luxury. We were active in the National Campers and Hikers Association and helped to organize and run the emergency / information center at the DuQuoin Campvention in 1976 where we and our crew received and delivered 300 emergency phone calls to 7000 families during the week long camping convention.

August of 1966 married Ken Cook – lived in Bermuda one year, one in New Jersey – he was a Captain in the Air Force. Taught in the American School (on base) in Bermuda, then one year at the McGuire AFB-federal school for one year. When released from Air Force, moved to Denver CO.

Ken (husband) got graduate degree in Mech. Engineering at U. of Denver, and I taught school in Littleton, Colorado – then, he worked there, and we had two sons – John is now 30, married and lives in Springdale AR – they have given me two beautiful grandchildren. He graduated from the U. of Arkansas in 1994 and married Michelle (a local girl who graduated when he did). They lived in Houston for 3 years and moved back to Razorback Country in 1999. K.C., our other son, is now 28 and married last November – Kori is our new daughter. They both graduated from Stephen Austin University and live here! We came to the Houston area in 1974.

I worked at Whitcomb Elementary for three years (next to NASA). Moved to Spring in 1977 and we have been in our home since then. I began teaching in Klein I.S.D. In August 1977 was asked to get my graduate degree in school administration – did that and in August 1979 became an assistant principal. In 1980 I took the position of Principal at Glenn Elementary – was there as Principal for 22 years.

It has been an interesting 40 years and I am looking forward to your stories. After we graduated, I went to Washington University and received an A.B. in 1966 and a law degree in 1969.

The highlight was marrying Barbara Mostow in July of 1966. We have two children, Andrew, a professional magician in Los Angeles whose wife is a singer, and Stephanie, a lawyer in Massachusetts whose husband is a teacher. She is expecting our first grandchild in December. Both of our children went to Belleville Township High School.

After service in the reserves, I practiced law in East St. Louis and was appointed an Associate Judge in 1975, elected to a circuit judgeship in 1982, and elected to the Appellate Court in 1988, where I am presently a judge. Besides the joy and excitement of two contested partisan campaigns and a retention election, I have been President of the Illinois Judges Association, active in the Illinois State Bar Association (presently Chair of the Civil Practice and Procedure Section), and deciding that being a glutton for punishment was a virtue, got a Masters in Law from the University of Virginia in 2001 (it was a fantastic and positive experience).

After graduating from Washington University, my wife Barbara taught school and got her Masters and Ph.D. at Southern Illinois University and is now teaching teachers at Harris Stowe State College.

My hobbies include reading (especially politics and history), travel (as often and as far as we can – England, Israel, China, Peru, and Paris), occasional fishing (I have assured my vegetarian daughter that the fish are quite safe), and some cooking. The last 40 years have been good years, and I am looking forward to seeing all of you. docjudge@charter.net

Five pretty successful years as Merrill Lynch broker in the 1970s. Over-the-road trucker three years. Self-employed merger-acquisition broker 1990 until retirement in December, 2000.

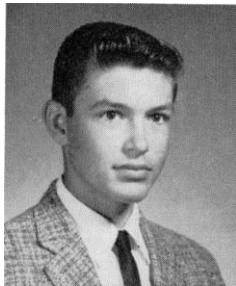

Amateur road racer for 20 years. Own and race the fastest (original, "the real thing") 289 Shelby A.C. Cobra in the country. Missouri State Senior games champion, softball distance throw, 1996.

Like most of you, I've done things I never dreamed of in 1962. I married the love of my life, Craig Baumrucker, 36 years ago and life has been a great adventure ever since. We had 2 terrific kids, Kara (34) & Tate (31), who were and are our best buddies.

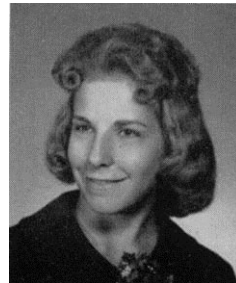

We've spent most of these 40 years living in college towns and have been in State College, PA since 1981 where Craig is a Penn State professor and I'm the Language Arts/Social Studies Coordinator for our school district.

Some of our best times have been spent canoeing, fishing the wild rivers of northern Canada with the kids. On one of those trips we "discovered" a lonely, lovely lake and now spend 2 weeks each summer canoeing, fishing and not seeing another human soul the whole time. A couple of years ago we took a month to motorcycle the back roads from PA to CO and saw our "real" America.

We lived in Switzerland for 2 years, butchered their language, fell in love with the country and were surely the only 2 people not skiing. All in all, it's been a great life. But did any of us really think that some day we'd really be older than our parents were in 1962!!

I married my high school sweetheart, Jim Clark, on June 8, 1963. Many of you may remember him. We had 3 children, Kim, now 38, Jim Jr., now 36, and Tim, now 26 (no, not an accident). Kim has 2 boys, 19 & 18 and lives in Key West, FL. Jim Jr. has 2 girls, 14 & 13 and lives in Livingston, IL. Tim has 2 girls, 6 & 2 and lives in Pontoon Beach, IL. We live in the country on 15 acres of woods (our heart's desire) between Alhambra and Livingston, IL.

I believe the most exciting thing that has happened to me in the past 40 years is accepting Jesus as my Lord and Savior about 22 years ago. Jim followed about 6

To celebrate our 37th wedding anniversary in October 2002, Ed and I took another road trip, this time to Washington DC and the surrounding area to

enjoy the fall foliage. Starting in 1987 we began taking 2 to 3 week road trips every summer and have explored every state except CA, numerous provinces in Canada, plus Nova Scotia and Mexico.

Our tour of South Korea, Japan, Hong Kong, Macao and various areas of China was marred only by the uprising in Tiannamen Square; we made it out of the country less than 24 hours before the troops moved into the lovely square at which we had marveled, although we knew something was amiss when, a few days before, we tried to rejoin our group in Shanghai, only to be thwarted in our efforts for hours by rioting students.

Still enjoying hobbies begun years ago, our yard now sports over 100 different types of flora although we wish the fauna would stop nibbling on them. And my photography has not been the same since the advent of the digital camera. The delete function is my favorite. Since our son's marriage in 2001, Ed and I have re-entered the bowling scene; Ed still as competitive as ever but I'm just out for the exercise. I've resigned myself to the realization that the days of 200+ games are over (maybe). The three of us still target shoot, trying to get to the range at least once a month. I look forward to my H:0 Pilates class plus working out with my trainer 2-3 times a week – have to keep the body going, kids.

Most all that has happened the past forty years is surpassed by the excitement of becoming a grandmother for the first time. Daughter Shannon and her husband Jon of Cheyenne, Wyoming are expecting their first child in February (no news on whether the baby is a boy or girl).

I have been working with research mice since earning a masters degree in biology. While working at (what was then known as) the Jewish Hospital of St. Louis, I met my husband of 20 years, Jeff, a Ph.D. in microbiology.

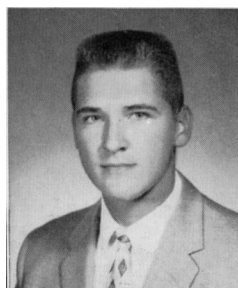

Working together has led us to jobs operating a transgenic facility at Emory University in Atlanta and now at a genetic research institute, The Jackson Laboratory, TJL. As employees of TJL, we have had

the opportunity to live in both Davis, CA and Bar Harbor, ME.

We are currently enjoying living and working in Bar Harbor. Not only is it a great place to work but also a beautiful place to live being part of Acadia National Park. Our plan is to retire and remain in Maine. I would have loved to attend the reunion but we had already made plans to spend Christmas with Shannon and Jon. It would be great to hear from anyone who would like to drop me a line.

Dear Class of '62, so much has changed in our lives in the 40 years since we left BTHS. I've been blessed to spend 34 years married to Harvey, living most of the time in Nashville (with 10 chilly years in Milwaukee). We've raised two daughters and numerous pets. I'm still enjoying teaching young children to read, and my enduring hobbies are dance, gardening, travel, and reading. I'm especially grateful to my high school teachers: Mme Skarr, who gave us a love of France; Ms Hollander, who taught us to think deeply about literature; and Mrs. Guthrie, who taught us the logic of geometry in the classroom and, as cheerleaders, gave us the opportunity to be athletic and the skill to work as a team, winning or losing graciously. I remember so many classmates fondly. In my mind you are still 18 years old! Wishing for peace in our lives and in the world.

I have been divorced since October 1984.

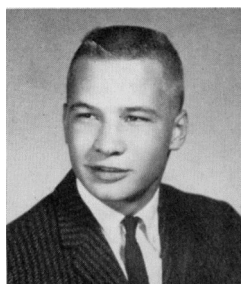

I have two children. My son Tracy is 36 years old and has never been married. I still have hopes he will one of these days. My daughter Stacy is 33 years old, married, but no children. My only hopes to be a Grandma are with my daughter and her husband.

I received an Associates Arts Degree from William Woods College (now University) after I graduated from BTHS. I married and lived in Fulton, MO until nine years ago.

After a relationship ended, I moved to Springfield, MO to be closer to my kids who had both graduated from Southwest Missouri State University and stayed in Springfield. My son and I bought some apartments together and I live on site and manage them.

For years I wanted to go back to college and get a degree. So that's what I did. I graduated two years ago with a BS in Dietetics. My goal was to be a registered dietitian, but in the meantime we bought more apartments. I now manage 142 apartments and really like the work. In order to be a registered dietitian, I would have to go to a one-year internship and none are offered in Springfield. So that's on the back burner.

I am looking forward to visiting with everyone at the class reunion.

Russell and I just had our 40th wedding anniversary. He is a self-employed homebuilder; so we have a new home every 2 or 3 years. We have 2 sons, Robin, the manager of a Wal-Mart Supercenter in

Delaware, and Michael, who is also a self-employed homebuilder in Lake of the Ozarks area in Missouri. We also have 2 granddaughters, 10 and 13 years old, and 2 grandsons, 5 and 4 months old. We did live in Louisiana for 10 years where we both worked at a hospital. While living in Louisiana, our home was hit by a tornado and completely destroyed—and we were in it! We were lucky since there are no basements in Louisiana. After coming back to Illinois, we both worked at Scott Air Force Base while he was building. Most of my life I was a stay-at-home mom. We hope to retire next year, and live on our rental property (duplexes) that he also built.

After graduation I went to work for the State of Illinois. In May 1964 I married Richard Fichter and am still married to him. I have 1 child born in July 1966, have 1 grandson and expecting another grandson in February 2003. I was diagnosed with cancer in 1998 and still fighting to survive. In August 2000 I retired from the State of Illinois after working 33 years. In March 2002, we moved to El Mirage, Arizona for health reasons, and are enjoying the weather and retirement. My hobbies are traveling, quilting and embroidery, and on occasion do some gambling.

Haven't done anything noteworthy in the last 40 years other than wear funny hats and dance the cha-cha.

After several degrees, worked as a painter (not of fire hydrants), teacher, and paralegal (some kind of left-brain/right-brain thing going on).

Two kids, two grandkids.

Travel every chance I get. Responsibilities done, so now I'm living in my dream home (adobe, Santa Fe style) out in the country with the coyotes and

jackrabbits, soaking up the sun by day and howling at the moon at night.

Oh, I got married on November 15th to a great guy. Belated gifts are appreciated. If you want to visit the west sometime, give me a jingle. I've got a killer guest room.

(June - October: 108 Pinecrest Lane, Lansdale, PA. 19446 (215) 361-5737)

I married too young and for the wrong reasons, but the marriage did last 10 years with some happy times along the way before we divorced. It produced my 2 beautiful daughters. Sometime later I married again and lived in Creve Coeur, MO for 11 years.

During this time I went back to school, received my degree in elementary education and taught school for a while. We moved to Key Largo, FL., where we built a new home. My husband died from a heart attack one week after we moved in.

I taught school for a year then got into property management. It was during this time I met Richard Hoffman who lived in PA. After a long distance friendship / courtship, we married and I moved to PA. I currently work at home keeping the records

and books for the rental properties we have, and helping with the repairs (I've learned to do simple plumbing, electrical work, wallpapering and swing a mean paint brush among other things!)

My husband, who is in sales and marketing, took a brief retirement, decided he was too young for that, so accepted a position with a company whose corporate office is in Stuart, FL. He and the company compromised with his working 6 months out of our home in PA and 6 months in the corporate office—with us choosing the 6 months! So we spend May-October in PA and November-April in FL.

My daughter, Lori (39), her husband and two sons, Aron 11 and Kurt 6, live in Davie, FL; and my daughter, Leesa (36), her husband and children, Thomas 14 and Christeen 10, live in Kendall, FL. My husband's daughter, Jill (38), and her son, Ryan 10 live in Wayne, PA, and his son Brett (36), who is still single, lives ½ mile from us in PA. I have been blessed with my two daughters and their families, and now share my life with a wonderful man who is my best friend as well as my lover!

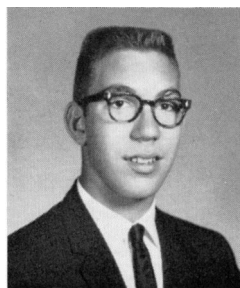

I try to give back by volunteering at our church in PA and in FL for a children's center for abused and neglected children where I am on the Foundation Board of Directors. I have been fortunate to have traveled to all but 5 of the United States as well as many European and other foreign countries. My hobbies are needlework, golf, boating, traveling and motorcycling (yes, I do have a motorcycle license!). We plan to take a wonderful vacation next year by motorcycling through the Alps in Switzerland, Austria, Italy and Germany. Retirement, at this time of our life, is not for us. As my husband says, "If you rest, you rust!"

College, University of Missouri at Rolla, and Oklahoma City University where he received his B.S. and M.B.A. in engineering. Barbara & I enjoyed watching and participating in the kids' activities throughout their school careers. We enjoyed many water skiing trips to the Lake of the Ozarks and family site seeing trips to Florida. In 1983 Barbara passed away leaving a loving family and many, many friends to remember her as a very loving and caring mother, wife and friend. In 1993 I married Doris Heberer. 40 years?? Unbelievable! My mother has always said, "The older you get, the faster time flies". She's definitely right! After completing college and having a son, I lost my husband, Tom Evitts, in a car accident. Years later my son, Grant, and I enthusiastically welcomed Marvin Meddows into our lives. Well, Grant is now 36, and I still have not become a grandmother, unless we count our Beagle's 7 puppies!

I've taught in 2 school districts for a total of 31 years - all in 3rd grade. You'd think I would have passed by now! I've really enjoyed teaching, but I'm beginning to get the "retirement itch"!

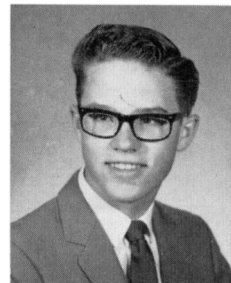

For 27 years we lived in and totally restored / remodeled an 1890 Victorian home in the Belleville Historic District... a beautiful house filled with a mix of old and new. When it began to feel too big for the two of us, we built a wonderful home in Lebanon, Illinois. It is by a golf course which keeps our 15 year old Jack Russell Terrier, Frisco, busy collecting golf balls. There have been many changes during these 40 years. For me, most of them have brought joy and good memories.

Having had three children I gave up being married in

the mid seventies. They've provided me with 'almost' nine grandchildren. The oldest entered college this fall and the youngest will be born at the end of the year. For me, an only child, this is a good size family group! I work for an agency that provides residential services for mentally retarded adults in community based homes. Our first group came from one of the older institutions and we all learned together. That learning continues as our younger residents come from their family homes. Not long after the reunion, I'm planning to move back to Victoria, Texas where I'd lived prior to attending high school here. As much as I've enjoyed the past forty years in Illinois, I'm looking forward to mild winters, soft South Texan drawls, and nearby beaches.

I've always had a passion for travel. It seems to be worse, since I visited Paris, France. Mr. Stover might be surprised to hear I remembered some of the French he taught – yes, I was listening! Since my sister and I had so much fun on that trip, the same group of us toured Italy in the summer of 2001. Now, we plan to visit Prague, Vienna, and Budapest next July. Bon Voyage!

My wife (Sherry) and I have been married for 34 years. We have three grown daughters and they have all graduated from college and none of them have moved back home—at least yet. Our eldest daughter lives in St. Louis and is a professional Girl Scout. Both of the other two live in New York City, one is an editor with Court TV, the other is a production assistant with Broadway Video, a company owned by Lorne Michaels, the executive producer of Saturday Night Live.

After college (it took me almost 6 years) I went to work for Ernst & Ernst (now Ernst & Young). I spent 14 years with them working on the audit staff as a CPA. For the last 20 years I have been the CFO of a Holding Company in St. Louis. The Company I work for owns two outright (employing about 500 people) and we have minority interest in several other companies ranging from banks to medical billing to golf courses.

The one I have been spending the most time on recently is Miami Air International, a charter airline with 8 Boeing 727's and 737's. I am the Chairman of their Board of Directors. They provided the

As of this writing I have been retired 3 weeks from Illinois Power, after working there 37 years & 4 months. Twenty-four of those years I worked out of the Belleville office and thirteen years out of the Mt. Vernon office. In 1965 I started as a meter reader, then went into line work and in 1985 took a position as Assistant Electric Superintendent. In June of 1989 I accepted a position in Mt. Vernon as Electric Superintendent, moving to Mt. Vernon in August 1989.

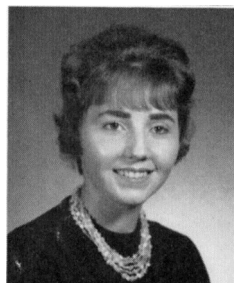

Having lived right on Rt. 159, north of then Swansea, for 20 years, we moved to 20 acres just north of Mt. Vernon. Smack dab in the middle of the woods.

I am still married to Jill (Walker), class of '64, whom I married one week after I started at Illinois Power. We have 2 daughters, Kimberly (Brien) - 35 and Pamela (Mrsich) -32. They each have 2 children - Kim's are 10 (girl) and 9 (boy) years of age. Pam has two girls - a 3 years old and a 20-month-old. Pam still lives in the Belleville area and is a First Grade teacher at Douglas School, Belleville. Kim lives in the outskirts of Kansas City, KS. She is an Occupational Therapist with a school district in that area.

My father Andrew passed away in 1998, my mother, Melva, lives here in Mt. Vernon. Before moving to Mt. Vernon I served on the St. Clair Township Board for 16 years.

Jill & I enjoy traveling having been to Kauai, HI, numerous times, Sanibel / Cap., FL, sailed in the British Virgin Islands & a few others. I attempt to play golf, as Jill asks each time I play "Did you play well or did you have fun?" My favorite hobby is sailing, which I do at Carlyle Lake with several friends. We try to visit the grandchildren as often as possible and enjoy having them here in the country for visits. I am building them a tree house; a

suggestion made by our 10-year-old granddaughter a couple of years ago. Plans for the future are still up in the air but Jill and I are hoping to do some traveling and I have some more sailing that I need to do.

We also have 9 (yes, count em - 9) cockatiel birds ... they are the precious ones with little orange dots on their cheeks. They are spoiled rotten and we love them. Some sing and some do tricks. We retired in 1999 but stock market and my health caused us to move back to Memphis where we live in our RV trailer and my husband works for a trucking firm as a computer programmer. I am unemployed due to my health.

I worked at a savings and loan in St. Louis after graduation. I became engaged to Louie Gain "class of '63" in the summer of '62. We were married in '65. We moved to Warrensburg, MO, where Louie finished college and received his degree in industrial arts. I attended and graduated from Central Missouri State School of Cosmetology. We moved to Crocker, MO where Louie taught industrial arts and also had a general contracting business. We adopted our

daughter Kimberly in 1970 and were "surprised" by the birth of our son Thomas in 1971. We moved back to Illinois in 1974. Louie taught wood shop and coached wrestling at Jacksonville High School in Jacksonville, IL and also had his contracting business. I had my beauty shop at home. Louie retired after teaching 32 years, but still has his contracting business. I closed my shop. We have enjoyed traveling and watching our four beautiful grandchildren grow up.

I moved away from Belleville in 1968, and became a world traveler, traveling around the world several times over with the U.S. Army Corps of Engineers. I enjoy the relaxing lifestyle living in Florida, after having lived in Japan, Israel, Germany and Korea. I married a widow with 2 small children in Korea, and now those 2 children are in college and my wife and stepchildren successfully completed the enormous paperwork necessary to become citizens. So many people I worked with died very young, some in the office, so I retired one year ago. Since my wife owns a business and this time of year is the profit time, I will miss the reunion. Having walked the crowded halls of BTHS West, I feel very sad the school will soon be empty. Having supervised construction around the world for 38 years, the new BTHS West will not last as long nor be as ornate as the old one. I am curious, as to which politician will benefit from the sale of the old high school. Have a good time!

A Microbiologist since 1966, she graduated from Union University in Jackson, Tennessee.

We recently moved from our home of 30 years into a retirement community in Glendale, AZ, because of Bob's health problems. We have a smaller yard that is colored gravel and is low maintenance, and a smaller home too. We do miss all our birds that we "farmed out" to friends that also have aviaries, but we kept a few "favorites"— can't have a name like

Hello Class of '62 -- I now reside in a small town near the base of the Ozark foothills. I have two terrific kids: Kellye, 28 and Bryan 23.

I work for the Supreme Court of Missouri doing continuing education for Judges. My life is full with work, friends and family. And I, like everyone in the Class of '62, find it hard to believe that forty years has passed since the days of Hobo Day floats and Friday night football games.

If someone were to comment on me and the quality of my life, I can only hope they would quote Emerson and say she "laughed often and loved much". Please come up and say Hello at the reunion; I look forward to seeing you. Thanks, Pat

In 1971, I received an M.E. in E.E. from the University of Alabama. In 1986, I received a Ph.D. in E.E. from Vanderbilt University. In 1995, I was made Chief of the Instrumentation and Control Division of the Astrionics Laboratory at NASA-Marshall Laboratory with 350 engineers in the laboratory. In 2001, I retired from NASA as a senior manager and accepted the position of Associate Professor of Aerospace Engineering and Mechanics at the University of Alabama. I presently teach and do research in the areas of spacecraft and aircraft dynamics and control. On the humorous side, I have been married twice; the first time for 12 years and the second time for 16. If I get married again, I will shoot for 20 and that should carry me to the end. I believe Mrs. Guthrie would say this is a good example of an arithmetic progression.	(1982: "Spouse: Kenneth. Hi classmates! After 2 years at Randolph Macon Womens College – married Bob Muskopf (class of '54) in 1964. Finished college at SIU-Edwardsville in '66, BS in Education. Taught 6th grade for 2 years in Millstadt. Then had 3 daughters – Susie '68, Sarah '70, and Jennifer '71.

We moved to Dallas, Texas in 1975. Career at this point: raising 3 kiddos plus a menagerie of pets. Substituted, taught pre-school 4 years. Tried the business world, even sold Tupperware, and then finally, started a sewing business at home. Wow – it isn't work anymore just fun. I LOVE MY BOSS!!

Continue to read. Love movies, gardening, Bob (38 years), the dog who is a Gordon setter named Augie, and especially our 3 year old granddaughter – Amanda (Sarah's), the two girls who live in Lake Tahoe and the one in NYC!!

Life is great and just keeps on getting better... I'll make the next reunion - I promise.

Well, I am wondering just how it is one goes about summarizing the last forty years of their life in one or two paragraphs. I could write incredibly long paragraphs, but I have the feeling that the committee would do some serious editing and if they didn't, no one would read it anyhow. Most people who are reading this probably started off by saying "Terry who? Did he really go to BTHS?" Yes, I did, for four years that I enjoyed (mostly) and during which, except for some great friends I had, I managed to remain relatively anonymous.

Here is, more or less, what I have done since graduating in 1962. I went to Belleville Junior College, graduated from there and went to SIUE, where I was the student body president and got a BS in Education. I got a job teaching social studies in Mehlville (rhymes with Belleville), left that job and got a job teaching social studies at McCluer High School in the Ferguson Florissant School District.

I got married and had two children—I still have them, they are two boys, Mark and Eric ages 35 and 31 (now that could make a guy feel really old). I got unmarried, then got remarried, had another child—I still have her, her name is Rachel and she is 28. My wife, Karen and I have been married for almost thirty years now. She is my best friend and the best person I have ever known. We have the world's finest grandson. His name is Mason - he is nine.

My kid sister, Penny, died and my Father died. I miss them both. I became an Assistant Principal at McCluer North High School. I liked that job a lot, so naturally I left it, did a bunch of other stuff for awhile but I don't have the space to list it all. (It was all legal.) Eventually I wound up back in Ferguson-Florissant as the Principal of Berkeley Middle School. I retired in 1997. I became the Director of Leadership Development for Cooperating School Districts, did that job for two years and then started my own consulting business. Karen retired in 2000

and we are both consultants.

I am currently the Vice President of North County Inc., an organization that promotes the economic, educational, political and social aspects of North St. Louis County. I am on the Executive Board of the North County Chamber of Commerce. I received the Charlton Tandy Humanitarian Award from the Ferguson-Florissant School District. Both Karen and I are Red Cross volunteers, she just returned from helping out in the aftermath of hurricane Lili. It has been a good forty years, due in part at least to the time I spent at BTHS and the friends and teachers I had there. They are all a part of who I am today and what I will become tomorrow. It is nice to have a reunion to remind me of that fact. Thank you, reunion committee, for doing this.

Diane Hollerbach (Wilkerson) just emailed me about your nefarious plans to gather all us older folks to remember what it was like to be younger folks. She also said you wanted a paragraph which would include what we want our classmates to know about what we have been doing. I am assuming that would exclude the mention of prison time, a list of the jobs I have been fired from, or testimonials from the wives who have divorced me, but I will come up with something. (1982) "Spouse: Heather Lupton, Children: Amelia 6 months. Two weeks after graduation I went to work at Southwestern Bell Telephone Company as an operator. During the next 35 years I worked in repair, installation and preventive maintenance. While sitting in the same chair went from Southwestern Bell, to Illinois Bell, to Ameritech finally retiring from SBC in 1998. In September 1963 I married my husband Ralph Corley. Although Ralph was in the Air Force we only moved once to California and back to Scott Air Force Base. Our son William was born in 1970 and our son Christopher was born in 1972. In December of 1984 I had surgery for cervical cancer and I'm a survivor. Ralph and I have seven beautiful and healthy grandchildren. Since our retirement we try to spend more time with our scattered families while working on the genealogy for both. We come and go as the mood suits us. We have so very much for which to be thankful.

As a nurse, I have worked in obstetrics, physician offices, home health and currently, I am a Parish Nurse for the Deaconess Foundation in St. Louis. I serve at St. Paul United Church of Christ in Belleville. 1996 was a transitional year; our first granddaughter was born and two months later my husband died unexpectedly. In 1999, I was blessed with another granddaughter and adore being called "Grandma." Despite a few challenges, my past 40 years have truly been filled with love and joy. I look forward to seeing classmates at our reunion, hopefully the nametags will be LARGE.

What have I been doing the last forty years? I would imagine the same as most people – school, marriage, jobs and family. Nothing out of the ordinary, but I've had a lot of fun and enjoyment along the way.

Here goes the tale. After college, my first teaching job was in the social studies department of BTHS West. It was great working with some of my former teachers. At the end of the year, my husband took a job in Connecticut and that's where we've been ever since. I completed graduate and postgraduate study there and have been teaching junior and senior high school students for the past thirty plus years.

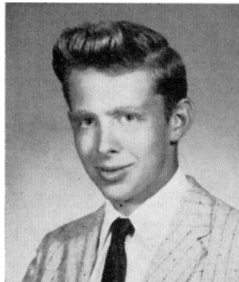

To show how small the world has become, many of my coworkers have traveled to Belleville and a student has grandparents in the area. Professionally, I feel that I have been truly blessed for having been allowed to share the lives of so many young people.

Personally, my husband and I have enjoyed raising our son and creating a home in the Connecticut countryside. We have become antique boat enthusiasts and have made terrific friends nationwide while pursuing this hobby. Our plans for the future include continued traveling and enjoying our ever-increasing families in the Midwest and East Coast.

Bob Thomas and I married August 8, 1964. We have two sons, Tim and Don, who are both Mechanical Engineers. Tim works for a computer software company in San Jose, CA and Don works for a medical research company in San Diego, CA.

Bob and I both enjoy golf and boating. I am retired after working for 12 years with Harrah's Hotel & Casinos in Lake Tahoe, Nevada. Also part of our family is "Maggie", a beautiful golden retriever, who also loves to go boating with us. We have taken many vacations to beautiful Hawaii but this year we are taking a cruise to Alaska.

I married my "first wife" Sandy Wild, in 1966, and we have been together now more than thirty-six years. We have two children both boys: Rod, born in 1970, and Jeff, born in 1973. Both are married, with Rod living in Atlanta, Georgia and Jeff in Shiloh, IL, and we have one grandson, Timmy. I received an Associates Degree from BJC (BAC, now SWIC), in 1966.

I am the third generation of my family to be in the construction business, and my sons have followed

suit. I have been fortunate in my career to have played a significant role in a number of major projects, including Jefferson Barracks Bridge, St. Louis Children's Hospital, Bank of America Building, Southwestern Bell Data Center, and numerous Power Plants, Locks and Dams, Pharmaceutical Facilities, Food Plants and Industrial Plants.

In my free time, I enjoy boating with my family, water skiing, snow skiing, scuba diving, hunting, fishing and collecting what my wife says is JUNK.

My life has been one great adventure. The last 40 years has gone by very quickly. After high school, I went into the Air Force and became a medical technician on the DC-9's. Then after that, bowled for two years on the professional bowlers' tour. Then I worked as an assistant alley manager at Village Bowl in Cahokia, IL where I met my wife of now 34 years.

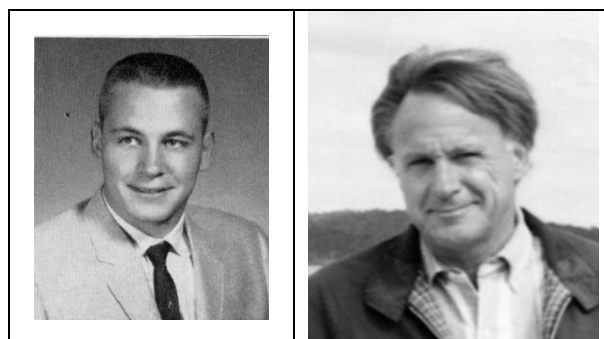

After having many jobs in different career fields, I started a restoration business for exotic racing cars. I restored mainly Italian and German cars. This business became very successful and I developed a very good client base. Then in 1989, I closed the shop and became an automotive racing car broker and supplied mainly five clients with vintage racing cars of the 50's. I continue to do this today.

It is still an exciting career for me and the people I've met I never would have met in another career field. So, the adventure continues.

I received an A.B. from Washington University, his M.D. from Baylor College of Medicine in Houston. I married Kathleen Gill, who was raised in Manhattan, N.Y., and who, at the time of our marriage, was a biochemistry graduate student.

I was a general medical officer at Camp Pendleton for two years, then finished residency in anesthesiology and have lived in Jacksonville since 1976.

We have three sons: Jim in Dallas who is in film production, Tom who is in his third year of a surgical residency in Boston, and Kevin who is a senior in high school. My partner, Dr. David Crochitly, is in Afghanistan at the present time and is expected to return a week before Christmas.

Son Tom & his new wife Ann will be visiting over the holidays. Hence, my reason for not coming to the reunion. Were it not for that, I would certainly attend. I enjoyed living in Belleville, attending high school, and knowing the many wonderful people that were my classmates. I hope to be able to attend the next reunion.

He received basic training at Camp Pendleton, CA; shipped to Okinawa, then served in Viet Nam.

Upon return from Viet Nam in 1966, he married BTHS graduate Ruth Ann Wilson. They resided in Oceanside, CA, and returned to IL after he was discharged from the Marines in 1967. In June 1968, the Freeburg tornado completely destroyed their new mobile home and all possessions, and they, along with young daughter, sustained many cuts and bruises. They then moved to O'Fallon before settling in Okawville.

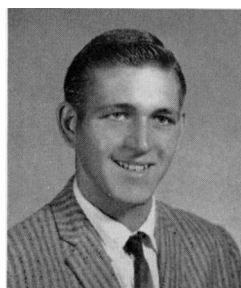

He was a huge fan of Elvis Presley, enjoyed restoring his 1956 red and white Corvette, and raising horses. His memories are alive in the hearts of Ruth; his two daughters, Wendy and Cindy; his father; and two sisters, Carol and Gloria Jean. Ruth and daughter Wendy continue raising and showing horses while daughter Cindy has become a big fan of Elvis and hopes to own a Corvette someday.

I've been married for 37 ½ years to Ralph, who was a BTHS graduate in 1959. We have lived in Camdenton, MO (Lake of the Ozarks) for 25 years. I have managed Blanquart Jewelers for 15 years at Tan Tara Resort. We have 3 children: Rona, who lives in Belleville and works at Allsup; Randy, who is married to Jennifer and lives in Camdenton, MO and sells ads for the phone book; and Ryan who is married to Erin, lives in Boynton Beach, FL, and works for Hoyt Hanks. I have one granddaughter Olivia age 2 and one grandson Nolan 9 months.

After leaving high school I married Bill Schaumleffel (class of 1957) in 1964. We have three boys now 33, 30, and 26. Our oldest son, Bill, is the Fire Chief of an Air Force Base in the Detroit area. Our middle son, Dirk, owns two area Meineke Shops and in the process of building the third. Nathan, our youngest, is working on his Ph. D at the University of Illinois, his wife is working on her Masters in the same program. We have three grandchildren, all by our oldest son.

I work part time in the insurance field while Bill has been enjoying retirement for five years. He loves it, but I enjoy the part time hours. After Bill's retirement we took a trip to Europe, touring seven countries. We have taken several trips with my old friend Carole Saltzman Wilson and her husband, Kenn. We also try to spend as much time as we can at the Lake of Ozarks with our son. Over the years, most of our time and activities has been focused on our boys, which we have completely enjoyed. Now, as their families grow, we hope to spend that time enjoying our grandchildren.

2 children. I was active in many things, including church, square dancing, serious bicycling, extensive sewing; home decorating; and camping. Believing we wanted to live closer to our families, we moved back to the mid-west to Henderson, KY. We lived there 5 life-changing years, (except for 9 months during that time when we lived in Ft. Worth, TX). At the end of that time, our marriage dissolved. The kids & I moved to Tulsa, OK, where we still reside. (Both kids are married – I have 3 granddaughters.) I've had my own part-time business these remaining years.

The most important thing that has happened in my life is coming to really know and experience the presence and power of the living Lord, thru the transformation of my soul by the work of the Holy Spirit and the Word. He has totally changed me from the cold, angry, bitter, unhappy person I was in high school. He has given me the freedom to be me and be real; and removed the darkness and despair and given my life value, meaning, and purpose. I live to know, worship, serve and live in His presence.

Retired after 28 years of active and reserve duty with a rank of Lt. Colonel. Most continuing challenge – proving that I was born in Belleville, IL and the fact that I graduated from BTHS in 1962 as the only black in the class!!

(Barbara is deceased.)

Barbara was fatally injured in a two-car collision in Del Rio, Texas on December 19, 1970. She was 26. Her husband, Marine Lieut. John Allen Randell was injured in the accident and released from the hospital.

Barbara married John in Champaign, IL on May 30, 1967. He was a jet pilot trainee assigned to Chase Air Force Base at Beeville, Texas, where he and his wife were residing. The young couple was en-route to Pasadena, CA to spend Christmas holidays with Lieut. Randall's parents.

After graduating in 1962, I worked at a bank in town for 9 years. During that time I met and married Barry Hoercher (class of '60) in 1965. After our 2 daughters Leslie & Brandy were adopted, I stayed at home and did the brownie leader, room mother, and Sunday school teacher routine. We moved from Belleville to Fairview Heights then back to Belleville. I worked in an optometrist's office after the girls got older.

In what seems like a blink of the eye, they married and Barry & I retired and moved to Nashville, IL. We built a house in the country and live across the lake from our daughter and her husband and our two darling grandchildren, Lexie 5, and Ethan 3. Life is good!! Looking forward to seeing everyone on the 28th.

I worked at Freeburg High School for 25 years as a school counselor. I then took an early retirement and went to work, permanent part-time, as a counselor/teacher (psychology) at Southwestern Illinois College, formerly BAC, and am still there. I've been married to Marianne Walther (class of '63) for thirty-five years. We have two children: Laura the youngest, and Michael, who with his wife Betty, have blessed us with two fantastic grandchildren.

When I'm not working, I spend every possible moment that I can on the golf course. When the weather doesn't permit me to do so, I occupy myself in my shop doing woodworking.

I still contend, to this day, that the most fun I ever had in my life was my senior year of high school. The Friday nights at the Nose Bag, Harold Butz's Tavern, Chatter-Box and sometimes the Blue Note, provided me with countless good times, and now memories of the evenings spent with many of my fellow classmates, too numerous here to mention.

I quit the management stuff with the car dealers, and I have been with some of the largest ones. I decided that I'll last a lot longer without the pressure and stress so now I'm just another guy in the parts department at Weber Chevrolet in St. Louis. I was married Jan 22, 1999 to Sharon K. Danner in Tampa Florida before the NHL AllStar Weekend. So, yes, I do enjoy hockey.

We went to the AllStar Game in Toronto (2000) and then to the Allstar game in Denver (2001). These NHL Allstar games seem to fall around our anniversary. We chose not to go to the 2002 Allstar game (we went to Boston for a game) or the 2003 Allstar game. We are planning to go to Hockeytown (DETROIT) for a couple of games this season and possibly Nashville, too. We always attend a bunch of the Blues games when I'm off rotation.

While attending Concordia Teachers' College in River Forest, IL, I met my husband, Roger, during my internship year of teaching in Flint, Michigan. Actually, he was from Oak Park, a neighboring suburb of River Forest, but in the Navy at the time. The story is long but the short version is that we met through mutual friends.

After graduating from Concordia in 1967, Rog and I married and lived most of our married life (35 years) in Oak Park and River Forest. Since Concordia was familiar and close I earned my MA in Education from there also. We chose to have no children, but I mentally took many of the children home whom I taught during my thirty years of teaching. The first two years I taught in the Lutheran School System and the rest were in the public school system.

Since early retirement and moving to Naples, FL, in 1999, I've returned to the classroom subbing in the Lutheran school and public schools in Naples. Rog and I volunteered for over ten years at the Frank Lloyd Wright Home and Studio in Oak Park before relocating to Naples. I've been volunteering at the Naples Botanical Gardens and at our church between subbing and care taking Roger's mother. Meanwhile

Despite having begun my illustrious (lengthy anyway, BA '69, MS '74) academic career at Bunsen School in "old" Belleville, in high school I was the

transfer student from Rio (Air Force brat) that nobody knew. I was so shy I didn't even submit my picture for the '62 Bellevinois.

My "15 minutes of fame" was as a member (others: Keith Jenkins, Suzie Lutz, Mike Polites, Ken Sliment and Betsy Wobus) of the First Place ("Senior-Advanced Division") winning team in the annual Math Field Day competition in Carbondale. How the Hy News staff completely failed to cover that moment in history is something that I will never understand.

Currently living in Chesterfield (MO) with wife of 21 years Sandy (we won "most recently married" and "most pregnant" awards at the '82 reunion), son Daniel (sophomore at Kettering University in Michigan) and daughter Natalie (junior at Parkway Central). Began working with computers (night shift operations) Bank of St. Louis, '64, then with McDonnell-Douglas, and now EDS.

Based on the performance of my 401K account with current employer, it now appears likely that I will eventually become the oldest working programmer in recorded history. Still enjoying swimming (currently hold 10+ state records in Senior Olympic annual competition), as well as my "stable" of 3 BMW motorcycles – 2 classics and an R1200C.

I served the majority of my army career at the Oakland Personnel Center where I worked in finance as an accountant and cashier. To this day, I still run into many ex-GIs who remember me as the last person they saluted in the army.

While at Oakland, I met and married our classmate - MaryEllen Miller. Unfortunately, I was not successful in the marriage, but we did produce a lovely and charming daughter - Lauren.

My career titles were controller, treasurer and chief financial officer for several insurance companies, a bank and a savings and loan. I retired way to soon at 45. To avoid decaying a way, I formed a medium size company that specializes in the design and manufacture of business forms for financial institutions.

My passion is scuba diving. I have swam down the million year old, underground river - Dos Ojos, wrestled a 7½ foot moray eel and fed sharks.

I'm Bill Koriath aka Bill Smith. I live in Indianapolis with my wife Susie. We've been married for 26 years and have three children. Anna, Kara, and

Blake. Blake just graduated from UNC Chapel Hill, Kara graduated from St. Louis University and is employed with A. G. Edwards. Anna is going to school at the University of New Hampshire. Kara has two young children.

After BTHS I attended SIU Edwardsville, then the government awarded me a paid tour of Southeast Asia. After the service, I worked for a steel company, then transferred to Indianapolis, where I'm now employed with Prudential Financial as a stockbroker for the last 23 years. My sister Candy graduated from BTHS in 1985. Tragically, she was killed in an auto accident going to work in February of 1972.

My mother Iona is going strong and works as a receptionist in our office. She says it keeps her young. I've had a fortunate life and career so far. Well, the last couple of years with the market in the pits, hasn't been fun.

As a family, we have many interests, one of them is our love of parades. I guess it's because of all the work I did on the Hobo Day Floats.

I lead a single life and enjoy it very much. I have worked for Indiana University for the past 22 years. I spent 15 years working for The Kinsey Institute for Research in Sex, Gender and Reproduction as the Business Manager. I am currently the Executive Director of Financial Administration for The School of Continuing Studies and love my job, although retirement looks better every day!

I spend a lot of time gardening and seem to be in a constant state of redecorating and sprucing up my house. I have a Harley Davidson motorcycle [Sportster] and love to cruise the back roads of Indiana with friends. I have two dogs and two cats. I am active in my church [First United Methodist] and love to travel. I just returned from Arizona where Johanna Spaulding, Mike Lacy and I got together for our own little reunion. Mike gave me the Classmates information.

When we had our last reunion I was married with three boys. I still have the three boys but I am not married any longer after 27 years. All things happen for a reason and this change in my life has been a good thing. I have moved to Chicago where my middle son and his wife live.

I work for A. Epstein and Sons International, Inc., an architecture / engineering firm. I love my job and I am enjoying the big city. I bought my own condo and am pretty much on my own for the first time in my life. It is a good thing.

My boys are my pride and joy, and I am sure most everyone feels the same way about their children. My oldest son and his wife, Tom and Gretchen, live in Cordova, Alaska. He owns a sporting goods store and has his own commercial gill net fishing boat, and my daughter-in-law is a grade school teacher. My middle son and his wife, David and Julie, live in Chicago. He is a civil engineer, and she is a nurse. My youngest son, Tim, is a student at SIU Edwardsville. No grandchildren yet, but I hope soon.

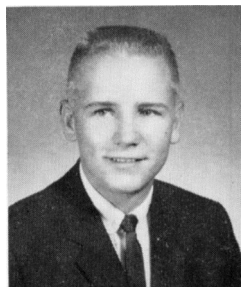

My dearest friends in life are from my high school days and those were some of the best years of my life. I am very excited about getting together with old friends.

Bill and I have been married for 37 years and have 2 children (Andrea & Matthew).

We are both retired (Bill, UP RR, 39 years; I worked for Okaw Valley Council BSA for 12 years; the last 2 as manager of the "Scout Shop").

We enjoy camping, walking, bicycling, volunteer work, and mentoring at the grade school where I went to school. Our life is pretty routine, but that's how we like it. We are presently enjoying our new computer. We also enjoy fixing up our home that is 109 years old. God has truly blessed our lives.

Wow, what can I say about 40 years of adulthood except high school was easier after all. Well, to begin with, I got drafted out of SIU-E in my junior year and spent a year (seemed like ten) in Vietnam. After all these years I still appreciate my army experience. I got married while in the service (cheaper to have kids with our Uncle Sam paying the bill, you know) to Kathy McCauley Thompson.

We have three children, Danny (Jennifer) Thompson who have two kids, Caleb and Lauren: our daughter Emily (Paul) Linge have a son Michael and one due in March 03, and our youngest Eric (Missi) Thompson who have no children so far. We have always enjoyed traveling. The kids had toured every state but two in our camper before they were all teenagers. Kathleen really enjoys crafts, especially designing and putting together hand made quilts. My favorite pastime is going to the Lake of the Ozarks, enjoying the water, serenity, scenery, etc.

Gave up skiing with old-age, bad back, easier to break bones, etc. I still spend a lot of time working in the family business, Thompson's Gas, Inc. here in Swansea. The rest of my "spare" time goes to maintenance and record keeping of rental properties. I really looked forward to this reunion in order to see old friends again. I appreciate the committee's hard work and they have even started planning for our next reunion. They certainly deserve a lot of praise.

(1982: "Spouse: Kathleen McCauley, children: Daniel 14, Emily 12, & Eric 6. Phil has been manager of Thompson's Gas, Inc. for 15 years. He attended SIU-E and served 3 years in the U.S. Army. Bachelor of Arts degree from McKendree College – major – English and minor sociology. I taught English 1 year at Columbia and the next 4 years at Mascoutah until we had our children, Mona – December 12, 1971, and Kenn December 24, 1974; then became a full-time mother, involved in our children's lives.

Our son Kenn and his wife Amy live in Millstadt and have a 1½-year-old son, Trent. Our daughter Mona & her husband Scott live in Grand Blanc, Michigan and just had a daughter, Hannah, October 23, 2002. I'm writing this from their home. Our favorite pastime now is our grandchildren.

Len retired 4½ years ago, allowing us to visit in Michigan more often and also travel other places. In 1971, we got our first boat and have been water-skiing ever since. Our kids grew up with boating and skiing as a family hobby that we still enjoy.

Our favorite place in winter is Florida. Every year since 1983 we've gone to Estero Island in Ft. Meyer's Beach. We love the beach and deep sea fishing with friends from Cape Coral, Naples and Estero Island. We're regular beach bums.

My newest hobby for about the last 8 or 9 years is hockey. I'm an absolute "hockey nut", one of the biggest Blues fans! Planning my life revolves around their games; we even go to training camps. Our son-in-law, Scott, a devout Red Wings' fan, went to college with Doug Weight, whom I like, but my favorite player is Tyson Nash. I was excited last year the night after Thanksgiving, when we got to see the Blues play the wings at "The Joe." But, this was surpassed this year when I personally met and talked with Tyson. A few years ago, we got to see, touch and have our picture taken with the Stanley Cup. Now I'm waiting for the Blues' turn. This will be the year and I'll be there. That will be the pinnacle of my excitements.

My life has been so exciting and blessed. I am so sad that many of the best among us are not enjoying every blue sky I awaken to.

Of course, there are a few things I was not blessed with – like husbands. Failing 3 times – I've given up on marriage and now I just lease. I even married a professional con man once who looked like a college professor. I was wife #10. But wives 11, 12, 13 and myself teamed up and put him in jail finally.

Yet my three grown children have all been what any mother could wish for. They graduated college and never came back to ask for money! My daughter, Annette, age 38, married for the first time just a couple of years ago and is living happily in Arlington, Texas. She tried teaching, but cussed out

a brat and ended that. My youngest, Christopher, is 28 and still single in Orlando, Florida. He turned his successful swim team management experience into a career in Disney and Sea World water park equipment sales and service. My middle son, Kevin, age 37, turned lemons to lemonade when he cut his hand severely while installing robotics in a GM plant and ended his mechanical engineering career only to begin a medical records company with his wife.

I just visited them and my granddaughter, Brianna, in Atlanta and enjoyed their southern mansion, houseboat, SunRay, SeaDoo, and Wave Runner. I love their winter toys.

I have remained in education now 37 years as a teacher of all grades, a college instructor with a doctorate and as a school principal. While married 18 years to an Air Force Civil Engineer, I got to travel over much of the world. After I retire I plan to see the rest.

I settled in the Orlando, Florida area and got the real estate license that so many Florida residents get. In the summers I work part time as a certified appraiser – which I will continue after I retire from education. I finally learned how to make decent money through property. Obviously education wouldn't fund my retirement, so I had to do something.

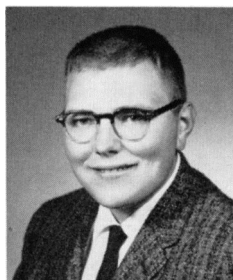

I noticed many divorced men down here who needed quality, but temporary housing. So I buy new homes and rent individual bedrooms to them. This yields double rental on every home and leaves me with full control of the homes to maintain them well.

We Florida-ites are counting that in a few years, the rest of Belleville and America will move down here and buy our properties for double and triple their value. Come on down, ya'all. I got houses to sell to you!!!!

Hi everyone! One week after I graduated from Northwestern '66, I married a Notre Dame rugby player, Harry Steele, who graduated from Northwestern Business School '66. That's 36 years, people!

He commutes 90 minutes daily by train to New York City. Both our children work in advertising in NYC. Harry and I live in Connecticut on 4 acres surrounded by woods full of deer (they have names) skunks, Canadian geese, raccoons, foxes and a random coyote who lopes through the back yard.

I taught English Literature for 7 years to college-bound public high school seniors and remedial English. I like to think I did more for the remedial people since so little time and interest were expended

on them by anyone. I completed my graduate studies from Fairfield University in 1970.

I will always be grateful to Harry that I could be a stay-at-home mother for our two redheads; Amy was born in '72 and Brian in '75. They attended Montessori preschool for 4 years here in CT and in Richmond, VA where we moved in 1979. We all loved Virginia. I did garden crafts with mentally challenged children; puppetry with Richmond Children's Theater; documented 18th century houses in downtown Richmond for the National Historic Registry.

When we moved back to CT in 1984, I involved myself in jr. high and high school committees and volunteered for anything that kept me connected with our children and their friends. Now we attend their weddings! I wrote sports notes including complete soccer coverage of Brian's games for the local newspaper and ran a summer sports camp for 500 youngsters.

Harry and I were liaison parents for the high school football team. We planned weekly dinners for the team and special festivities after they won the CT State Football Championship in '93. Our family managed one grand vacation to Egypt in 1988. Brian was 13 and slept in his clothes because he was so tired and Amy was 16 and a potential bride to most of the Egyptian men! What a wonderful opportunity to see ancient history as well as enjoy the gregarious and humorous Egyptians.

Our proudest moments were attending the graduation of Amy from Emory '94 & George Washington University Graduate Business School '96 where she met her husband of 4 years and Brian's graduation from Williams College '98.

I still remember taking the SAT's in the cafeteria and wondering if I could make myself faint if I held my breath long enough! "Probity" was the word that led to those self-destructive thoughts. Despite my fear of test taking, I loved my years at BTHS. I fondly remember Ms. Hansleben (English), Ms. Steele (Latin), Mr. Tabor (Algebra) and the English teacher with the gray chignon who drank water all during class. We laced her water with vodka once!

I love our two cats, classical music, theater, reading The New York Times, mystery and historical novels, woodworking, upholstering, miniatures, teddy bears and having our adult children nearby and willing to teach us new things. Their growth is the greatest joy any parent can have! Love to all and special thanks to Dick Woodward for compiling these notes.

My work has also been varied, including office administration, graphic artist, apartment/restaurant/weight-loss center management, truck driver (both long-haul and construction), and barbershop proprietor. In 1992 I sold my property in WA and closed my business to return to Belleville to help my mother care for my invalid father.

Have spent many of the ensuing years alternating time between Belleville and WA. This past year I completed a series of computer courses at SWIC, then summered in the Pacific Northwest. Hiking, beachcombing, arts and crafts, photography, baseball, gardening, reading, family and friends continue to be my major interests.

During many of the past 40 years I have lived in AR, CA, OR, AZ, and WA. Have been married and divorced, but never had children, so I was afforded the freedom to be adventurous, to travel, explore, and live in various places. Spending time in the mountains, and at the rugged Pacific Ocean beaches of the Pacific Northwest, has always been a passion.

Following HS graduation I completed BS and MS degrees in education from SIUC and SIUE. Certification in Elementary Education, LD, BD, MR, Director of Special Education, and Elementary Principal has allowed much flexibility in my 32 year career.

Work in Alton and Bethalto, IL, as well as Special School District teaching in Riverview Gardens, Jennings, Parkway and Rockwood Districts has kept life both interesting and challenging. Since retirement, work with private and parochial school children who have a handicap as well as time spent with sick, homebound, and suspended students continues to keep life rewarding, but at a more leisurely pace.

Vince, my husband of 18 years, and I live in Chesterfield, MO. We have enjoyed travel in the US, Europe and Caribbean. Life seems to just keep getting better!

Attended BJC, then flunked out of electrical engineering at Illinois, and traveled around the world. In '67, finished degrees in engineering & economics at U of Wyoming, married Adelaida Gonzales from Laramie, and got started teaching. In '69, Adelaida died giving birth to Charles -- who, himself subsequently died in '74.

MA in Economics from WIU in 1970. Taught high school & community college math, economics, and physics 12 years. In '76, married Ann Luensmann in Peoria. (Ann had cared for Charles at the hospital during his 2-year bout with respiratory disease.) Also in '76, began 3-year stint teaching in São Paulo, Brazil.

Returned and began working for a nuclear power plant in 1980. Children are thriving, Margaret (25) and Leah (22) through college and working, and Lucas -- a sophomore at Boston University. Am active on civil rights and social justice issues: American Civil Liberties Union, United Nations Association, and Legislative Advocacy.

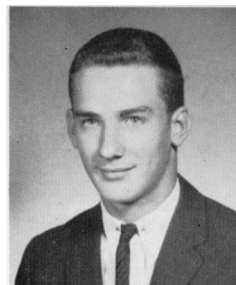

Five years ago, I received advanced radiation treatment for prostate cancer. No relapse -- so far, but the brush with mortality has convinced me that I need to quit giving 50 - 60 hour weeks to the power plant. Am ready to work less and enjoy more time with family, social concerns, and sailing on the lake in northern Minnesota.

(1972: "Upon graduation from the Virginia Military Institute in '66 Syl received a BA in History. While at VMI, he received the Commendation as a distinguished military and academic graduate and was listed in Who's Who. Syl then entered the Airborne Infantry and served from '66 - '68 being stationed at Fort Benning; Ft. Campbell; Ft. Bragg, and of course Viet Nam. From '68 - '70 Captain Zahn was Stationed with the AGC in Jefferson City, Mo. While Syl was serving in the Army he received the Silver Star, Bronze Stars, the Air Medal and Ar Com. In 1971 he received his MBA in Finance from the U. of Mo, where he was named the top graduate of the Business School.

Presently he is employed with Goldman, Sacks and Company of St. Louis as a research liason. In '68 Syl married Mary McKelvey (BTHS '64 and College '68). Syl and Mary have recently bought an 1887 townhouse in Belleville and estimate it will take a year to restore it but they are enjoying every minute of it.")

After 23 exciting years as an extension agronomist with the University of Missouri, I retired in 2001 – only to discover that my wife Linda made a slight alteration in my retirement plans. We now reside in Stavanger, Norway where she is enjoying a second career as principal of the International School of Stavanger. I'm still retired and am kind enough to wake her each morning for work. What a guy!

Prior to my extension career, I spent 5 years in Peace Corps (Bolivia & Ecuador), 4 years in the Army and seemingly forever in and out of Iowa State University. We have a son (Kevin) and a daughter (Michelle) and 5 grandchildren. We plan to eventually return to our home in the wooded hills of southeast Missouri. In the mean time, retirement isn't as great as they say it is – it's better than that!

I am an Operations Research Systems Analyst (mathematician, statistician type) at the Pentagon for the Department of the Army. I have worked for the Department of Defense since 1984. I also was an Operations Research Systems Analyst at Eastman Kodak and McDonnell-Douglas.

I divorced in 1983 after seventeen years of marriage. I have one son, Robert (Rob) Dyer. He is married to Sarah, and they have a beautiful two-year-old daughter, Allison Rose. They are expecting their second child in December, and it will be a son. I moved to the DC area in May of 2000 to be closer to them.

Rob was an electrical engineer for a communications firm, but decided in July 2002 to enter Union Seminary in Richmond Virginia to become a Presbyterian minister. He will be ordained in three years. Rob and Sarah both graduated from Princeton. Rob has a graduate degree in electrical engineering from Purdue; Sarah has one in clinical psychology from Florida State.

Besides loving and admiring my wonderful family, I enjoy playing tennis, attending sports events and attending plays/concerts. I also am involved extensively with the church senior high youth activities, as well as intergenerational events. I was a senior high youth leader for 24 years. Currently, I am serving as a ruling elder in the Presbyterian Church chairing the Christian Life Committee. This committee is responsible for the youth group and the intergenerational church activities.
