

Our Very Own Energizer Bunny...

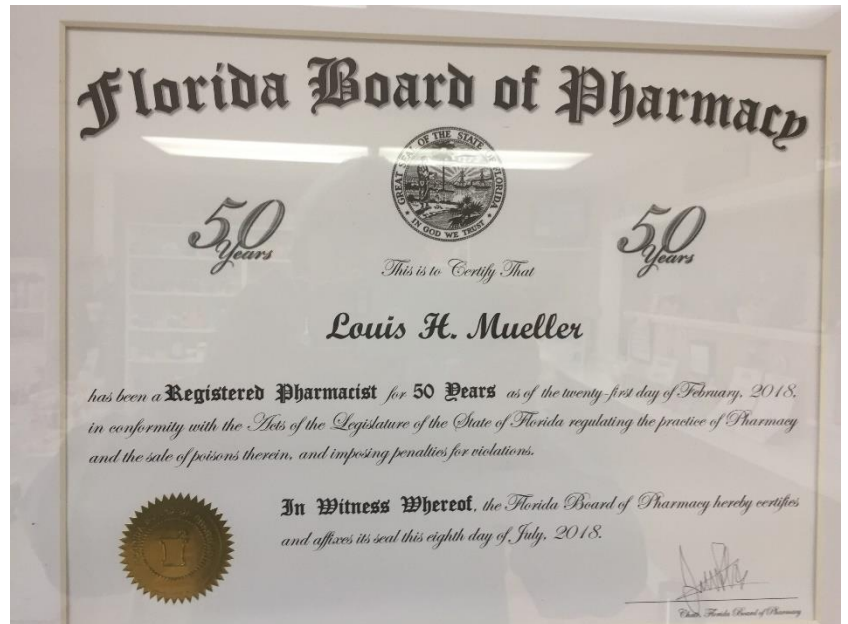

Fifty years and counting...that's right – Lou Mueller has been a pharmacist in the state of Florida for 50 years! As Ira would fittingly declare – **COWABUNGA BRO** (or something like that)!!!

And if you don't believe us here's the proof... →

Since opening his new Mainstreet Pharmacy in 2015 Lou continues to serve the quaint town of Safety Harbor by offering services beyond the normal scope of typical large chain pharmacies. Once a month the town “shuts down” Main Street and sponsors a variety of events including music, food and vendor activities.

Lou sets up a tent and invites pharmacy students from USF who take blood pressure and blood glucose readings for free. What a great experience for the students – a win/win for all concerned! Here he is with a USF Pharmacy Professor and students interacting with community members at the latest monthly bash.

And if that isn't enough, Lou sponsors a “Blood Bus” once a month where community members can donate much needed blood for local hospitals. Lou tells us October is an especially busy month as Halloween worshippers frequent the “bus” in large numbers (just kidding).

The Class of '62 is proud of you Lou and wishes you nothing but continued good fortune in your nonstop efforts to provide much needed health services to your community and beyond.

* * * * *

PS – Chas Honeker, in recent correspondence, takes credit for giving Lou wise counsel decades ago that ultimately guided him to Florida and what eventually became a life-long mission. Not sure about the legitimacy of Chas' claim so our staff disowns any responsibility.
