

ROLO PRETZEL DELIGHTS

Bag of pretzels (I used small squares)
Bag of Rolo candies (the hard part is the unwrapping)
Pecan halves

Preheat oven to 300°. Cover a cookie sheet with parchment paper or foil sprayed with Pam. Place an unwrapped Rolo on top of a pretzel and top with a pecan half. Repeat – repeat – repeat until you have made more than you think you will need. (I used 4 bags of candy for the reunion and I think we might have eaten more if they were there!)

Bake about 4 minutes. Remove from oven and gently press pecan down to flatten slightly. Cool completely and store in an airtight container.

Variations:

I also used Caramel Milky Way Bits and both Dove Milk Chocolate & Caramel and Dove Dark Chocolate & Caramel. All of these seemed to melt just a little faster than the Rolo's. I'll use them again, but just not leave in the oven quite as long.
