The Last Ten Years... My husband and I have been happy living and working in Chicago. We renovated an old Victorian store front building on the north side. For six years we tried to start a family and now know most of the fertility doctors and methods known to man! In August of 1989 we adopted our daughter, Casey, and have been living happily ever after!

Best Memory... There are many...football and caramel apples, dating the lead singer in a band and a football player at the same time, trying to beat Diane Pecina in running on the track, art class, honors English with Miss Bush in her "hush puppies," and graduating and wondering what would come next.

If I Knew Then... Instead of going into commercial design--as exciting as it is--I may have opted to stick with my painting.

PAULA M. WALKER  
10175 S.W. Heather Lane, Beaverton, OR 97005  
503-644-5104  
Occupation: Freelance Writer/Editor  
Mate: Lonn Hoklin

The Last Ten Years... Using my journalism degree for perverse political pursuits, I worked as the press secretary and speechwriter for the Governor of Montana from 1980-1985. When the Governor was re-elected, I decided it was time for this ghostwriter to materialize. I retired from politics and move to Portland in 1986 to become associate editor of Northwest Energy News magazine. In 1988, the Governor enticed me to return to my old job during his last year in office. I returned to Portland in 1989 and have adopted the Bohemian lifestyle (and income) of a freelance writer. My byline has appeared among the sun and the stars, the Baltimore Sun and the Kansas City Star, that is, as well as publications in Montana and Oregon.

If I Knew Then... I wouldn't have sweated the dreaded three "S's" -- being skinny, smart and shy in high school. I outgrew the shyness in college, and the other two qualities have served me well since then.

**The Last Ten Years... My driving passion has been the art "world" and my own studio work. I've gone from gallery management back to school to get my M.A. in art history at the University of Florida in 1990. I paint, write articles, lecture and consult on museum exhibitions. Florida's rich landscape, especially the water, is central to my life.**

**If I Knew Then... I'd have invented "Post-It" notes. I'd have started traveling and seeing the world. And I'd probably have been more environmentally aware, or at least I'd like to think so.**
