

*Average Daily Membership (ADM) count determines the amount of funding a school receives from the State of Indiana for the general fund. ADM is calculated based on the number of students with kindergarten students counting as 1/2. It is calculated annually on the third Friday in September.

Average Daily Membership* 1973 to 2011 Data Obtained from IDOE

2009 is the first year that all monies for the school general funds are distributed by the State of Indiana based on ADM count. Therefore children are able to attend the school of their choice without paying any tuition fees, as long as they are enrolled by the ADM count day.
