## FOR ALL WHO LOVE MAPS...

Maps are more than simple guides to help us find our way. Maps show places altered or vanished through time, serve as works of art, and help express a basic human quest to explore, learn and show others the way.

For all these reasons, people everywhere love maps ... and for all who love maps, there is the **Washington Map Society**.

## ABOUT THE SOCIETY...

Founded in 1979, the Washington Map Society (WMS) has grown to hundreds of members all over the world. Interest in maps is all that is needed to join. The mission of the WMS is to support and promote map collecting, cartography, and the study of cartographic history.

## YOUR MEMBERSHIP INCLUDES:

- **Presentations:** These address all aspects of cartography and mapping history and are held most months from September through April at convenient locations in the Washington, DC metro area. Most meetings are videorecorded and available to view on the WMS website.
- **The Portolan:** This acclaimed journal is international in scope, informative, scholarly, and sought by universities and libraries throughout the world. Issued three times a year, it features authoritative articles on all manner of cartographic themes, a calendar of events of map-related exhibits and presentations around the world, reviews of recent publications, and a wealth of additional information for all who love maps.

- **Latitudes:** This monthly email newsletter is sent from August through May and highlights upcoming events, summaries of previous WMS meetings, and map-related news.
- **WMS Website:** This informative site provides up-to-date information about the WMS. The members-only area gives access to videos of previous WMS lectures, digital issues of every *Portolan* journal since issue #1, and an extensive index of *The Portolan*.
- **WMS Field Trips:** These visits provide behind-the-scenes access to map-related events, collections, and exhibits.
- **Annual WMS Dinner:** This highly-regarded event is held each spring and combines a jovial social environment with a feature presentation on an aspect of mapping or cartographic history. (Extra charge applies)
- **Walter W. Ristow Prize:** This prize, which includes a \$1000 cash prize, is awarded annually by the WMS for an outstanding academic research paper on cartographic history. The winning paper is published in *The Portolan*.
- **WMS Facebook Page:** The robust Facebook page keeps members informed of global news and information on cartography and offers WMS members opportunities to interact with others who love maps.
