Holler Inspectors.

Orange, Tex., May 7.-Captains L. C. Hershberger and R. G. Murray of Galves-Join hull and boller inspectors, were here to-day and inspected the towboat J. V. Gullatte and the scenem yacht Lucz, They left on to-might's train for Lake Charles, where they will special to-morrow and leave there to-morrow evening for Galveston.

Lost an Lyc. Beaumont, Tex., May 8.—Will Hughes, a colored employe of the Long manufactur-fog company, was struck by a piece from the shingle sizer and his eye was torn out entirely.

Corpus Christl.

Corpus Christi, Tex., May 7.-New settlers continue to arrive in Nucces founty. Ves-terday four wagon loads of emigrants from Beil county reached Corpus Christi. They will engage in lruck farming in this vi-

andly used in track tarking in this y-ble. O. C. Heath and family, who ar-freed here about thire years are from Frowlance, R. I., have concluded to return to their former home. To-day Walker Crawford had one of his fool any walker the home of his fool any walker crawford had one of his fool any walker the home of h

Resenberg.

Rosenberg, Fort Bend Co., Tex., May 2.-The Rosenberg public school closed last hight with appropriate exercises, in which all the school children took part. The en-terthinment commenced with an impressive and instructive speech by Judge flickey of Richmond. Tex., dwelling largely on the benefits of a thorough education. This was followed by recitations and songs by the little folks. A due by Allss Annie V. Sics-pleton, the ieacher, and Mirs. H. R. Brown was well rondered and favorably com-mented on. Some first-class music was fur-nished by the Carr orchestra of this place. The school house was packed to its fullest capacity. enberg, Fort Bend Co., Tex., May 8.-

Sartartia.

Sartarlia, Fort Bend Co., Tex., May 7.-There are 6000 ueres of corn, colton and cane on this plantation that is far adcance on this plantation that is far ad-vanced with the season, it being univer-sally conceled that this is the function ever raised on the Sartartia plantation. Much of the carn has stready been inid by and the 400 acres of cotton is mostly chopped out and a gréat deal of it heing eight or ten inches high, but to a certain extent impeded in its growth by the lice. Rain is badly needed in this section of the country. The stubble canc, which last year was a very poor stand is now a good heating stand and a heidthy growth. The long distance telephone company is placing their poles along the line of the speaking distance with the outside world.

Good Roads Movement. League City, Tex., May 6.-To The News: I have been somewhat disappointed at not seeing any acknowledgment in The News from members of the good roads and drain-age committee of the sphenoid hospitality accorded to that committee by the citizens of Collygen at the member between

The intermotes of the glood roads and drain-inge committee of the spin-old hospitality accorded to that committee by the citizens of Galveston at their recent meeting there. I suppose, however, that other members have done as I have-waited, thinking that some one glited with the art of displaying such hospitality on paper would take the least-built for the benefit of those who were not there I want to say that there can hardly be any more pleasant and en-joyable recreation, to say nathing of the great results to be accomplished. In the first place, the meeting was held in one of the dinear rooms at the heat hotel in the city, and each efficient of Galveston made it his especial business to look after the confort of the committees. Then to wind up they were given a free ride to the jet-ties in Captain Newson's beau, which could not have been a more enformed a flair under any effection of the guests was on hand and dispensed with a Invish hand by the genial captain and his as-sistants, evol to towing a skiff at the stern in the the constant captain and his as-sistants, evol to towing a skiff at the stern of the scatter to block mill a threat hand by the genial captain and his as-sistants, evol to towing a skiff at the stern of the figures that any who will attend will so away with a good dramate that there is not more whole sould dramate that be on a fact and soul dramate that he community where the needed heat how will so away with a good dramate that there is not more whole sould dramate that there is not more whole sould dramate that there is not more a more endered in the constant of dalveston or the start of the start of after time only and of the const towned failer to no heat any sould dramate that there is not more whole sould dramate that there is not more whole sould dramate that there is not more whole sould dramate that there is not more and any sould dramate that there is not more whole sould and a sould dramate that there is not more and and sould dramate const towned the face of the start

THE TEXAS EDFFORS.

whole fraternity here in 1898.

Lady Hart,

THE LYONS QUINTET.

On the night referred to, at the home of Mrs. Lyon, the mother, five well-developed boys were born and bid fair to live. Dr. boys were born and bid fair to live. Dr. Mathews, who officiated, states that the case cellpass all others known to the medi-cal world, and that there is no reason whatever why any physician should doubt that the children will live. They are as sprichtly as any children could be at their present age, and the doctor says that all are in a more favorable condition to live than the majority of children at their age.

AT THEIR BIRTH the children weiched as follows: One tipped the scales at 4½ pounds, three at 3½ and one at 3, Mrs. Lyon, the happy mother of the

Alts. Lyon, the happy mother of the quintuplets, was been in Warren county, near Bowling Green, and is of the Alexan-der Campbell family, wall known in that coeffou of the Bluegrass region. She is 20 years of age, and is very small. She is quife good locking and of plensing address. Mr. Lyon, the father, who is now talked of and eyed more than any other man in this vicinity, is it years of age, and is also small. He came to this county eight years ugo from Logan county, this state, and has resided at his present home since that time. Mr. Lyon is a farmer in ordinary circumstances. He is the father of six children besides the recent arrivals, all of whom were been to his present wife. The oldest one of his children is 20 years of age. and the rest of them range down to 2 years. Four years are he lost one child. Since the bitth of the children there has been a large amount of money contributed at the home, and papers are in circulation when have been eagerly signed with LIBERAL AMOUNTS GIVEN.

LIEERAL AMOUNTS GIVEN.

The Ladles' aid sociely of this place has taken the matter in hand and have designed plans by which it is expected very large sums will be obtained at once. Meas

large sums will be obtained at once. Mest overy baby food company in the country has wired the father of the boys stating that they are ready on short nutice to de-liver, free of charge, any amount of food requested. Tolegrams of all kinds- bave been recrived asking for information con-cerning them. Preachers from various portions of the country have wired asking for the privileres to administer baptism, and, in fact, mes-sages of every kind are pouring in in a constantly increasing stream. The first question here in the morning and last a hight is "How are boys getting "Thousands of people have unsided the

The inst diesten after in the northing and last at night is 'How nor hoys getting along?" Thousands of poople have visited the home of the babies, and still there is a continual errowd pouring in during the hours of daylight. Few of them get to sou the children, and the physician was inally forced to place officers around the place to prevent the crowd entering the premises by force. Arrangements are being effected in the neighboring towns to run excursions here to witness the quintuplets next work, but the visitors will probably be disap-pointed, us it is now the plan to have the boxs moved into the city and not to per-mit one person outside of the nurses to en-ter the room until they become old coough to bear the worry of railers and until their moduce is byyond danger.

INTERESTING FIGURES.

INTERMENTING FIGURIES. Dr. J. D. Landrum, an experienced and well known medical man, gives some in-teresting figures in connection with the Lyons birth. He says that, as gleaned from well authenticaled statistical reports, twins occur once in 75 births, triplets once in about 500 births, quadruplets being so rare no reliable data is had, but is helieved to be once within 50,00 births, and quin-tuplets are exceedingly rare, but the fol-lowing authentic cases are found on the record: In the muscum in the college of surgeons of London are five focuses well preserved and are from one birth, advanced in conths only. Two cases are reported in the following authentic cases are found on the record: In the muscum in the college of surgeons of London are five focuses well preserved and are from one birth, advanced in Contribution S Magazhe in 1726 of five, at one birth each it noise cuse, and they lived long enough to be haptized. A woman at Naples in SSS had five children, and all were males: they were seven months' children. In ISSA a hely in Ruesia wes de-livenged of long birthered of four bays and ene sith all of whom flor were living and likely to do well. It is stated that another woman was delivered of four in Spaceny was delivered of five girls, fil of whom died in the first hour, in 1888, and of whom died in the first hour, in 1888, was denoughed by gave birth to five firs, at states we delivered of five girls, at states we delivered of five girls, at is we delivered of five girls, at states we delivered of five girls, at states us delivered of five girls, at states a seven months, damary 14, is by. J. D. Landrum, an experienced and

Milen, and the street car facilities will be ample and convenient. A great reat to the conventioners will be the visit of dev. Frankels II. Olara, D. B., and Beston, Mass. founder and president of the Second and the Weight In the Second s

Athirned. Opinion by Davidson, J. Rotan Hill vs. State-From Hill: Marder, second degree. It is contended that the explanation annexed to bill of exceptions No. 3 is not true and did not state the real facts. The remedy in such cases is inducat-ed in Exon's cuse (33 Cr. Rep., 461). The bill shows up error. Appellant officerd to prove his confinement in the county jail for twelve months and his reputation while therein for pence and for truth; and that the was an obvellent prisoner. There was no error in rejecting such testimony. There was ample proof this general reputation ob-tained he was enabled to pursue and can-ture the defondant for the murder. The elarge upon circumstantial evidence is suf-ficient. The objection that the charge upon alth uses the words: "The defendant says that he was at a different place," etc. is hypercritical. Affirmed, Opinion by Heu-derson, J.

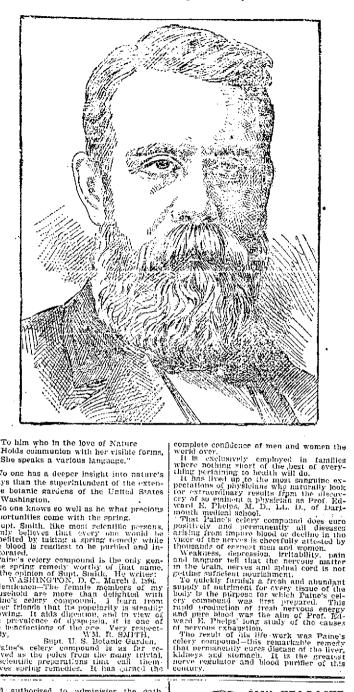

D. D., of Boston. Much thme has been given for singing, and Prof. J. D. Dargett of San Antonio is training a special choir for the convention. President Baillio Taiks of Their Trip and the Courtesies.

(Allier vs. State, 2: S. W. 950) Revenued and dismissed. Optimion by Davidson, J. James Craxy vs. State-Prom Kerr: Man-shangder. The indiciment charges "that denose Craxy * did then and there, with implice malice. 241 itsplace Crane by shoring him, the solid Raphael Crane by shoring him, the solid Raphael Crane the solid state of the second deriver it is neces-stry in the killing is mutter if is neces-shoring in the solid raphael Crane by shoring him, the solid Raphael Crane by the solid state of the second of the first or second derive. There is nothing in this indictment which stands for "aforethought," and in order to sustain the indictment we will have to treat "infore-thought" as a word without any mening. No common law authority is found hold-ing that an indictment would be sufficient for murder which oralited to allege that the killing was done with malice afore-thought. In some states it is held unnec-essary, but the opinions depend inred. Settled from another stante the question is settled from another state the durated dismissed. Opinion by Hurt, P. J. "Ella and Edger Townsond ys. State-Term Cooler Murder stand durated The.

The statement of one Alwon, a thrid party, not made in the presence of appellant, and was hearsny. One Slaton on voir dire stated that he had formed and expressed an opinion as to the guilt of appellants, but that he would not be influenced by such opinion. The defense did not challenge Slation and he served on the jury. On motion for new trial it was shown that before being called as a jury Slaten had stated that defend-ants were guilty and ought to be brangel; that if summoned have of the matter necks. Other and shall be and the served on not seen the party of the matter probability of the state of the matter necks. Other ad formed and expressed in nucle. Fulling to do this it is too her after verifier to go into the question in order to show that the jury was not fair and impartial. Appellant can not take ad-vantage of his own want of dillgence. The evidence is reverieved and held sufficient to sustain the verifier. The charge was cor-rect Aftirmed. Unified and sufficient to sustain the verifier. The charge was cor-rect Aftirmed. Could be sufficient to sustain the verifier. The charge was cor-

rotts to detaonen their own furnaces and rotting plants is the first strong chickness of the mischief of the billet pool. On the plea of overproduction and excessive com-potition, the basic manufacturers have formed a combination to limit operations and obtain better profit. It happens that the fin plate men are caught between high prese for raw material avia brick competi-tion from abroad in the finished product. To enable them to produce in plate profit-ably, and at the same time get perma-nently out of the power of the billet pool, they have decided to add to the alteration prese decided to add to the alteration of kills aviation capacity for producing open hearth-steel. The decision of the tim plate men is quite as likely as not to call the attention of kills aviation to the fact that prices for billers are high, and induce the establishment of new competition. There have were will beeft for arctificial high prices, the market will fall to endurance, and a new combinations is formed, to go through the same experi-ence, can time built as same experi-tence, and the failer way and there consel human to the liked charges of the plat is a constant repetition of the pro-cess decided to add to the pro-tess decident and the the same capacity of the plate that is received the limit of endurance, and a new combinations is formed, to go through the same experi-cation of the failer in the same capacity of the more plate that is a constant on a di-creased human.

Not Unreasonable. Richmond Dispatch. Customer: "As I said before, I will give you \$2000 for your house." Owner: "And as I said before, I can't take less than \$20.5 for it, the house and grounds alone are worth the amount of your offer." Output, haven't you?" Owner: "Certainly, sir, but you must remember that during toy him years' oc-equancy of that house sixteen gold collar buttons have cluded my strasp and are now lying in arabits, Can you, sir, onsei-entions have cluded my strasp and are now lying in arabits, four why what con-ributes so much to the intrinsic value of an offer."

D. DEBLA FROM 129 (Beg.)
 My site washadiblah for right-on months, Micr using Hendfield's right-on points.
 My site for two months, is getting with units is for two months, is getting with allocations.
