Vol. 32 No. 11

LOWREY HIGH SCHOOL, DEARBORN, MICHIGAN

April 22, 1966

## Bits " Pieces

by Gloria Ellerhost  
and Chris Allen

Students! Welcome back! We at the Lowrey Light hope you had a pleasant Easter vacation but now it is time to settle back down to work. Remember! June is just around the corner

Seniors received their calling cards on March 29, 1966. There were only a minimum of mistakes made.

Bus 2E has been taken off the route because not enough students have been riding on it. These kids have been transferred on other buses.

The results of the Student Council Constitution election were 421 no and 392 yes. Although it was defeated, we hope there will be those who are willing to prepare new changes in the present constitution.

## Lowrey To Be Evaluated

Starting next fall Lowrey will undergo a re-accreditation program conducted by the North Central Association of Colleges. Every seven years the Association evaluates our entire school program with these points in mind: adequate facilities, faculty, social atmosphere, and an all around program that will help the student who wishes to continue on to college have the correct requirements.

The department heads will assist Dr. Seavitt with the evaluation which includes the following: philosophies and objectives of senior high students, the community, classroom facilities, student activity programs, audio-visual services, required programs, elective programs, business program, health services, and the building.

Mr. Gretzner has been selected by the faculty to act as teacher-chairman.

The Association which consists of university instructors, administrators and teachers from other schools will come here during the day and check the faculty and the written report submitted by Dr. Seavitt. They will visit classes, talk to students, look over the total school program and physical structure of our school.

## Lowrey Takes Five

Rough competition is what a great many students faced when the District Forensic Contest took place here at Lowrey on Wednesday, March 30.

A total of 48 students from Cherry Hill, Wayne Memorial, Romulus, and Lowrey competed for winning a chance on going to the Regionals, which will be held on April 26 at Dearborn High School. The finalists of the Regionals will then attend the State competition which will be held in May.

There were eight categories which were open for these students. They were as follows:

Boys Extempore Speech, Humorous, Radio News Commentary, Original Oratory, Multitude Reading, Declamation, and Serious Interpretation.

Out of these categories Lowrey took three first places and two seconds. They are as follows:

### First Place

Humorous Reading John Angelos  
Boys Extempore Jan Ting  
Radio Commentary Ray Berry

### Second Place

Girls Extempore Cheryl Koroly  
Declamation Larry Naessons

We wish these five students the best of luck in the Regionals.

## Boys Take S.B.T.B.

All fifty boys from Lowrey's junior and senior class who took the U.S. Navy Recruiting Station's Short Basic Test Battery (SBTB) scored high enough to be considered for general enlistment and a number of them ranked high enough for Class A schools.

The test is short, 75 minutes to administer, but valid. It provides an objective measurement of abilities and aptitudes. Students taking this test were under no obligation whatsoever and there is no passing or failing mark, for this is not necessarily a test of how much a man learned, but of how much he should be able to learn.

The SBTB consists of three parts, each designed to test a different subject category. The General Classification test is designed to measure verbal ability and it correlates highly with most standard tests of intelligence. The Arithmetic Test is designed to measure skills in fundamental arithmetical process in arithmetic reasoning or problem solving. The Mechanical Test is designed to measure basic mechanical and electrical knowledge and comprehension of mechanical principles.

## Constitution Story Constitution Voted Down

Robert O'Neill

Students voted down the proposed new Constitution 421 to 392 after lively assemblies on March 21, 1966, where the pros and cons of the constitution were discussed.

The proposed constitution would allow open meetings and student participation but would limit the number of student representatives to two from each class, sophomore, junior, and senior. There would be a decrease in the number of committees to fit the supposed needs of the students concerning complaints, activities, and so forth.

Under the present constitution, the power to vote and consider all activities are delegated to the Executive Board of the Student Council. The homeroom representatives have no vote and are only able to propose changes and activities but have nothing to say as far as whether or not to have them. Meetings are open but students are

not allowed to participate.

The student council then decided to hold an open meeting and have all homeroom representatives submit resolutions which would then be read to the board in the hopes that they would take further action.

The open meeting was held on April 4, 1966, and action was taken. There have been a sufficient number of resolutions submitted and a committee has been formed to draw up a new constitution which will be presented to the student body in the near future.

## HFCC Enrollment

Mr. Foster, Director of Admissions at Henry Ford Community College, recently registered interested Lowrey seniors for HFCC.

Lowrey seniors attended two assemblies in all. The first was for curious seniors who were thinking of attending the Community College or who wanted some information on the College. The second assembly was only for students who wished to register at this time. Students also received their application forms.

Mr. Foster informed seniors that Henry Ford is a two-year accredited college. There are two-year programs and four-year programs which run parallel with senior colleges. Mr. Foster said tuition is \$120 a semester and classes are \$12 an hour.

For any other seniors who did not attend these assemblies, the College is open from 8 a.m. to 9 p.m., Monday through Thursday, and from 8 a.m. to 5 p.m. on Friday. For information, call HFCC at 271-2750, extension 250. Ask for Mrs. Weir or Mr. Foster.

## Sympathy

Mrs. Genevieve Bertram Coy

We wish to express our sincere sympathy in the death of Mrs. Genevieve Bertram Coy on March 18, 1966.

Mrs. Coy taught English, French and Social Studies at Lowrey School until her retirement in 1961. No job was too big or too small where students were concerned.

We are all poorer because of her death.

—Julia LaMarca  
March 23, 1966

## Thanks Offered

To the Editor:

We would like to thank the student body for the resounding vote of confidence in the present student council and its operations, as expressed in the referendum of March 23, 1966. By rejecting the proposed Student Senate Constitution, the students of Lowrey High have demonstrated their approval of the handling of student affairs by the present organization. We are proud of this favorable consensus and promise to carry on faithfully as before. With renewed enthusiasm, the student council will continue to represent interests of all Lowrey students.

Robert O'Neil,

President of the Student Council

Jan Ting,

Vice-President of the Student Council

## Students Challenged

To the Editor:

So the constitution didn't go through. I wonder why? I am glad to see that finally the whole student body took an interest in their own school.

Some people said that the proposed constitution was made behind their backs. This is completely false!! Any student, any student at all, who has an idea or an opinion was and still is entitled to go to the student council meetings and express it. The changes that could have been made were typed and given out to every single student of Lowrey High School. You had the opportunity to read and think about the changes, and if you didn't it is your own tough luck. No one is going to spoon feed you. As high school students you should have enough sense to know better. But do you? I'm beginning to wonder?

In my opinion it is better to have 18 people who really care, and want to see something accomplished, instead of 36 people who don't give a darn.

Why is it that the kids who don't participate are the ones who always holler the loudest? Do you know? Maybe if they took part they would see what the Student Council Members must put up with. The Student Council can do only what you allow it to do because without you or active interest nothing can be done.

If you want something to become of this situation, tell your homeroom representative (that is if you have one), and MAKE SURE he attends the meetings. He is representing YOU, and without him YOUR voice is NOT heard.

by Nancy Sterling

## Social Science News

## Cartoonist-Imaginative and Humorous

The career featured in this issue of the Lowrey Light is that of a cartoonist.

What do cartoonists do? They draw cartoons for comic strips, books and magazines, editorial pages of newspapers, motion pictures and animated TV, TV commercials, and advertisements. They may write stories or gag lines or may work on a free-lance basis.

Where are they employed? They are employed by newspapers, magazines, feature syndicates, motion picture studios, TV broadcasting networks, advertising agencies, art studios, and by business and industrial firms.

How many people are there in the field? In 1963 there were about 102,000 artists and art teachers. The exact number of cartoonists was unknown.

What education or training is necessary? A person planning to be a cartoonist should have graduated from high school plus have had two or three years in art school or a college art degree is desirable. Correspondence courses are also helpful.

Are there any special qualifications for this field? Yes, a person planning to enter this field should have a few, if not all, of the following qualifications: drawing ability, sense of humor, broad interests, originality, imagination, perseverance, and knowledge of human motivation.

How does one enter the field? You may apply directly or submit a portfolio of cartoons to a prospective employer. You may start as a letterer or as an assistant to a comic-strip cartoonist.

What is the chance for advancement? It's good for those with persistence and talent. There is much competition for top jobs.

What hours does a cartoonist work? Usually, a cartoonist works 20 to 50 hours a week; however, it varies according to an individual's working habits.

What about the pay? In 1963, the earnings of cartoonists were \$3,000 to \$5,000 to start. Experienced animators and staff cartoonists made from \$7,000 to \$15,000. Top cartoonists made \$50,000 or more. For piecework the pay varied from \$5 to \$500.

What is the demand for cartoonists? The demand for good cartoonists is growing, especially in TV and advertising. The field is hard to break into and is highly competitive.

## Replies Create Confusion

As I sit and wonder about the student senate proposal, I am becoming very confused trying to figure out why it wasn't passed. The response and interest at the assemblies and afterwards was great, and I think it's about time the students really expressed their ideas. But ... and this is where my confusion lies... I wonder how many of the students meant what they were saying?

The students aren't clear on what they want for a student body government. I asked many students why they voted "No" to try to understand their reasoning. I got answers like: 'Just because,' 'I didn't like the presentation of it,' or 'Spite,' and the one that really got me: 'I like it the way it is.' Opinions are a person's own viewpoint and I'm not trying to cut this, but I think you'll agree that none of the reasons I mentioned are very good. I'm sure everyone "cares" about the student government, but answers like these make me really begin to wonder. What irks me is that these answers are the ones that I got most often. I ran across very few people who had well thought out opinions on why the proposal shouldn't be passed. These people should have voted as they believed because they really weighed the facts and formed their own opinions.

ton, D.C., 20210. Ask for "Social Science and Your Career"

The statement: 'I like it the way it is' really irritates me. It is proven that the student council at Lowrey is definitely inefficient, and mainly because of lack of interest by the students on student council! Some of the kids were complaining that they don't want any changes in the student government but I noticed at a sophomore student council meeting that these very same kids weren't there to help with preparations for the sophomore dance. It seems ironic that people who make it known that they "care" so much about student affairs do not show up to plan their own dance.

Now you see why I am confused. The students who voted in favor of the proposition showed that they at least want a change. However, the kids voting negatively apparently showed confidence in an organization that is not working.

I urge new proposals to be drawn up until one is satisfactory to the majority of the student body. If the last proposal accomplished anything at all it was an arousing of interest in school affairs in everyone at Lowrey and hats off to it for that! A great many of the students want change and I hope more people take the initiative to do it!

by Laura Dunaitis

## Lifelines

A Junior swaggers down the hall, A Sophomore thinks he knows it all, A Freshman looks at both, confused, A Senior views them all, amused. \*I.D. refers to the identification cards used in high school.

## YOUR TWO CENTS . . . . .

What do you think of Batman?

Clare Wirick, 11A-12: I like Superman better.

Linda Taylor, 10A-10: Can't see him.

Vicki Bruce, 10A-1: I never saw him, and I never care too.

Judy Johnson, 10A-4: He's got bat-breath.

Richard Gierecki, 11A-5: He's a bulldog.

Earl Wirick, 12A-13: He shakes a mean cape but Robin is my idol.

Joyce Cusson, 11A-3: He's an insult to the 4 year olds.

Terry Fritz, 10A-3: He's for the bat guys.

Jim Hornyak, 12A-6: I like Mighty Mouse even better.

Norman Simmons, 12A-11: I think he's a communist.

Larry Henson, 12A-5: Send him to Viet Nam, and find out how good he is in hand to hand combat.

Roger Tousignant, 12A-12: I wonder if he lives out by Ann Arbor???

Lana Presley, 12A-10: I've never seen the show, but I hear it's pretty wild.

Laura Dunaitis, 10A-2: I like the show because it's good satire.

## Future Teachers Learning Here

Recently five seniors from Wayne State University began their student teaching in our high school. In this issue we will introduce you to the teachers working with Mr. Keranen and Mr. Rice. The Lowrey Light will interview the other three student teachers and introduce them in the next paper.

Student teaching Mr. Rice's three 12A English classes and his 10A Study Skills class is Miss Badoud. A senior at Wayne, she will graduate in June, in which she has majored in English. Miss Badoud has been working her way through school as a guide at Green Field Village.

Mr. Palice is the new student teacher conducting the school band. With a major in music he will graduate in March. Mr. Palice plays 17 musical instruments and has played at various nightclubs across the country with his band, George Young and the Youngsters.

Mr. T. Lowry

Ray Goins, Latin Club president, and Linda Nagle are shown admiring the scroll which certifies the club's membership in the Junior Classical League.

## Latin Club Joins League

The Latin Club of Lowrey High School recently became an Honorary Member of the Junior Classical League.

The Junior Classical League is a national organization composed of local classical clubs. The purpose of the Junior Classical League is to

encourage appreciation of the civilization, language, literature and art of ancient Greece and Rome. Upon entering the Junior Classical League, a scroll stating membership in the league was presented to the Lowrey Latin Club students.

## Easter Bunny Visits Hospital

The Easter bunny visited the pediatric ward at Wayne County General Hospital by way of the Future Nurses Club.

The members of the Future Nurses Club prepared 30 baskets for distribution and delivered them to the hospital in time for Easter Sunday.

Candy for the baskets was paid for with money from the treasury. Each girl colored six eggs and met at the home of the club president, Pam Narloch, to arrange the baskets.

## V.C. Wounds Ex-Student

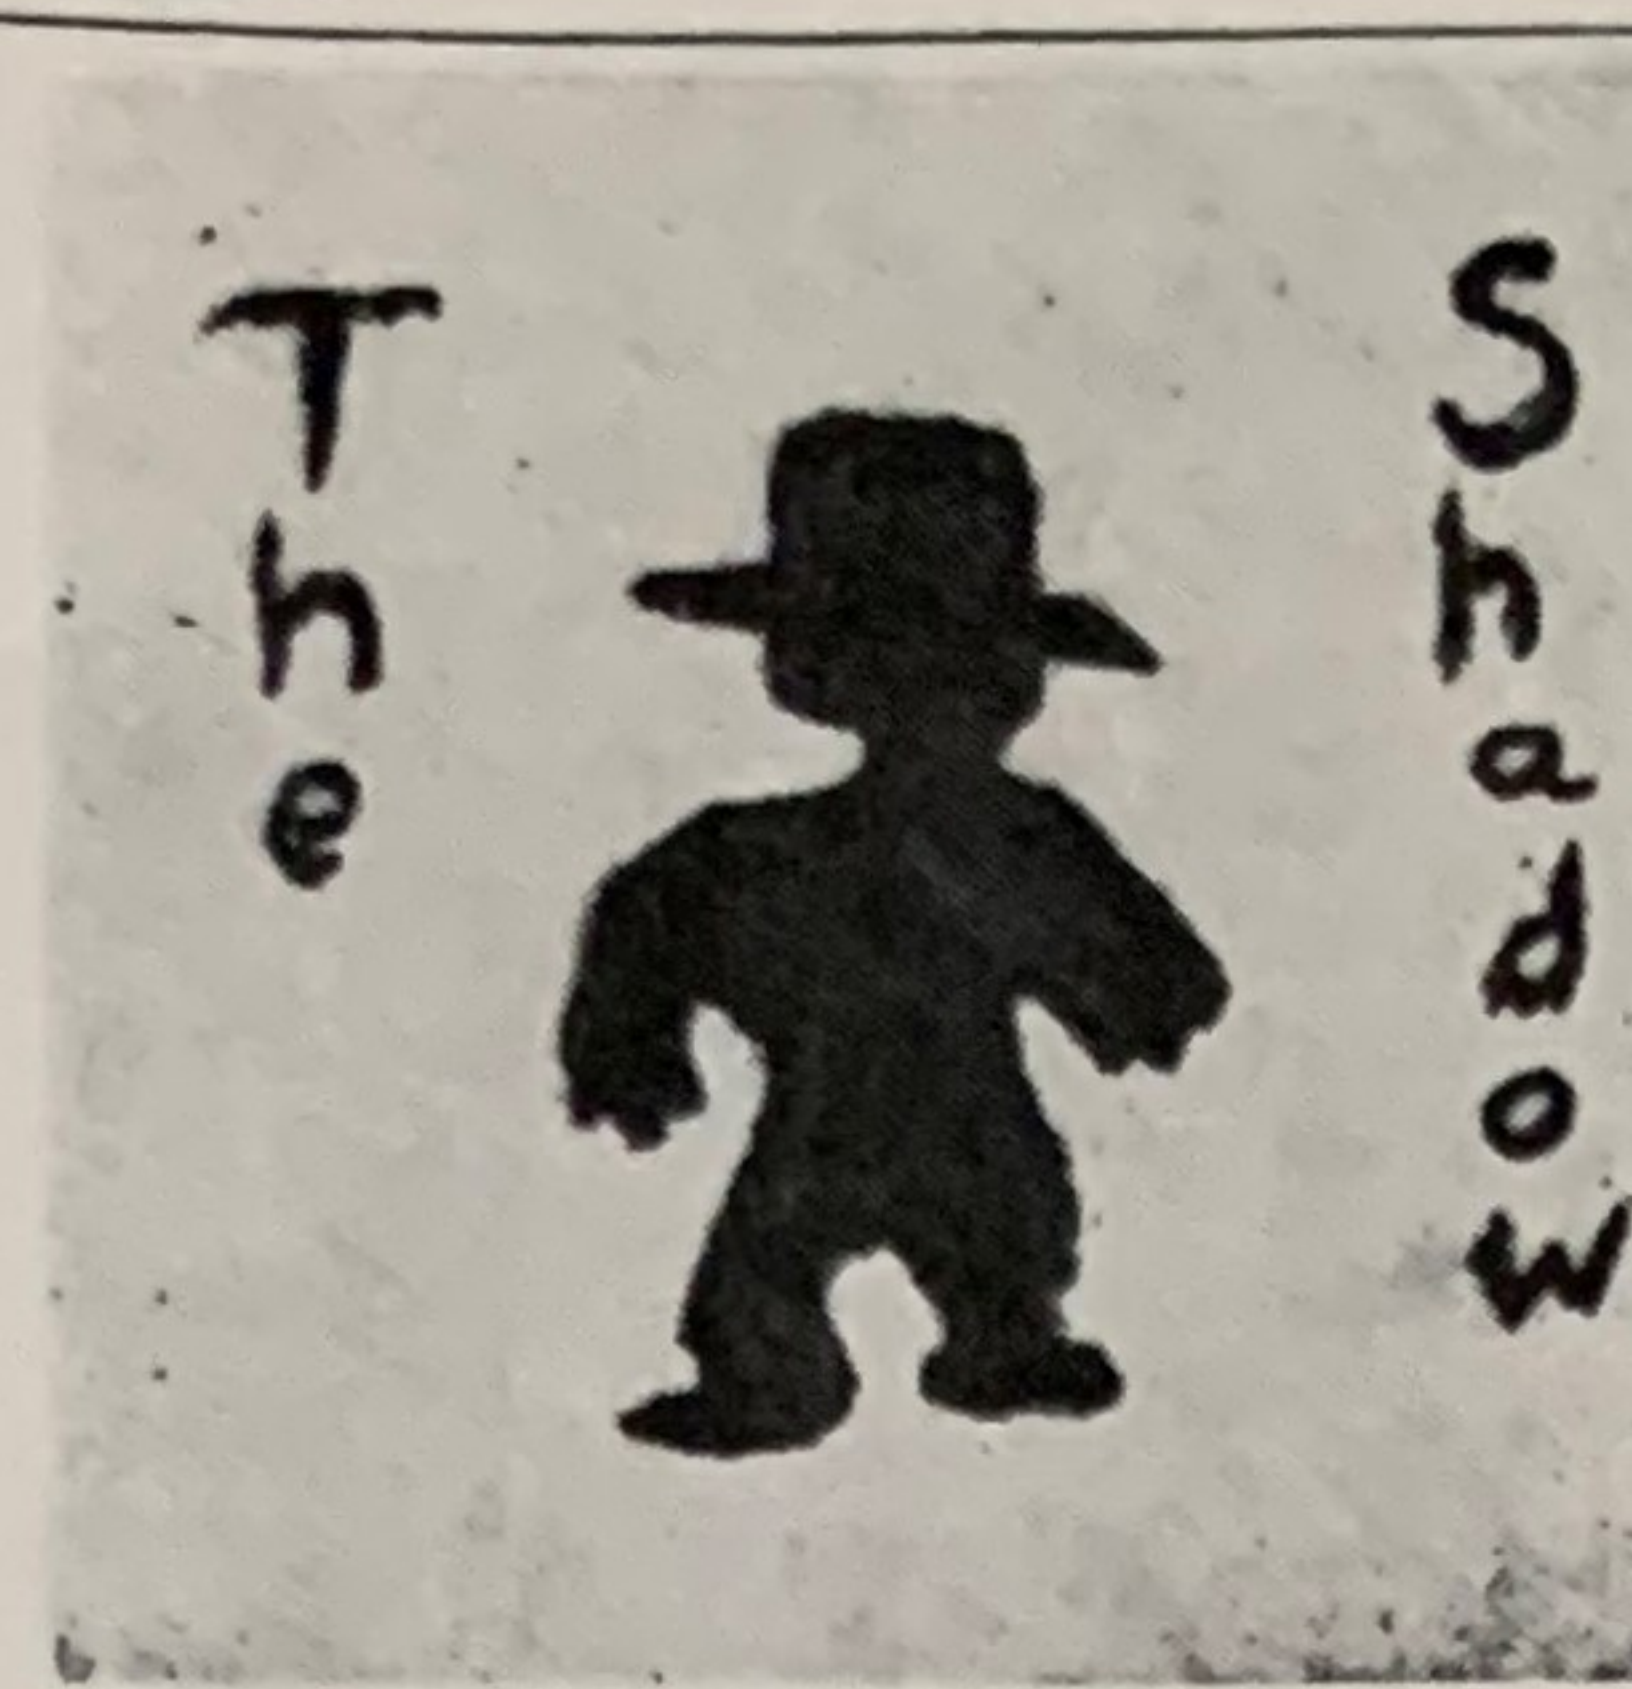

The war in Viet Nam was recently brought home, with the news that P.F.C. Thomas Mawby, who left school last year to join the United States Marine Corps, was wounded in action.

He was shot in both shoulders as he ran to direct artillery fire into an enemy position 30 yards away.

He recently visited Lowrey School while he was home on a convalescent leave.

## Cheerleaders Hold Clinic

The cheerleading clinic, which will last six days, began April 19 for girls who are interested in becoming cheerleaders. During the six day clinic the girls will learn different cheers and motions from this year's cheerleaders, Joan Sawicki, Dorothy Thompson, Carole Lake, Gail Dearvang, Betty Bellotie, Cathy Andrusiak, Terry Sven-

This week's Shadow is following a senior girl. See if you can figure out who she is.

First hour, she is trying hard to pay attention to Mr. Coedy's "words of advice" before she begins to sing.

Second hour, she is scribbling hurriedly, trying to get down all the notes that Mr. Rice dictates.

Third hour, we find her typing away for dear life during one of Mrs. Barret's timed writings.

Fourth hour, we see her taking one of Mr. Newton's true and false tests in government.

Fifth hour, she can be observed stuffing herself and gabbing away a mile a minute in lunch.

Sixth hour, the Shadow finds her answering the telephones and being an "errand girl" for the office.

Seventh hour, she tries to understand how not to be a misfit in life and marriage in Personal

Still don't know the answer?? See page 4.

## Booster News

Booster Club members recently selected the following people as club officers for the coming year:

Kathy McGreevy ..... president  
Billy Sue Erway .. vice-president  
Mary Kay Vadnais .... secretary  
Debbie Fontaine ..... treasurer  
Congratulations, girls!

During the same meeting, topics concerning the Activity Banquet were discussed. Junior and senior members of the club are eligible to attend.

The Booster Club made the popcorn, and sold programs and pom-poms during the last football and basketball seasons. The funds collected from this will go toward sports trophies to be presented at the annual Activity Banquet. The trophies selected and paid for by the club are for the most valuable player in football, basketball, baseball, cross-country, track, swimming, tennis, and possibly golf.

Girls who have been club members for at least two years are eligible to receive Polar Bear emblems.

dor and Barbara Szaley.

When the six days are over, Mr. Bremenkamp will judge the girls and select the cheerleaders for next year. There will be no semi-finals this year.

The next issue of the Lowrey Light will report to you on next year's cheerleaders.

## Teacher Takes Civil Defense Course

Mr. Fedoruk, one of our Junior High counselors, recently took a training course in Radioactive Monitoring. He was selected to represent the Dearborn area around Lowrey.

He attend four two-hour classes, consisting mainly of using Survey Meters, attending lectures, seeing films, and reading pamphlets.

Radioactive Monitoring is a means of measuring the amount of radioactivity in the case of a Nuclear attack his job would be to go outside and record the amount of radioactivity in the air to see if it is safe enough for a person to go outside.

His comment about the program was, "I regard the opportunity to have taken the course as most interesting and worthwhile. If we need to protect against nuclear fallout, we will be able to cope with it."

## Industrial Awards

In the annual Michigan Industrial Education Society and Detroit News industrial Arts Contest held at Thurston High on April 1-6, Lowrey boys walked off with four prizes.

Boys from all over Wayne County brought projects which they did in school to Thurston to compete for honors for excellence in Industrial Arts.

Dean Clark, 12A-3, won first prize in the open division with a chess set and chest. In Machine Shop I, Dennis Warner, 12A-13, was awarded second place with a tap set. Sebastian Deledda, 11A-3, won third place in Machine Shop I with a die wrench. George Reed, 12A-10, received an honor award with a sine bar.

In Machine Shop II, Sebastian Deledda won an honor award with a parallel toolmaker's clamp.

When asked about how they felt about winning, Dean Clark said, "I never really believed that I could win a first in such a contest. It makes me feel good to think that my project could rate high among those from all of Dearborn."

Dennis Warner stated, "I was surprised that I had won second place in the contest. Even though we started on our projects at the beginning of the school year, we were no match for what Fordson turned out."

The State Exhibits were displayed at the Civic Center in Lansing on April 14, 15, and 16.

## Shadow Answer

The answer to the Shadow in the last issue of the Lowrey Light is Janice Miron, 10A-7.

# Lowrey 1966 Tri-River Golf

Here is the Lowrey High School Varsity Golf Schedule for 1966. This is the first year that Lowrey has had a golf team and has entered into the Tri-River League. There have been two games played thus far—one against Schafer and the other against the defending champions, Riverside.

Monday, April 25	Southgate	3:30	Home
Wednesday, April 27	Cherry Hill	3:30	Away
Monday, May 2	Crestwood	3:30	Home
Wednesday, May 4	Garden City West	3:30	Away
Monday, May 9	Kennedy	3:30	Home
Wednesday, May 11	Schafer	3:30	Away
Monday, May 16	Riverside	3:30	Home
Wednesday, May 18	Southgate	3:30	Away
Monday, May 23	Cherry Hill	3:30	Home
Wednesday, May 25	Crestwood	3:30	Away
Friday, May 27	Garden City West	3:30	Home
Wednesday, June 1	Kennedy	3:30	Away

# Lowrey 1966 Tri-River Track

Here is a listing of the coming track meets with our opponents in the Tri-River League for 1966.

Tuesday, April 26	Southgate	4:00	Away
Thursday, April 28	Garden City West	4:00	Away
Saturday, April 30	Eagle Invitational	10:00	Jackson
Tuesday, May 3	Kennedy	4:00	Away
Thursday, May 5	Cherry Hill	4:00	Home
Saturday, May 7	Schafer Invitational		
Monday, May 9	City Prelim. Meet-Edsel	3:00	6:00 Finals
Thursday, May 12	Schafer	4:00	Home
Saturday, May 14	Regionals		
Tuesday, May 17	Crestwood	4:00	Home
Saturday, May 21	State Finals		
Tuesday, May 24	League Prelims. at Schafer	4:00	
Wednesday, May 25	League Finals at Schafer	6:00	

# The History Of Our National Pastime

Baseball is called the national pastime, and it has earned that name. From the year 1833 through 1966 there isn't one normal teenage American boy who hasn't played the game of baseball.

In 1833 the English version of baseball, called rounders, was played with any type of ball that could be found and a couple of round sticks for bats. Then wooden poles would be put into holes dug in the ground. As the players ran by the poles they had to touch them. They would be marked off and used as bases. The distance between bases would be 48 feet from batter's box to first, 60 feet from first to second and 72 feet from second to third and to fourth (home).

Each team would have one pitcher, two catchers, three outfielders, four infielders and one roving outfielder and infielder.

In 1845 the American baseball game replaced rounders. Each base was 60 feet apart, except batter's box to first base which was 30 feet. However, any number could play on a team. Usually 11 or 12 played on a side and sometimes 15 or 16.

Then, in late 1845, the first professional baseball team in American history was organized. It was called the Knickerbockers Base-Ball Club of New York. In the spring of 1846 the New York Nine became a pro team.

The first professional baseball game was played in the United States on June 19, 1846, in Hoboken, New Jersey. The New York Nine defeated the favored Knickerbockers 23-1 in four innings. But, this was not the most important aspect in the game. The third and final type of baseball field was introduced. The creator, Alexander Cartwright, called it a baseball diamond. The basepaths were each 90 feet apart. The pitcher's mound was 45 feet from home plate, but later it was moved back to 60 feet and 6 inches. Last and most important, each team was held to nine men on the playing field at one time.

In 1873, A.G. Spaulding was the first and highest professionally paid player, with a salary of \$1800.

Next Issue: The coming of the American League. The first world champion baseball team and the loyalty of an Englishman who almost ruined American baseball.

## New Sport

You can't really say, "It's that time again" because it isn't. As a matter of fact, it is the first time. Yes, that is right, for the first time in Lowrey's history the school has a golf team. The team will be the newest member in the Tri-River League.

Practice began Monday, March 21, for all the boys who were in

Mr. Flee

interested in joining the team. Practice is being held at the Midway Driving Range and the home course, Warren Valley. It is located on Warren Avenue near Riverside.

The toughest opponent for Lowrey is expected to be Crestwood. The Chargers have three players shooting in the high thirties for a nine hole course. This is a very good score. Riverside is the defending league champion and is also expected to be a rough opponent.

Coach Flee's largest hope is that the team will improve as the season progresses. He commented when he was asked what his score for a nine hole course was, "My score? It's fair, but you don't want to know my score."

## Announcements

The deadline for the order blanks for graduation announcements was March 15, 1966. Exactly 53 seniors in this class with 284 did not turn in their order blanks.

As a result, mothers of seniors called in and wondered why their youngsters could not receive their graduation announcements. The fact is they could if they would have turned in their order blanks on time.

Mrs. Marinelli, who handled the order blanks, said she was utterly shocked and very disturbed to hear from "irate" parents.

Seniors, after twelve years of school, should have the responsibility to bring in a single order blank.

### SHADOW ANSWER

The answer to this week's Shadow is Bonnie Boike, 12A 2.

## Faculty Victorious

The Junior High Faculty defeated the ninth grade basketball team by a score of 44-37 on April 5. The faculty trailed at half-time 24-12, but took the lead for the remainder of the game in the third quarter.

Mr. Donaldson led the faculty with 16 points and Jolly led the ninth grade team with 9 points.

## Track Underway

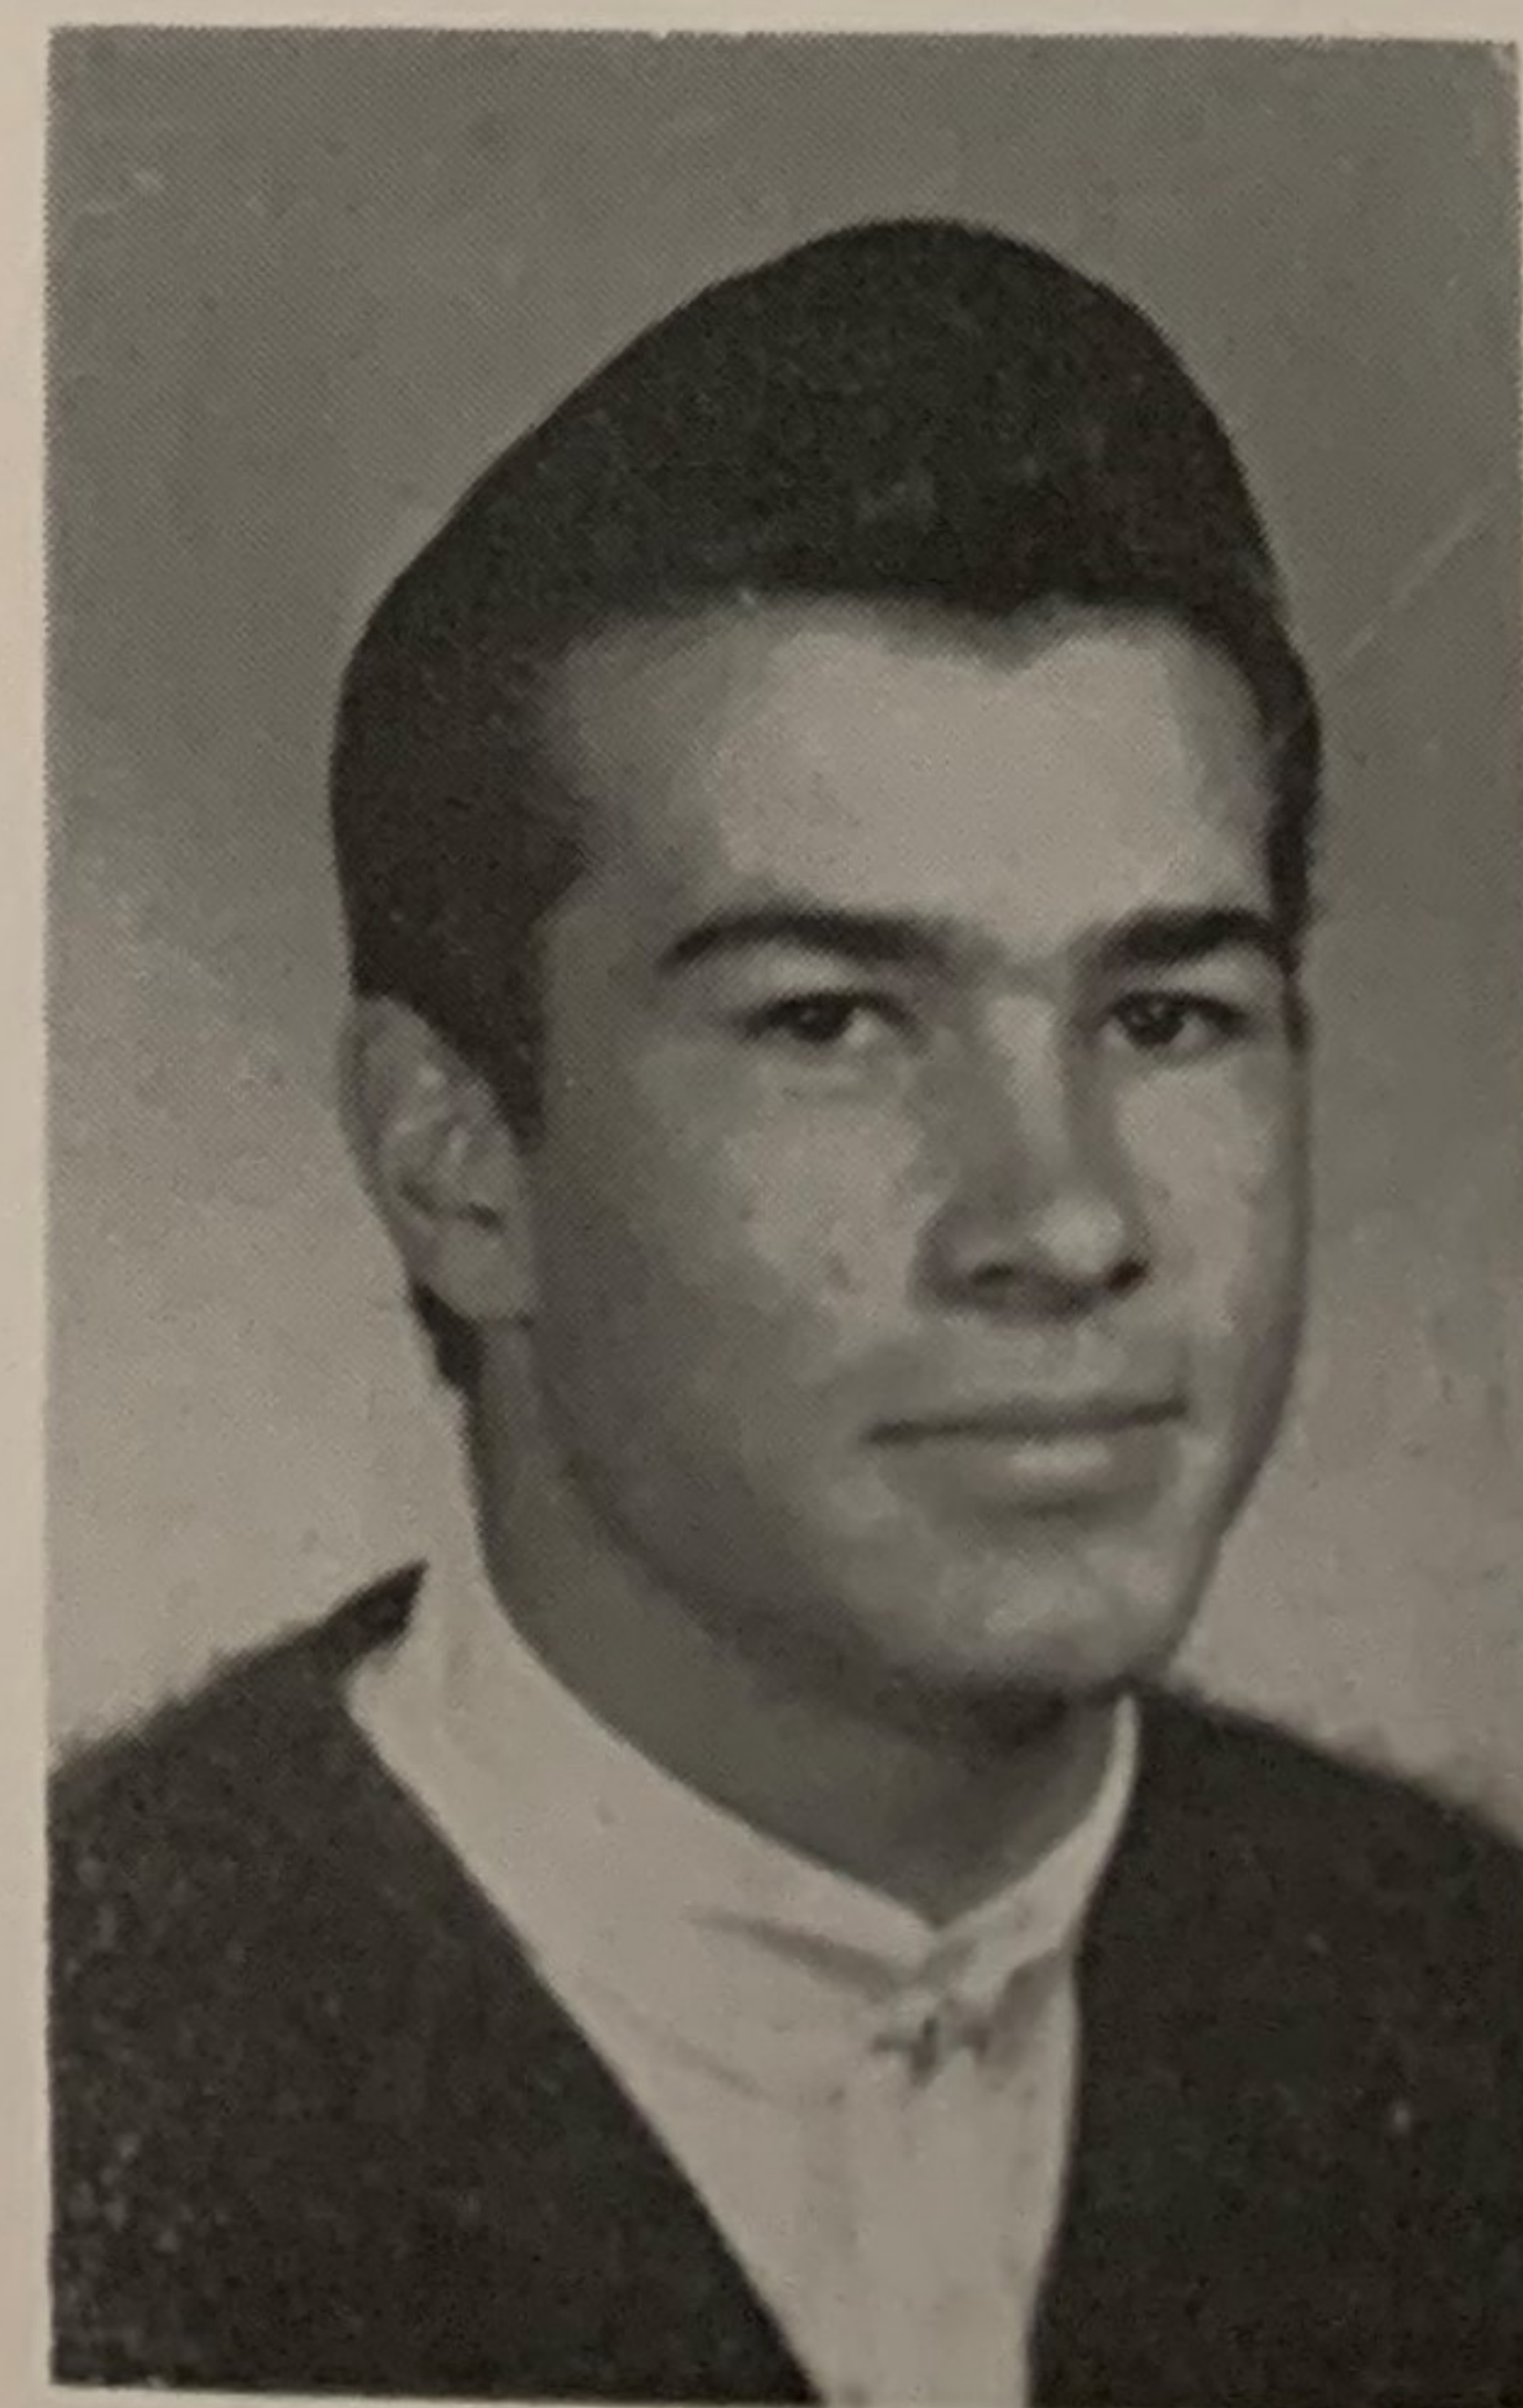

Track has started and recently the Lowrey Light staff had a chance to speak about our track team with head coach Hugh Weller. We asked him what kind of season he expects and he replied, "It depends, if we get some help from new men, it should be a profitable season."

Some of the records that could be shattered this year in track are the shot-put, low hurdles, the mile relay, one-half and the one-quarter mile runs. With Lowrey being strong in the above events plus having 16 returning lettermen, our thinclads could be highly ranked in the Tri-River League this year.

Coach Weller summed up the interview by stating that Southgate is the team to beat.

Here is a list of records that the Lowrey thinclads will be aiming at in the 1966 track season. The season began on April 2 in East Lansing with the Class A Spartan Relays.

St. Andrew	Broad Jump, 20'8"
Harlan	Shot Put, 52'3 1/2"
Berger	220 yard Dash, 22.8
Henderson	High Hurdles, 15.8
Mellon, Husak, Schultz,	
Berger	800 yard Relay, 1:36
Stoop	Pole Vault, 11' 2"
Zwarka	Mile Run, 3:37.2
Rauner	440 yard Dash, 52.6
Hyne	High Jump, 5'10"
Berger	100 yard Dash, 10.4
Henderson	Low Hurdles, 21.0
Holbird	880 yard Dash, 2:03.5
J. Holbird, W. Holbird, Pysz,	
Campbell	Mile Relay, 3:37.2

Steve Gerych
