By ROBERT E. O'BRIEN  
The prospects of Jersey City breaking the \$90 tax barrier this year are gloomy. Departmental budgets submitted to the city budget director, George Norton, are up \$239,000 over last year and this does not include the Medical Center or the board of education.  
To break the barrier, the city must trim its spending about \$3,400,000. The present rate is \$98.23 and the total appropriations, less school funds, last year was \$43,639,878.

## 'Masterpiece,' Says Official *Jersey City Doctor's Report On Injection Deaths Lauded*

A Jersey City specialist has submitted a report indicating "a definite correlation between intravenous infusions given by a Camden osteopath and viral hepatitis," which killed 14 of his patients, Attorney General David D. Furman said today.

Furman said the report compiled by Dr. Carroll M. Leevy, associate professor at Seton Hall College of Medicine, was "a masterpiece."

—O—

**IT WAS LEARNED** that Dr. Albert L. Weiner was giving up to 100 injections and infusions a day, Furman said. Dr. Leevy theorizes "an occasional breakdown" occurred in sterilization procedures on the bottles and tubes used to feed salty water into the veins. In all, 45 Weiner patients were stricken.

The report showed that 66 times last year a woman carrying the deadly hepatitis virus went to Dr. Weiner for drug injections to improve her mental condition.

After each injection the Camden County osteopath gave her an intravenous infusion of salty water—a standard technique in psychotherapeutic use of the drugs.

—O—

**AN ESTIMATED** 20 per cent of all Weiner's patients in 1960 who received similar salty water infusions caught viral hepatitis. The osteopath had more than 300 patients in 1960 and treated many of them two or three times a week.

"He seems to have had an affluent practice," Furman said.

# JFK Aged Plan Wins

WASHINGTON (UPI) — The medical care program advocated by President-elect Kennedy emerged today as a clear winner from the White House Conference on the Aged.

The outline of Kennedy's proposal to provide health benefits for persons over 65 by raising social security payroll taxes was to become part of the conference record at its closing session today.

Opponents of the Kennedy plan, spearheaded by the American Medical Association, failed to block endorsement of the social security principle. However, they did push through a policy statement contending that adoption of such financing methods would result in "poor quality health care."

# Negro Coed Weeps at Georgia Ban

ATHENS, Ga. (UPI)—The University of Georgia's first Negro students were suspended and sent home "for their safety" today because rioting demonstrators stoned a dormitory and battled with police.

Charlayne Hunter, 18, and Hamilton Holmes, 19, were suspended by the university. In Atlanta, Gov. Ernest Vandiver was preparing to take that action himself to "protect them against threats of their lives."

## Miss Hunter Weeps

The two Negroes, who had just finished their first full day of classes at the university without incident, were taken to their homes in Atlanta by state highway patrolmen. Miss Hunter was weeping, and Holmes appeared angry.

The suspension came only a few hours before Federal District Judge W. A. Bootle was to hold a hearing at Macon, Ga., to decide whether to make permanent a temporary injunction against state officials that had permitted the Negroes to become the first of their race to enter the university.

Police were forced to use tear gas and a fire hose Wednesday night to break up the wild demonstration that led to the suspension. Vandiver admonished "all citizens of this state against violence or overt acts of violence."

## U.S. Behind Russia *Single Space Command Urged by JFK Advisers*

WASHINGTON (UPI)—Advisers to President-elect John F. Kennedy have suggested that the United States might have to switch missiles for its man-in-space program possibly causing a delay of at least a year in putting an astronaut in orbit.

The possibility was raised Wednesday in a report submitted to Kennedy by a special "task force." The report said the man-

in-space program is ailing, the United States trails Russia in missile development and there is an urgent need for a single military space command.

The United States now plans to send a man into orbit by the end of 1961 in a capsule atop an Atlas intercontinental ballistic missile. The task force told Kennedy a Titan missile may have to be used instead.

## Pick Space Rider Soon

HAMPTON, Va. (UPI) — One of the seven Mercury astronauts will be chosen soon to take the first brief ride into space aboard an American missile. The flight is expected sometime in April.

This big step in America's man-in-space program is several months behind schedule. The manned rocket flight to an altitude of about 120 miles was planned for late last year.

The disclosure that an astronaut would be picked "in the very near future" was made yesterday by Robert R. Gilruth.

# Segregation Amendment Introduced

WASHINGTON (UPI) — Sen.

Herman E. Talmadge introduced a constitutional amendment today which in effect would kill the Supreme Court ruling that Negroes may not be barred from white schools on racial grounds.

The Georgia Democrat also offered a bill which would prevent federal courts from enforcing integration of Southern schools.

In a speech prepared for delivery in the Senate, Talmadge linked his proposals with the integration crises at the University of Georgia and in New Orleans, although he did not cite them specifically.

# Jackie Picks Press Aide

PALM BEACH, Fla. (UPI)—Mrs. John F. Kennedy shifted her "press worries" today to the shoulders of a politically savvy young woman.

She is Miss Pamela Turnure, a former secretary on the senatorial staff of President-elect John F. Kennedy.

Miss Turnure, a New Yorker, was picked by Mrs. Kennedy to be her press spokesman in the White House.

**SHIP AHOY**—This is proposed \$1,000,000 200 boat marina which will be in operation by mid-April at Roosevelt Stadium, Jersey City. A restaurant, shown in the lower left corner of photograph, will have sun

deck roof. The stadium parking area provides space for several hundred cars. When completed, this will be the most modern and largest marina in metropolitan area.

9:00 2 THE WITNESS

Sweet, simple little Ma Barker, who only raised her four sons to be good boys (she says), is in the spotlight tonight in this simulated probe. As witnesses are questioned, a picture emerges of a cruel and ruthless woman who led a notorious gang and ruled it and her sons with an iron hand. Joan Blondell plays "Ma" and Sheree North a B-girl engaged to one of Ma's sons. (1 hour.)

## Palmer Begins Road Back Today

SA NDIEGO, Calif. (UPI) —

Arnold Palmer, the man with the golden touch in 1960 and the "finesse" of Babe Ruth in his opening outing in 1961, starts the long road back today in the \$20,000 San Diego Open Golf Tournament.

The brilliant National Open and Masters champion, unshaken by what happened last week in the rich Los Angeles Open, rates as one of the favorites in the sun-kissed Show here on the Mission Valley course.

## Ditka Signs With Bears

CHICAGO (UPI) —George Halas, owner and coach of the Chicago Bears announced the signing of Mike Ditka, Pittsburgh's All-America end who also was sought by the Houston Oilers of the rival American Football League.

Ditka, first draft choice of both the Bears and the Oilers, decided to join the National Football League Club during a brief stop in Chicago, Halas said.

## Snyder Ace Averaging 24 Points Barry, DePalma, Piccillo Trail in South Hudson

Snyder's Mike (Magnificent) Rooney with a 33 point production Sunday pulled into a slim lead over St. Peter's Jim Barry in the South Hudson scoring derby. Rooney has ripped the cords for a 24.1 average while Barry shows a 24.0 mark. All figures include games through Monday.

Rooney has scored 193 points on 67 field goals and 59 foul shots in eight games while Barry, who has been missing from the St. Peter's cast, has tallied 72 points in three games.

In third place in scoring is Ferris' Richie Piccillo with a 20.9 average followed by DePalma and Wayne McGuirt of St. Peter's with a straight 20 point average. Piccillo has scored 188 digits on 62 field goals and 64 fouls while McGuirt's totals are 56 goals and 26 fouls for 140 markers.

## *A Woman Talks Up About Jersey City*

We hope the administration of Mary V. Wourms as president of the Jersey City Real Estate Board continues as it started. Her speech on taking office was anything but the polite generalizations usual for such occasions; it said something.

Jersey City got a going-over of a kind not usual from one of its own. The experience should do it good. Mrs. Wourms let her eye run critically over current trends in our town and insisted that bold leadership is needed to correct the bad ones. She also had some specific recommendations on which our legislators ought to start working.

But, primarily, her message was that "It's now or never" for Jersey City — a feeling many of our citizens share. We approach a critical election, the first under the new and better form of government. It is an unprecedented opportunity to install the bold leadership so much needed.
