

**Nordhoff Class of 1964**  
**50 Year Reunion**  
**Memory Book/DVD Notes:**  
[Read Me First](#)

1. Included in this package is a **2 DVD set** of discs:
  - Disc 1 - Photos & Documents from the Reunion celebrated October 3-5, 2014.
  - Disc 2 - 1 hr. slide show prepared prior to & shown continuously at the Reunion.
2. You may find that the slides go by too fast or linger too long on screen. You can always use the pause, forward and back buttons on your device to view slides at your own pace.
3. The quality of the images varies greatly from slide to slide depending on who took the original photo, how the slide was made, how it was rendered and burned onto the DVD and what device you use to read and display the disc contents. There is often a loss of quality in the process of creating and playing back a DVD. However...
4. All photos on Disc 1 are stored in original, high resolution formats in the DVD-ROM. They can be accessed, viewed, downloaded and printed using a PC or Mac. Once the DVD has been inserted into the disk drive of your computer, exit the program, locate and double-click on the DVD icon on the desktop. Then open the folder called "...DVD-ROM Contents". There you will find several folders. These contain the original photos from the Reunion. Some were used to prepare the slide shows in Disc 1 and some were not.
5. The two DVDs should start playing automatically once inserted in your computer's disk drive or the DVD player connected to your TV. After the auto play introduction, an interactive menu will appear requiring the viewer to select items for viewing.

If you have questions or experience problems regarding the discs, call me at 703-865-8088. Just remember I am in the Eastern Standard Time Zone. I will do my best to help. I hope you enjoy the show!
