DEDICATION

We in the Greenfield District are proud of the Graduating Class of 1964. To each one of you success, and hope that the school years ahead are profitable and happy ones.

The Board of Trustees and Administrators appreciate the excellent support the parents and citizens have given all of our schools. This has made it possible for the district to employ top quality people to teach the boys and girls. Because of this continuing support the graduating students have been able to receive the benefits of a good instructional program.
