

School History Ends: "Up 'til Now"

Here is the last installment of our three part history of Lowrey High. We hope these articles were informative and enjoyable and that by reading them you have gained a greater insight into the traditions and history of your school.

In January of 1946 Mr. Dorman Ardis became principal and remained in this position until September of 1950 when Mr. Merwin Lewis took over. It was during Mr. Lewis' years as principal that the suburban student sending districts were changed. This was brought about by the building of high schools in many of these districts. Therefore, the remaining districts without sufficient room or without high schools altogether began sending their students to Lowrey. While students from both Districts 2 and 7 attend Lowrey now, by the fall of 1963 Lowrey will be strictly a District 7 school, for the time anyhow.

In January of 1961, Mr. John P. Romanow took over the reins of principal of Lowrey. In his brief one and one-half years as head administrator many changes have come about. In '61-'62, Lowrey underwent its first major renovation since 1930. While much has been accomplished, much more improvement lies ahead.

Mr. Stuart Kissinger has been selected as head architect for the new alterations to be made in the school this summer. Changes have been planned for the gymnasium, cafeteria, auditorium, shop, and other areas.

By the fall of 1962 Lowrey will have practically become an entirely new school, housing the largest enrollment of students in the City of Dearborn.

But changes will not only be made in Lowrey's physical structure, for many new additions and alterations have been planned for the curriculum. With student support courses will be offered in Russian and Spanish, along with the presently offered Latin and French. Classes in notehand and personal typing will also be offered, with preference being made to college prep students.

The history of Lowrey High does not end here, for it will continue on and on as long as this building stands, and after. Every student, every graduating class, will have the opportunity to add a page to Lowrey's illustrious past. Whether that page will be good or bad depends on the students themselves.

The pen and ink are here for you to use... there are many blank pages left. It is up to YOU to decide what will be written on them.

The Advantages Of Summer School

The Dearborn Board of Education has recently announced that the summer school program that was offered last summer will again be offered in 1962.

Since for most students the summer becomes boring and tiring for lack of constructive things to do, it would be a good time to pick up credits in enrichment courses; to remove required courses to make room for electives during the school year; to develop competencies; to strengthen training background; and to provide a more solid base for additional training.

Every student should read the following reasons carefully, with his parents, and see if any apply to you. 1) Take some of the enrichment courses which are designed to improve your competencies in the areas they cover. 2) Remove one or more required subjects to make room for move electives in the regular school year. 3) Add to the subjects in your required sequences to strengthen your background. 4) Remove deficiencies in credits to meet graduation requirements. 5) Develop special skills in courses not available in the regular school year because of conflicts with required sequences.

These enrichment courses, except for instrumental music and driver education, are open to students 8A through grade 12.

One today is worth two tomorrows.

Experience keeps a dear school, but a fool will learn in no other.

B. Franklin

Senior Wins Scholarship

Henry Pollakowski, 12A-6, recently won a Ford Motor Fund Scholarship.

Scholarship recipients were selected on the basis of school records, college entrance examination board scholastic aptitude test, and other potentialities for success in college.

Henry was one of a 1000 who took the test. There were 71 winners in the United States. Nine of the winners were from the Dearborn area.

The scholarship pays tuition and fees, plus 80 per cent of normal living cost, to any college in the United States. Henry will use the first two years of the scholarship at Henry Ford Community College and the last two years at University of Michigan.

Henry, who is from District No. 2, on a college prep course, manages to keep up an A— average while being active in other activities.

Juniors Have Prom

The Lowrey High School juniors presented their Junior Prom on Friday evening, April 27, in the Lowrey Ballroom.

The decorations, following the theme April in Paris, included a sidewalk cafe, an art gallery, and a park scene.

Mack Pitt and his band provided music and entertainment for the juniors and seniors attending.

Some men grow, others swell.

Seniors Honored By U. of D. Publication

Two Lowrey seniors, Charlotte Loftus, 12A-6, and Marynelle Hall, 12A-5, recently had their literary work chosen from among six hundred submitted pieces to appear in the annual magazine 'Young Horizons' put out by the University of Detroit's journalism department.

Charlotte wrote a poem entitled "The Skater". It is the story of a girl who, while she is ice skating, sees a boy she feels is her idea of a perfect boyfriend. She loves him instantly. However, her illusions are shattered when her hero slips and falls on the ice.

Marynelle submitted an essay called "Macbeth" which was an analysis of Priestly's essay by the same name.

Charlotte and Marynelle's works are among the 67 picked to appear in the second annual edition of "Young Horizons".

Both girls were sponsored by Mrs. Hoffenacker, a Lowrey English teacher, in the Michigan and Ohio State literary contest. They had to have their entries in by December 10.

Marynelle was interviewed and photographed by the Detroit Free Press in regard to her entry.

Both girls are invited to an authors party at the University of Detroit in May. There is to be a guest speaker.

"Young Horizons" is to be published on April 21.

Teachers Win Fellowships

Congratulations to Mr. Roe and Mr. Fedorek on winning two fellowships this summer. These fellowships pay all university fees, including tuition, room and meals in one of the university dormitories, all prescribed instructional materials, plus round trip travel allowance from the city where the winner teaches to their chosen universities. These fellowships were put out by the General Electric Foundation. The fellowships are for a period of six weeks, beginning June 17 through July 28.

Mr. Roe has chosen Purdue University as his place of study. He will be studying Economics there. Mr. Roe won his fellowship by writing a 300 word paper on why he wanted this particular fellowship and what he expected to get out of it.

Mr. Fedorek plans to attend Texas A. and M. He won a fellowship in the field of science. He plans to study advanced courses in Biology.

Editorial: Loafing This Summer?

Now that summer is approaching, most of us are making plans for ways to spend it. The majority of our plans include sleeping late, swimming a lot, and going out with friends.

Some of the plans include traveling to different cities and states. Here, we can see many different things.

Many of us are making plans to work. We are also planning how to use the money we will make. The 12A's planning on attending college next fall will certainly put it to good use!!

Just about every minute of our summer is planned — for the majority of us. Many of us don't really know what we want to do. Sitting around "loafing" just doesn't appeal to us, traveling might be too expensive and some of us just can't find jobs. If you are one of these people, here's a good suggestion for a wonderful way to spend your summer. Why not go to summer school?

Summer offers us a chance to take courses that are required and gives us a chance to take some course we wouldn't have room for in our schedules.

It also offers us a chance to take a course not offered in our own school during the regular term. Some of these courses are psychology, photography, creative writing, atomic science, and molecular biology. All of these courses offer a great opportunity for us to enrich our minds with "out of the ordinary" students.

Some will say it doesn't give us a chance to have fun. It, however, gives us a chance to meet kids from other schools, and because the classes run from 8 a.m. to 12 noon, we still have the afternoon and evening (after homework's finished) to enjoy ourselves.

As of this writing, the figures for the cost of the various classes has not been released. However, the price is comparatively small for the benefits one receives from these courses.

While you're making plans for your summer, why not consider going to summer school. It has a lot to offer and it's a tremendous way to spend your summer!

Committees Chosen

Committees for the June, 1962, Senior Prom were recently chosen by Senior Class President, Fred Moreno.

Heading the eight member ticket committee will be Jim Francis, 12A-3. In charge of publicity will be Pat Grych, 12A-4, while Sandy Masonis, 12A-5, will take care of guests and invitations. They will work closely with Fred and the Senior sponsors for the next few weeks.

Inquiring Reporter

If you are a regular reader of the Inquiring Reporter, you will have noticed that we rarely wander from subjects directly connected with the affairs of high schools and their students. But the subject we are discussing in this issue affects everyone in the U. S., not only a few people. Here are the answers to this issue's question:

Do you think that the United States should have resumed nuclear testing? Why?

Jim Francis, 12A-3—"I don't believe the benefits gained from the resumption of nuclear testing could ever out-weigh the importance of the world's health and welfare. More time and effort should be spent on international peace rather than on national defense."

Renate Riest, 12A-7—"No, I do not think the United States should have continued nuclear testing. We spend millions of dollars on testing each year; actually we should use that money for the good and welfare of our people."

Jerry Austin, 12A-1—"Yes, I do, because we have to keep up with Russia and even try to get ahead of them in nuclear testing."

Marita Jacobs, 12A-4—"Yes, because it is necessary for our protection and those smaller countries who are dependent on us for their safety."

Mr. C. Newton—"No, I do not believe the U. S. should have resumed nuclear testing above ground because there may be some danger to the world, and if we are striving for peace, this cannot be considered a peaceful gesture to the rest of the world."

Ken Stacey, 12A-8—"I believe that President Kennedy was correct in resuming nuclear testing. The Soviets have been testing their weapons for the last four years. We have been losing our superiority in the nuclear weapons race."

Sandy Masonis, 12A-5—"It has its good points and its bad points. There's a chance of fallout which would cause a terrible death. But then there is the possibility of losing the opportunity to be able to harness the energy of the bombs."

Sherry Ausbury, 12A-1—"Yes, because Russia broke the three year moratorium to resume their testing. I feel it is necessary for us to continue testing for the sake of our own defense."

Marynelle Hall, 12A-4—"No. As long as we are having disarmament

talks with Russia, we should show our good faith by not testing. Just because Russia does it does not mean that we have to. Besides, it will just make a lot more fallout."

Fred Moreno, 12A-6—"It's hard to say. On the one hand is the fact that without resumption in testing we would fall far behind the Russians who started retesting last year. On the other hand is the realization that more nuclear testing will further pollute the world's atmosphere and, therefore, in time, endanger the health of our people."

Elka Kovacich, 12A-5—"No. What we want is peace, and by condoning nuclear testing, we are not coming closer to it. The very thing we want to stop we are promoting."

Mary Ellen Miller, 12A-6—"President Kennedy is better able to decide what to do in regards to nuclear testing than myself. It is my personal opinion that two wrongs won't make a right. Therefore, we cannot base our reasons for continuing the testing on the fact that Russia was testing. It would be better to pool all our knowledge about this subject and let this influence our decision."

Margy Ross, 12A-7—"Yes, I do think we were correct in resuming nuclear testing. It was necessary to keep our national defenses."

Anne Marie Lowell, 12A-5—"Yes. It's always been important for us to keep up our defenses and Russia is still working on their bombs, even though they might not be testing. Our bomb tests are important, but I wish they could be stopped once and for all."

Miss Julia LaMarca—"No, I do not think that we should have resumed testing. The U.N. should be made powerful enough to stop all war activity in the world immediately. These testings are health hazards to mankind. Man can act positively through the U. N."

Cheryl DeVore, 12A-3—"Yes, I do think we should have resumed nuclear testing. As long as Russia did not agree to an international control program covering such testing, our nation had to keep its defenses on the same level."

Brian Sheen, 12A-7—"I think that it is regrettable that nuclear testing was resumed; but as long as it is necessary for the defense of America, I believe it should be continued."

Nancy Bruder, 12A-2—"No, not unless the other nations continued nuclear testing. The fallout will become too dangerous."

Linda Bettinger, 12A-1—"No, I do not think we should have resumed testing. It is a shame that two great

countries like the United States and Russia do not care enough about the health and welfare of their people to stop testing."

Judy Gill, 12A-3—"In regard to the defense program of the U. S., I feel that we had to recontinue our nuclear testing program. However, it is too bad that nations of the world cannot agree to abandon this type of testing since the danger of fallout to world health is great. No defense program is worth harming the health of the world."

Guess Again

Read the clues and try to guess who this 10A girl is. If you can't, re-read them and guess again. It's all part of the game.

1. Hair—blonde
2. Eyes—blue
3. Outstanding characteristic is her personality
4. Height—5 ft. 4 in.
5. Outside interest. Jimmy

If you still can't guess who she is you can find the answer on page 4.

Chuckle . . .

Before you fall madly in love with a pair of bright eyes, make sure that's not just the sun shining through the back of his head.

We're Sorry!

In the last issue of the Lowrey Light the following people were misquoted.

George Stanulus, 12A-8
Jim Chilcoff, 12A-2
Thad Clinton, 11A-2
Gary Enos, 12A-3

We of the Lowrey Light staff extend our apologies for this error.

The Shadow

This week the Shadow has followed around a sophomore boy. Read the description below and see if you can guess who he is.

First Hour—He is learning about our world in social studies.

Second Hour—He is getting his daily exercise in health.

Third Hour—He is suffering through English class.

Fourth Hour—He is finally free for an hour to have lunch.

Fifth Hour—He is learning the meaning of H₂O in natural science.

Sixth Hour—He is struggling through algebra learning his symbols and signs.

Seventh Hour—He is at ease in study hall.

This athletic young boy has also won a letter in basketball.

Lowrey To Host

Plans for the Twin Valley Conference to be held at Lowrey on May 16, are now being made.

Every month one of the schools in the Twin Valley is host to the conference. The monthly conferences are usually half a day but the May conference will be an entire day affair.

The highlight of the day will be a guest speaker, Mr. Don Dolan, from the University of Michigan. He will talk on student government. Movies will be shown on the same topic. The group will go to Hemlock Park for a picnic at lunch time. An open forum will be held at the park.

Besides the conference the council has been working on many other problems.

The Junior High Council will work with the Senior High Council on cleaning up the outside grounds of the school. This project will be part of Dearborn's clean-up, fix-up and paint-up campaign. With the help of the students this project will be a big success.

The publicity committee with the moral committee are working on posters to boost the attendance at the track and baseball activities.

Words To Live By

Wisdom is knowing what to do next.

Spring Concert Near

The annual Spring Concert will be held on May 11, at 7:30 p. m.

The theme for this year's concert is "Sound of Music". The music that has been selected for the band includes:

"Emblem of Unity"—J. Richards
 "Italian in Algiers"—Rossini
 "Overture Militaire"—J. Haydn
 Selections from "West Side Story"—L. Bernstein
 "Original Dixie Concerta"—J. Warrington

"Fandango"—F. Perkins
 "Riffin' the Blues"—Z. VanAuken
 Highlights from "The Sound of Music"—Rogers and Hammerstein

The chorus is also participating in this and they will sing the following songs:

"With a Song In My Heart", "Blue Moon", "Spring Is Here", "Wanting You", "Catch A Falling Star", "Song of Love".

The boys will wear dinner jackets, the girls, party dresses, and it should be a very nice, formal affair.

"We promise you outstanding entertainment for this concert," said Mr. Keranen. This is one of the finest bands he has had during his years of teaching, and the selections on the program will prove this out.

The students are going all out in decorating the gym for the program to make it an outstanding concert. In the last number all the lights go out in the gym. There are revolving colored lights that will show up on the performers when they play their solos.

The price of admission to the concert is fifty cents. Mr. Keranen and Mr. Coedy and all the members of the chorus and band will be selling tickets in school. Students are cordially invited to attend this two hour, music-filled spectacular.

Junior Spotlight

Featured in this issue's Junior Spotlight is Steve Kornblum, 11A-4. Steve is on a college prep course and has maintained a B+ average throughout school. He came to Lowrey from District 7.

Steve is majoring in English, math, and science and minoring in history.

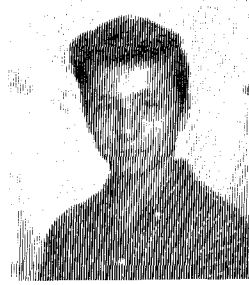

Steve's outside activities include the Dance Band in which he plays trumpet and track.

When asked what he thinks of Lowrey, he said, "I think Lowrey has improved since I have come, and I like it very much."

Council Holds Poll

The Student Council has been trying to stop the people that have been taking cuts in the lunch line.

Out of 50 people who were asked the question, "Do you think the student council should use force to stop cutting in the lunch lines", 74% said no and 26% said yes.

Guess Who?

Do you recognize this senior boy with the sparkle in his eyes? He comes from District 2, and has been here since the 11B.

On a general course, he plans to attend Henry Ford Community College after graduation.

Now guess who this boy with the smirk on his face is. If you still don't recognize him, turn to the answer box on page 4.

G. A. A. Busy

The Girls Athletic Association has been very active lately. Swimming and badminton are the sports that G.A.A. is concerned with now, 37 girls taking part in free swimming, and 30 in badminton.

The organization is open to all girls in grades nine through twelve and it gives these girls a chance to earn a letter.

There are two different sized letters, the regular sized ones, and smaller sized ones. Since the ninth graders only have a year to participate in Lowrey's G.A.A. they are usually the ones who go out for the small letter. In order to qualify for it they must participate in two team sports, and one individual sport in a one year period.

According to Mrs. Scafuri, the sponsor of the club, most senior high girls are not satisfied with a smaller letter. In order to qualify for the larger letter the girls must participate in 3 team sports and two individual sports in a two year period. Each sport gives them 10 points, and when they are on a winning team they receive five extra points.

For both sizes of letters, each girl is permitted only one excused absence per sport, or she receives no credit for that sport. Mrs. Scafuri states that attendance has been excellent all year long.

All sports except swimming, are on a competitive basis. Girls on the winning team receive small pins representing the sport in which they excelled.

Prom Priced

The price of tickets for the Senior Prom was recently announced. They will be \$3.00 per couple and will be on sale in the near future.

Juniors Wash Cars

The Junior Class held a car wash on Saturday, April 14, 1962.

The car wash took place at the Shell Gas Station on Outer Drive and Southfield, between the hours 9:00 A. M. and 5:00 P. M. The price was \$1.00.

Diane Pierce, Junior Class Secretary, said that out of approximately forty juniors that signed up for the car wash, only twenty came to it.

The Junior Class had a profit of fifty dollars which was cleared by the Student Council and used toward the Junior Prom which took place on Friday, April 27.

Student Teacher Presented

A recent addition to the Lowrey faculty is a tall red haired youthful man teaching with Mr. de Stigter in the social studies department. His name is Mr. Heerve and he is here as a student teacher. Mr. Heerve will be with us until the end of the school year when he will be graduated from Central Michigan University. He is majoring in social science and minoring in physical education.

Mr. Heerve is an avid sports fan and he also participates in basketball, baseball, and swimming. He was in the army for two years.

Upon graduation, Mr. Heerve plans to be a social science teacher. This is his first student teaching assignment. Mr. Heerve thinks the students are real nice and he thinks he will enjoy teaching.

It is a pleasure to welcome Mr. Heerve to Lowrey and we hope that his stay here is a very profitable one.

It's All In The State Of Mind

If you think you are beaten, you are.

If you think you dare not, you don't. If you like to win, but you think you can't,

It's almost a cinch you won't.

Full many a race is lost,

Ere ever a step is run;

And many a coward falls,

Ere every his work's begun.

Think big and your deeds will grow,

Think small and you'll fall behind;

Think that you can and you will; It's all in the state of mind.

If you think you're outclassed you are.

You've got to think high to rise;

You've got to be sure of yourself, Before you can win the prize.

Life's battles don't always go

To the stronger or faster man,

But sooner or later the one who wins

Is the fellow who thinks he can!

Baseball Team Downs Haston!

On Thursday, April 26, Lowrey's baseball team beat Haston with the score 12 to 11.

Bob Goldsmith pitched the whole game, allowing only 2 earned runs and striking out 1. Richard Cervi batted in the winning run.

At times during the game Lowrey was behind 7-0 and 11-5. The boys showed a lot of enthusiasm, and even though they made 10 errors they came through to win the game.

Netters Win

Lowrey's tennis team had a great boost in moral by swamping Haston to 7 to 0 on April the 17th. Lowrey's netters won every match.

Winners in the singles matches were Stacey, Hall, Baird and Johnson. The doubles were taken by Foy-McCall, Pollakowski-Bodo, and Good-Kubicz.

This year's team should have as good a season as last year's when they came in second in the league. First place went to Hamtramck which finished first in the state.

Spectator participation has been pretty low at the matches so far this year. Let's get out and give our tennis team some support.

Riverside Outruns Lowrey Thinclads

On April 12, 1962, Lowrey lost its track meet to Riverside High by a score of 72-32.

In the shot put we took first and second place. Bill Lock, 10A-6, took first with a 42 ft. 1 in. throw. Jim Hribal, 11A-4, took second.

Jim Francis, 12A-3, won a second place in the broad jump with a leap of 16 ft. 11 in.

In the pole vault, Mike Alanskas, 12B-1, took second place while Eugene Andrews, 11A-1, took third.

Tom Gary, 12A-3, and Mike Alanskas tied for second in the high jump.

In the high hurdles Dale Ferriby, 11A-3, took a first place with a time of 18.6. Chris Stevens, 10A-10, tied for third place.

With a time of 5:12.3, Paul Zwarka, 10A-11, took second in the mile. Doug Rauner, 10A-9, won the 880 yard run with a time of 2:18.2

Fordson Romps

Lowrey was defeated by Fordson in the tennis match on April 16, 1962, by a score of 6½-½.

Kennedy and Gary Baird tied at Fordson in the number 4 singles match.

Returning lettermen this year are Kenneth Stacey, Bill Foy, Henry Pollakowski, Bob Johnson, and Gary Baird.

Sports Spotlight

This issue's Sports Spotlight features Dave Husak, 11A-4, from District No. 2.

Dave is on a general business course and maintains a C+ average.

Outside of school he keeps busy running around the track. Dave has been in the Varsity Club for one year, participates as halfback in football, and as a sprinter in track. In his spare time he works for his dad, an automobile dealer.

Dave was asked what he thought of our school spirit and replied, 'A lot of guys knock down the school sports because the teams never seem to win, but where are the kids that always complain?'

Trackmen Lose

Lowrey's track team lost to River Rouge on April 17, by a score of 85-24.

Jerry Jurzec, 10A-5, took third place in the shot put.

Woody Woods, 11A-10, and Tom Gary, 12A-3, tied for third place in the high jump.

Paul Zwarka, 10A-11, took second place in the mile.

In the 100 yard, Dave Husak, 11A-4, took third place.

Doug Rauner, 10A-9, took third place in the 880 run.

Paul Zwarka, 10A-11, took third place in the 440.

Chris Stevens, 10A-10, took third place in the low hurdles.

In the 220 yard dash Dave Husak, 11A-4, took second place.

Our boys are trying hard but need your support and attendance at the meets. With someone there to cheer them on, we might win.

Garden City Beaten

Lowrey's netters won their first tennis match with Garden City on Thursday, April 12. The score was 4-3.

In the first match, Ken Stacey, 12A-8, beat Duffy by a score of 6-1 both times. Corky Hall, 11A-4, overpowered the Panthers' Armstrong in the second match. The scores were 6-4 and 6-2.

In the third match, Gary Baird, 12A-1, defeated Cook by twin scores of 6-2.

Bob Johnson, 11A, won his matches by scores of 6-2 and 6-4.

Hard Times For Lowrey 9

Things haven't been going too well around Lowrey's baseball diamond. As the old saying suggests—the ball just hasn't been bouncing the right way.

The Varsity Nine could attribute their April 12th loss to the fact that the next day was Friday the Thirteenth, but Riverside High's 15 run scoring barrage sort of fouls up that excuse. While pitcher Mike McGee, 12A-5, finished the game, starter Viger was charged with the loss. The score? A very unlucky, Friday the thirteenthish 15-6.

But the sad news doesn't end here; four unfortunate days later we met Fordson. Hurling the entire game, Gary Willis, 12A-8, chalked up a phenomenal 14 strike outs. But yet this wasn't good enough, for as the sun set on April 16th, Lowrey came home with a 13-1 loss.

But wait! Don't give up hope yet! Mr. Rigotti has admitted that the team has a lot of improving to do, but that it can do it.

We agree wholeheartedly, but feel that more spectator participation would help improve the spirit of our team and its won-loss record, we hope!

New Cheerleaders Chosen

Recently chosen as the new Senior High cheerleaders were Carol Griglio, 11A, Lynn Christie 10A, and Sandy Coulson, 10A. They will be replacing the three girls who will be leaving the squad at the end of the semester.

One of the present cheerleaders, Gail Salo, will be graduating in January of '63. The girl chosen to replace her is Linda Sevener, 10A.

Besides these four new girls two alternates were also chosen. These girls will take over if any original cheerleader gets hurt or can't cheer for some reason. The two alternates are Lynn Nihill, 11A, and Kathy Dearvang, 11A.

The choosing of these six girls was a very hard job. Every girl that went out for cheerleading was good and it was difficult to choose between them.

The Lowrey Light wishes all of these six girls the best of luck in their future cheerleading.

Petitions Available

Anyone interested in running for a class office or an office in the student council may pick up petitions from either your counselor or Mr. Pearson.

There is a lot of hard work involved but the rewards are very satisfying. Being an officer is a good way for you to serve your school.

Lowrey Bows To Willow Run

On April 26, Lowrey's track team bowed to Willow Run by a margin of 68 1/6 to 40 5/6.

In the shot put Bill Lock, 10A-6, took first place and Jerry Jurzec, 10A-5, took third place.

Frank Dudek, 11A-2, took third place in the broad jump.

Mike Alanskas, 12B-1, took first place and Doug Atha, 10A-1, tied for third in the pole vault.

In the high jump Tom Gary, 12A-3, took first place and Mike Alanskas, 12B-1, tied for second place.

Dale Ferriby, 10A-3, took third place in the high hurdles.

Paul Zwarka, 10A-11, took first place and Jack Richman, 10A-8, took second place in the mile.

In the 880, Doug Rauner, 10A-9, took first place and Mike Alanskas, 12B-1, took third place.

Harry Sawicki, 11B-7, took second place, and John Tynan, 10A-10, took third place in the 440.

In the low hurdles Chris Stevens, 10A-10, took second place.
