Our son, Matt, was promoted to the rank of Commander in the Coast Guard on June 30. The photo is Matt with his wife Laura and son Matthew, 8. His second son, Asher is being held by another coastie off camera. Matt is now Prevention Department Head in Sector Detroit.

Tricia and I are still working as environmental consultants (probably the oldest field biologists in the state of Florida) and just received a new 4 year contract. I hope we live long enough to complete the contract.
