

Contest Winner

Cheryl Ann DeVore is the winner in our school in the 1962 Betty Crocker Search for the American Homemaker of Tomorrow. She achieved the highest score in the examination on homemaking knowledge and attitudes taken by senior girls Dec. 5. She becomes eligible now along with the winners in other state high schools, for the title of State Homemaker of Tomorrow.

The girl named State Homemaker of Tomorrow is provided a \$1,500 scholarship by General Mills, sponsor of the program. The state runner-up will receive a \$500 scholarship.

In addition, the State Homemaker of Tomorrow and her school adviser will join with other state winners in an expense-paid educational tour of New York City, Washington, D. C., and Colonial Williamsburg, Va. At the latter, the 1962 All-American Homemaker of Tomorrow will be named.

The national winner will have her scholarship raised to \$5,000 with second, third and fourth place winner being granted scholarships of \$4,000, \$3,000 and \$2,000 respectively.

The knowledge and attitude test, prepared and scored by Science Research Associates, Chicago, is the basis for selection of local and state winners with personal observation and interviews serving as factors in national judging.

June Grads Busy, Plans Announced

Through many money making projects the senior class' treasury has grown considerably. The total as of Jan. 4, 1962, stood at \$369. More money making projects are being planned for this spring. Participation by everyone in these projects will help cut down the individual price for tickets to the Senior Prom.

Graduated Class Activities Retold

On Saturday, January 20, 1962, the 12A's had their class dinner and honors assembly.

Thursday, January 25, 1962, was a decisive day in the lives of 55 Lowrey High School graduates. This was graduation day. Wearing grey caps and gowns the graduates entered the gym to the Processional by Marcelli, played by the band under the direction of Mr. Keranen. Proudly the graduates stood with the chorus and the audience to the playing of our national anthem. The Invocation was given by Father W. Immel. Under the direction of Mr. Coedy, the chorus sang "No Man Is An Island" and "God of Our Fathers." Mr. John P. Romanow, principal of Lowrey, gave an opening speech directed to the graduates. Following Mr. Romanow were Mr. Royal Targon of the Board of Education and Mr. Herschel K. Bennett of the Board of Administration both of whom expressed good wishes to the graduating class. JoDell Bucy, vice-president of the 12A class, gave the welcoming address. With mixed emotions the graduates marched onto the platform and received their diplomas from Mr. Ralph P. Dzovigian, assistant principal of Lowrey. Another selection, "The Halls of Lowrey", was then sung by the chorus. Karen Dearvang, a student of the 12A class, gave the Farewell Address. Father Immel then gave the benediction. With the playing of "Pomp and Circumstance" by the band, the graduate marched out to begin a new role in life.

Friday, January 26, 1962, the graduates had their last get together at the Botsford Inn, with a buffet dinner and a dance. The music was furnished by the Fenby 5.

Calendar of Coming Events

Feb. 9, Fri.—"Winter Whirl" dance, Lowrey Ballroom, 7:30 to 11:00.

Feb. 9, Fri.—Basketball game at Hamtramck, reserves at 6:30, varsity at 8:00.

Feb. 12-15—Tryouts for play, "The Great Big Doorstep," in the Little Theater after school.

Feb. 13, Tues.—Basketball game at Garden City.

Feb. 16, Fri.—Home basketball game against Romulus.

Welcome 10B's

As this new semester begins, we would like to welcome the new 10B's to Lowrey. This semester marks the beginning of their high school careers. We hope that they will make the most of their high school years, and we want to help them get off to a good start.

There is much academic opportunity here at Lowrey. For instance, there is a very good possibility that our school will soon become a member of The National Honor Society. All of the major subjects are offered, plus many unusual and interesting subjects such as play production, public speaking, boys' home economics, and audio-visual. Many excellent new rooms have recently been completed, such as the new physics room, the art room, and the new wood shop.

We also have an active sports program at Lowrey. For the boys, there are six varsity sports: football, basketball, swimming, baseball, tennis, and track. New boys are especially invited to come out for baseball, tennis, and track this spring. The girls are invited to participate in G.A.A., the Girls' Athletic Association.

Club activities also thrive here. There are many clubs that a new sophomore may join. Among these are Thespians, Students' International Organization, Future Nurses, and Future Teachers. They may also join the Bowling Club next September.

As you can see, there is a wide variety of activities in which you can participate.

S. I. O. Officer

During the last meeting of the Students' International Organization, Traude Buck, foreign exchange student from Germany, was elected Vice-President of this club. Future plans for the club include a Japanese social meeting on February 27, and a bake sale some time in February.

Five Reach Top

The Lowrey Light takes pleasure in congratulating the following students on their outstanding scholastic achievements. Each student received all A's on his report card for the final grade of the semester just ended. Keep up the excellent work and we hope we can add more names to the list this semester.

JoAnn Vaclauik, 9B6
Carol Donaldson, 9A1
Nancy Poswalk, 10B8
Martha Stiles, 11B7
Michael Press, 11A2

Lowrey Has New Look

A visitor who had been familiar with Lowrey School would find it difficult to believe that one year could produce so many major changes.

The entire northern wing of the basement has been completely remodeled. A year ago there was nothing but damp, cold storage room. Now there is a cheerful, well-lighted hall with newly installed lockers. Occupying one corner of the basement is a large shop with new machinery and ample space to work in. A new modern-equipped chemistry room is nearing completion and it should be occupied in the near future. Adjacent to the chemistry room is a recently completed physics room which is already in use. A new teachers' work room has also been added to the basement.

On the main floor there are two new, bright, well-ventilated art rooms—one for junior high, and one for senior high. Both are spacious for Lowrey's art students. There are several distinct areas where students may work with paint, ink, chalk, charcoal, clay, metal, or wood. A new elementary art area has also been added to the building. In the boys' gym a hazardous stage has been removed allowing greater room for recreation. The floor on the girls' gym has been resurfaced and the tile in the swimming pool and shower room has been repaired.

Additions are also prominent on the second floor. A new braille room now exists where once there was a locker area. New social studies rooms and a counselor's office have replaced the old art area. The home making department has been done over and now there is greater space for instruction and new equipment to work with. The band room has been enlarged and an elevated floor aids instruction.

Every room and every hall throughout the building has been repainted. These are the first major changes made in the building since it opened in 1929.

Politically Speaking

Sign on the speaker's platform at a political rally:

DO NOT PHOTOGRAPH THE
SPEAKERS WHEN THEY ARE
ADDRESSING THE AUDIENCE. SHOOT
THEM JUST BEFORE THEY BEGIN
TO TALK.

Take Time For Ten Things

1. Take time to work—it is the price of success.
2. Take time to think—it is the source of power.
3. Take time to play—it is the secret of youth.
4. Take time to read—it is the fountain of knowledge.
5. Take time to worship—it is the highway of reverence and washes the dust of earth from our eyes.
6. Take time to help—it is the source of happiness.
7. Take time to love—it is the one sacrament of life.
8. Take time to dream—it hitches the soul to the stars.
9. Take time to laugh—it is the singing that helps with life's load.
10. Take time to plan—it is the secret of being able to have time to take time for the first 9 things.

Criticism Counts

Criticism is a good thing. It may taste bad, but look at all the fine improvement caused by it. Criticism is a stimulator. Its like the mosquito's hum; backed up by its needle, it keeps us from dozing in a hammock on a summery afternoon when we should be up and doing . . . Criticism is a balance restorer; it's good for one who has suddenly enjoyed good fortune and on whom the gods have smiled. Such a person may be excused for riding high. But high riding is hard on the balance, and the remark too often may be honestly made, "He has lost his humility." There's nothing like criticism to correct that."

Senior Spotlight

This issue of the Senior Spotlight is focused on Henry Pollakowski, 12B-6.

Henry, who maintains an A average, is on a college prep course and is majoring in math, English, social studies, and science.

Henry is president of the Bowling Club, vice president of Thespians, Treasurer of the Senior Class, and is on the varsity tennis team.

After graduation Henry plans to attend Junior College and the University of Michigan to study business administration.

When asked what his outside interests are he replied, "I enjoy summer sports such as water skiing and boating."

During the Christmas vacation Mr. Keiffer took a trip to Mexico. He left Detroit Friday morning, December 22. The only stop was in Chicago where the plane was grounded on account of bad weather and hydraulic trouble. After a twelve hour wait he then got back on the plane and was on his way to Mexico.

When he arrived in Mexico City, he was met at the airport by Carl Garko, who graduated from Lowrey in 1961. Carl is now attending Mexico City College.

Mr. Keiffer found it very economical to live in Mexico City. He visited many historical sites including pyramids, shrines, temples, palaces, and local points of interest. A two day trip to Acapulco was the high light of his entertainment. "Warm and clear weather each day and balmy nights were thoroughly enjoyed after the cold winds of Michigan," he stated.

He also had trouble with his plane reservations on his way back. The plane flew across the Gulf of Mexico and landed in Miami. There he had to get off the plane because of mechanical difficulties. He then changed planes and proceeded home.

He got back to Detroit on New Year's Day.

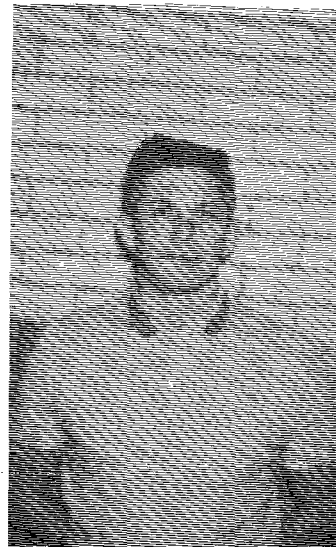

"The Winter Whirl" Reflections On Winter

The 12B class is sponsoring a dance that will be held on February 9 in the Lowrey High School Ballroom. The name of the dance is "The Winter Whirl" and it will last from 7:30 until 11:30.

On hand will be the disc jockey, Paul Cannon, from the radio station WKMH. With him will be Mickey Dentin with his latest release "Ain't No Body Like My Baby." More entertainment will be provided by a well known band.

The admission will be 50 cents with an activity ticket and 75 cents without one.

Refreshments will be served.

One of Lowrey's distinguished faculty members is Mr. Sigmund Gretzner, head of the Physical Education Department.

He has taught at Lowrey for thirteen years, since his graduation from Eastern Michigan University. He received his Master's Degree from the University of Michigan. He played varsity baseball and football at Fordson High School and later at Eastern Michigan.

Mr. Gretzner served three years in the army during World War II with an anti-aircraft outfit.

In his spare time, he likes to fish, golf, and watch any sport, especially football and baseball.

In the past, Mr. Gretzner has coached reserve basketball and the track teams. He presently coaches the reserve football team.

Though the team had a bad season this year, Mr. Gretzner is "sure they'll be better next year."

When asked how he likes his present position as Physical Education Department Chairman, he replied, "It's like a three-ringed circus, but I guess I get pretty used to it, and it presents a real challenge."

—Overheard—

Overheard in the hall: "Of course I wouldn't say anything about her unless I could say something good. And, oh boy, is this good!"

Winter, winter everywhere while we are freezing and waiting for the busses to come. This is the union of many of us about winter.

Here are some interesting quotations about this cold season.

'Winter, a bad guest, sitteth with me at home; blue are my hands with his friendly handshaking.'

Friedrich Wilhelm Nietzsche
'O Winter! bar thine adamantine doors;

The north is thine; there hast thou built thy dark;

Deep-founded habitation. Shake not thy roofs,

Nor bend thy pillars from thine iron car.'

William Blake
'But winter lingering chills the lap of May.'

Oliver Goldsmith
'Oh the long and dreary Winter! Oh the cold and cruel winter.'

Henry Wadsworth Longfellow
'Winter comes but once a year, And when it comes it brings the doctor good cheer.'

Ogden Nash
'Winter, which being full of care Makes summer's welcome thrice more wished more rare.'

Shakespeare 'Sonnets'
'A sad tale's best for Winter.'

Shakespeare
If Winter comes, can Spring be far behind?'

Percy Bysshe Shelley

New Showcases Open; Art Work Featured

Did you know we have 11 showcases throughout the halls of Lowrey? They vary from a sports showcase to displays of work done in the art, wood, and metal classes. Starting in this issue we would like to feature a showcase in each issue of the paper. In this issue of 'Lowrey Light' we are featuring the art showcase.

Lowrey has undergone many changes in these past few months. One of the most noticeable changes is the new art showcase which is located in front of the art room that was the old wood shop. The new showcase commands an ideal spot, it's at the focal point where people looking down the hall can see it.

In the showcase at the present time are the works of the different art students. Among the art works in the showcase are three ink sketches made by the Senior High art students. They include a baboon, a parrot of an army officer, and a bowl of fruit. There is also a crooked tree made in scratch board.

There is other work done by the deaf students which is also very good. In the coming months the work of other art students, under the guidance of Mr. LeVeque, will be on display, along with displays for different seasons and holidays.

Adult Ed. Information

Second semester registration time for Adult Education classes and second semester enrollment time for Community College classes in these areas.

Principal difference in college enrollment this year will be that it will take place on the New Campus beginning February 5th, but enrollments of all classes, regardless of the Class' meeting place, will be at the new campus.

College enrollments begin January 29th continue through the 30th, 31st and February 1st, with the last day of enrollments on February 2nd. Classes begin on February 5th.

In the Adult Education program, no changes in class schedules are planned.

Biggest change in the Adult Education program is that those who fulfill requirements for "Retiree" passes to school activities will be able to attend classes without payment of the registration fee. Retirees will be required to pay laboratory or other class fees.

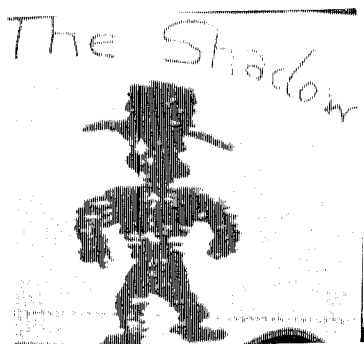

Languages are again being offered, as well as the many high school credit courses leading to high school diplomas and required for higher education. These courses have been offered for many years in Adult Education program. Adult Education registration times are:

Dearborn Adult Center
(Dearborn High School)
Jan. 29 and 31, 7-8:30 p.m.
Fordson Adult Center
(Fordson High School)

Jan. 30 and Feb. 1, 7-8:30 p.m.

Adult Education classes begin on February 5th at the Dearborn Center and Feb. 6th at the Fordson Center.

For further information, call the Henry Ford Community College: 846-7720.

This week the "Shadow" was given a lead on who to follow. See if you can guess who he followed.
First Hour—She gets her fingers stuck in the keys of the adding machine during office machines.

Second Hour—She's busy typing notes to Dannie B.

Third Hour—She tries to add and subtract in Bookkeeping.

Fourth Hour—She's in Study Hall but she sure isn't studying.

Fifth Hour—She's busy eating her lunch and avoiding Thad.

Sixth Hour—She tries to cook but usually ends up burning the food.

Seventh Hour—She sits at perfect attention in English because Mrs. Hoffenbacher is her teacher.

Some Reactions To The "Twist"

There's a new "twist" to dancing. It's not really new, but it's spreading like the plague. Webster has failed to define it in modern terms, but we all know what it is. We left the task of describing the Twist to several people. Here are their opinions:

Janet Settles, 11B—"It looks like somebody trying to shake a bug out of their back."

Jack Mihalko, 11B—"It looks like somebody that's got ants in their pants and they're trying to shake them out."

Sandy Butler, 10B—"It looks like somebody's got a terrific itch, especially the way John Sheron does it."

Mr. Oswalt—"I would say it would be multiple movements of the muscular parts of the body."

Paul Harris, 12B—"It looks like one of the most vulgar things I've ever seen, (the way some people do it)."

Anita Merkle, 10B—"It looks like somebody's trying to drill themselves into the ground."

Mr. Dzovigian—"It appears to be a combination of South American and a ball room dancing with a little bit of African rhythm thrown in for good measure."

Beertha Von Lienen, 12A—"It's just a bunch of movements to me, located in the lower physique. Boy it's sure going to give the doctors the business and the people back aches."

Mr. Kamiske—"Me? O. K. It's a cross between a helix and an offset cam."

Ina Savoy, 12B-7—"You have one foot move in front of the other and you move them like you're putting out two cigarets and then you wiggle like you're drying after a swim."

Dave Husak, 11B—"It looks like a messed up jitterbug."

Carol Loftus, 10B—"Gee, I don't know how to describe it."

Well, the 1st semester is gone, as are our good friends, the January grads. I'm sure we'll all miss their smiling faces and all the fun we had with them.

Just seeing the former 12A's in their caps and gowns sort of brings graduation day closer to us. Soon we will be strutting around wearing the old' red and grey. Happy days!

Senior Class President,
Fred Moreno

Word Origins

Every word, like names, has a meaning, for originally it brought to mind some picture. Today, words are taken for granted. People don't stop to think where the words come from or what they originally meant.

Many were names of people. America was named after Amerigo Vespucci, who drew the first map of the American continent.

"Sandwich" also comes from a proper name, the word was named after the Earl of Sandwich. He refused to stop his amusements, and ordered his meat to be brought to him between two pieces of bread.

Some words describe human beings and actions. "Blackmail", means "rent money", because in the early Scottish dialect, "mail" meant "rent" that was paid". In the British Isles there were so many thieves stealing money that the farmers had to pay black rent or "blackmail".

"Investigate", means "looking for footprints". It comes from the Latin word, "in" meaning "in" and "vestigio", which means "follow a footprint", because in the past, the detective would first look for footprints, as one looks for footprints today.

"Neighbor" means, "a near-by farmer, or your friend on the next farm". It is translated this way from the old English dialect.

The term "robot", is from the word "robotnik". "Slave" goes back to the term "robot", which in Latin means "work".

It is quite natural that people should like mirrors, for when a girl admires her hair-do in a mirror, she is using a word that is based on the same Latin word "mirror", which means "admire".

"Perfume" means "a disinfectant". In the past when you perfumed a room, you probably were disinfecting it. But the Latin meaning of the word "perfume" means "something that floats through the air like smoke."

"Torture" means "to twist". During the day of the Spanish Inquisition, victims were tortured by twisting and stretching them on the rack.

"Company" means "eat bread with you". The term company corresponds to companion and this in turn derives from the Latin words "cum", "ith", and "panis", "bread".

"Economis" comes from the Greek word "oekonomia" which literally means "house management". So anyone who is an economist is practicing oekonomica and therefore is a house manager.

Many foods have interesting meanings. For example "bread" means "merely a fragment". In 700 A. D. you never asked for bread, but for a loaf. If you asked for a loaf of bread, you would have received fragments of bread.

"Peach" means "a Persian apple". Any kind of fruit was an apple to the Romans. So when they saw the first peach imported from Persian

Junior Spotlight

This issue the Junior Spotlight is focused on Pat Van Asshe, an 11B, who is vice president of the Junior Class. Pat is on a college prep course and is majoring in English and Math and has hopes of becoming an elementary or secondary teacher. She will attend J. C. for the first year and then she might transfer to Michigan State to continue her education.

Pat is as active inside of school as she is out. In school she belongs to the Booster Club, Thespians, Future Teachers, and the Student Council. Outside of school Pat is a volunteer for the March of Dimes and is helping to raise money by selling peanuts and tickets for a Roller Skating Party. Pat is also the Teen Chairman for the South Dearborn Township District.

Pat's hobbies deal mainly with sports, namely Baseball, basketball, and tennis.

When asked her opinion of Lowrey's school spirit, Pat commented, "I think our school spirit is growing. Even though our teams are having troubles, we should still go to all the games and give them our full support."

they called it the Persian apple.

The "American Turkey" was named "turkey" because of a mistake. When the first settlers came over here the turkey reminded them of the turkey-hens or turkey-cock. Later it was discovered that the American variation of turkey was an entirely different species, but we still call them turkeys.

Did you ever wonder where the names of your subjects come from? "Algebra" means "bone-setting". The Arabians first called this form of math "ilm al-jelre wa'l-mug-abalah" which meant "reduction" and "comparison" by equations. The Italians took the second and third words of this phrase and combined them to form the word Algebra.

We are indebted to the book, **Word Origins**, written by Wilfred Funk, Litt. D. for this information.

Features from the Bleachers

Lutheran West Defeats Lowrey

On January 5, the Lowrey Varsity Basketball team lost to Lutheran West by the score of 60 to 44. George Stanulis led the scoring with 22 points. Corky Hall was next with 9 points. The game saw the return to action of Marty Hotvedt who picked up right where he left off last year. Lowrey trailed most of the way by 8 points, but they did not fall far behind until the last few minutes. We were pleased to see the large crowds, and hope that these crowds keep coming.

Sport's Spotlight

The Lowrey Light Sport's Spotlight shines this issue on Jim Milke, 11B. Jim is from Best J. H. School in District 7. He is on a college prep course and manages to maintain a "B" average. Last year Jim was on the varsity track team and won his letter in the 440 yd. dash and relay. This year he played reserve football and is now playing reserve basketball. When asked what he thought of this year's hoop squad, Jim answered, "If we had more height we could do a little better." Jim's favorite subjects are chemistry and mechanical drawing. He spends his leisure time playing the guitar and swimming. Last summer Jim played on the Dearborn Township Class D Baseball Championship team for Pardee. Although he didn't play 1st. string, he thinks he learned a lot and hopes to be on 1st next summer. Electrical Engineering is included in Jim's future plans. Best of luck!

J. H. Edged Out

Lowrey's Junior High basketball team lost a heartbreaking game to O. L. Smith by the score of 40 to 39 on January 14.

The team, as a whole, played a pretty good game. Mr. McKae commented by saying that the team needs more experience and a better defense to control the offense of the other team. The starting lineup and the number of points each boy scored are as follows: Stan Janek, 20 points; Angelo Coridori, 12 points; Fred Ribbets, 3 points; Bob Scymanski, 4 points; and Jack Townsend who aided in Lowrey's valiant effort to win.

The game was considered as one of the closest ones that they had played in the past. The score changed hands every few seconds, but Lowrey lost the lead in the last six seconds to lose the game. Mr. McKae also said that since their game and in the next week's practice they found many new 9B boys that will help them when the 9A's leave for Fordson.

Riverside Runs Up One-Sided Victory

On Wednesday, January 10, Lowrey's varsity basketball team played a non-league game at Riverside. The final score was 92-26 in favor of Riverside.

Lowrey has yet to win a game this season. As this score indicates, Riverside has one of the better teams in this area. They are a team with a lot of pep and are expected to continue to improve.

Reserves Bow To Romulus

Lowrey's reserve basketball team is having its share of woes and hardships. The small Lowrey reserve team is unable to cope with the height of the other teams but they are in there trying. Lowrey lost its last encounter to a tall Romulus team by the score 61-35. This makes the Bears record 0-5 in a still now young season. There are some bright spots for the team though.

Leron Paryaski, 10B, is the high scorer for every game and has an average of fifteen points a game. Coach Bach comments, "If we had some height we would be right up there near the top."

Let's all get out there and cheer the boys on. Maybe its not height they need but the thing they need most, support!

Ecorse Beats Tankers

The Lowrey swimming team lost to Ecorse on Tuesday, January 16, by the score of 55-50. This was the second meet which the swimming team lost by a slight margin. Brian Voden took first place in the 400 yard freestyle Harry Sawicki also won first place in the breast stroke. John Sheron won a first place in the diving events. Also winning first place were Al Carter, John Sheron, Dave Ghetia, and Dan Gregory in the free style relay.

Spring Play Planned

Casting for the Thespians' spring play to be presented in April will be held from February 12th through the 15th. Tryouts will be after school in the Little Theater under the supervision of Mr. Meredith, director, and sponsor for the Thespians.

The play, "The Great Big Doorstep", is a three act comedy by Frances Goodrich and Albert Hackeitt. It has had a fairly successful run on Broadway and has been presented by many high school and college drama groups.

The play takes place in the deep South and centers around the lives of the Crocett family and their attempts to 'live up' to the big, beautiful doorstep they found floating down the river. Their quest to find themselves, a new house, and a husband for their eldest daughter leads to hilarious consequences.

There are 5 male parts and 5 female, giving ample opportunity for anyone wishing to try out. Also, there are two roles for girls who look about ten years old. Anyone trying out for these parts should be short.

Ecorse Too Strong

Lowrey's basketball team lost its seventh straight game to Ecorse by a score of 98-52. This was the first time this season that the Polar Bears reached 50 points.

At half time the score was 35-21, the Bears were overwhelmed in the second half of the game as Ecorse reached 63 points.

Marty Hotvedt was high scorer for Lowrey's team with 16 points. Gerry Hall was close behind with 15 points.

WHAT'S IT WORTH?

A plain bar of iron is worth five dollars. This same bar of iron when made into horseshoes, is worth \$10.50. If made into needles, it is worth \$4,258. If turned into balance wheels for watches, it becomes worth \$250,000. This is true of another kind of material—you. Your value is determined by what you make of yourself.

James K. Hughes
Farmers' Almanac

Fizz-Chem Club Plans

The Fizz-Chem Club, headed by President Marynelle Hall and Sponsor Mr. Donald Keiffer plan to have more speakers at their future meetings. The club is also planning a field trip to Ann Arbor to visit the nuclear reactor at the University of Michigan.

The club recently heard a speaker from the U. of M. Dearborn Center who lectured on the basic aspects of Lograthama.

The primary goal of the Fizz-Chem club is to stimulate the interests of students in science and experimentation. The club is interested in new members and invites students to attend meetings and accompany the group on field trips. For further details, see Mr. Keiffer in room 9, or Marynelle Hall.

Willow Run Dunks Tankers

Lowrey Senior High lost to Willow Run in their swim meet. The meet was held at Willow Run on Tuesday, January 30, at 7:30. The score was 59 to 45 in favor of Willow Run. Here are the winners of the Medley. Ted Slater, Harry Sawicki, Al Gubert and Tim McElmurry. The winners of the butterfly were, Al Gubert and Dick Graham. Here are the baskstrokers; Ted Gendron, and Scott Saxon. Mr. Sande said, "We have no place to practice in the pool. If we had more space to practice in, we might win."

Salina Sinks Jr.

High Tankers

Lowrey Junior High lost 43 to 30 to Salina in a swim meet on January 31. Mr. Oswalt, the coach, said, "We would have won but our butterflyer, Jim Stopa was sick." Despite this loss the team fougi hard. Leroy Jurzec won the free style, Richard Lowe won the back stroke, Jim Stephens the breast stroke, and Tim Fondren won the diving.
