## 2 Jersey Women Murdered Kidnaped from Stalled Car In Plainfield

PLAINFIELD (UPI)—The wives of a Mack Truck Co. vice president and a Wall Street bond broker were apparently murdered today a few hours after they were reported abducted from their auto by two men, police said.

Police arrested one suspect within a few hours after the bodies were found, and said they expected to pick up a second man shortly. They refused to identify the suspect.

### Bodies Found

The bodies of Mrs. Elliott G. Ewell of Westfield, wife of the Mack executive, and Mrs. Robert Tyson, 58, of Plainfield were found in a small, dead-end street here.

One apparently had been strangled and the other deliberately run over by a car, police said.

Tyson said he had been to dinner with his wife, Mrs. Ewell and her son James, but that he had left early because he was not feeling well.

Police said while James Ewell

## Gangemi Won't Hold Two Jobs

By EUGENE J. SCANLON

Hudson County Supervisor Gangemi said today he will resign as supervisor if he is elected mayor of Jersey City June 13.

Gangemi said the two posts are "incompatible" and that he never had any intention of holding both should he win the mayoral runoff against Parks Director Berry.

THE MAYORALTY will be a

## Court Gets Absentee Ballot Query

Legal counsel for Commissioner Berry planned to ask Superior Court Judge John B. McGeehan today if the persons responsible for mailing Jersey City runoff election absentee ballots might not be guilty of contempt to court.

Last week, Judge Peter P. Artaserse issued a restraining order prohibiting City Clerk James A. Tumulty Jr. from taking any action on the formation of the ballot until after a hearing before Judge McGeehan.

## Berry Opens Final Drive; Irks Spada

A long-distance controversy involving Commissioner Berry and Andrew Spada, Florida fruit executive, is developing over Thomas Gangemi's business interests.

It began Monday night when Berry said Gangemi is not head of Spada Fruit Sales Agency, Inc. and Spada responded with a telegram from Tampa calling Gangemi "my partner and lifelong associate" and a stockholder.

'Good Successor,' says Kenny

# DEEGAN IN LINE FOR SUPERVISOR

## Job Hinges On Win by Gangemi

Hudson County Register John M. Deegan already has been tabbed as the next county supervisor, if Supervisor Gangemi is elected mayor of Jersey City June 13.

After Gangemi disclosed that he would step down from the county post if elected mayor, former Mayor John V. Kenny said Deegan would make "a good successor" to Gangemi in the supervisor's post.

**KENNY POINTED** out that Deegan was Gangemi's predecessor in the job and said he has "experience and ability."

Under the law, the county freeholders can elect anyone supervisor to fill a vacancy caused by a resignation.

Gangemi's successor would serve until the expiration of his present term, at the end of 1963. Gangemi was reelected last November for a second term.

## The Runoff For Mayor

## Gangemi Won't Hold Two Jobs

By EUGENE J. SCANLON

Hudson County Supervisor Gangemi said today he will resign as supervisor if he is elected mayor of Jersey City June 13.

Gangemi said the two posts are "incompatible" and that he never had any intention of holding both should he win the mayoral runoff against Parks Director Berry.

**'THE MAYORALTY** will be a full-time, all-consuming job in terms of time and energy," he said.

## Berry Opens Final Drive; Irks Spada

A long-distance controversy involving Commissioner Berry and Andrew Spada, Florida fruit executive, is developing over Thomas Gangemi's business interests.

It began Monday night when Berry said Gangemi is not head of Spada Fruit Sales Agency, Inc. and Spada responded with a telegram from Tampa calling Gangemi "my partner and life-long associate" and a stockholder.

**THE CONTROVERSY** moved into a second round last night as Berry opened his campaign for mayor by deriding one of the companies in which Gangemi said he is vice president and a director.

Berry, holding aloft a large photograph of a ramshackle building with two gasoline pumps in front of it, declared: "This is one of the corporations Gangemi claims to head. He is the secretary-treasurer of two gas pumps!"

# Spacemen Say We'll Beat Russia

## Congress Turns Sunlight On Kennedy Race to Moon

WASHINGTON (UPI) — Congress today hailed President Kennedy's decision to race Russia to the moon, and space agency officials predicted the United States would get there first.

Chairmen Robert S. Kerr, D-Okla., and Overton Brooks, D-La., of the Senate and House Space Committees, threw their backing behind Kennedy's proposal for a five-year, \$7 billion to \$9 billion program to put an American on the moon by 1970.

Federal Space Agency Director James E. Webb and Deputy Director Hugh Dryden confidently predicted they would win the race with Russians to send a man to the moon and bring him back.

### Truly Bold Step

Brooks said Kennedy's request meant the United States had taken a truly bold step into the New Frontier beyond the earth's atmosphere. He called it "a tremendous stride forward."

Kerr told a space conference in Tulsa Thursday that Kennedy had "pushed the button on a booming

new space age." He said he believed the American people and Congress would respond favorably to the challenge.

Democrats and Republicans alike predicted Congress would approve the \$549 million increase proposed for the National Aeronautics and Space Administration (NASA) in the fiscal year beginning next July 1.

### Boost For Apollo

The largest, single increase asked for by the President was a \$130 million boost for the Apollo space craft. The Apollo is designed to eventually carry a three-man crew on a voyage around the moon.

Meanwhile, key lawmakers promised President Kennedy today much of what he asked in his "freedom doctrine" message calling for heavy new federal spending.

The President's speech to a joint session of Congress Thursday generally was lauded by Democrats as a statesmanlike call to action urgently needed to keep the United States moving ahead.

# FAA Head Backs Jets At Newark

NEW YORK (UPI)—The director of the Federal Aviation Agency sees no reason why jet aircraft cannot operate at Newark Airport.

FAA Director Najeeb E. Halaby expressed his opinion about jets at Newark in a letter to John R. Wiley, director of aviation for the Port of New York Authority which operates Newark Airport and other air terminals in the New York metropolitan area.

The letter, sent May 22, was made public Thursday.

### Jets Forbidden

Jet aircraft are forbidden to use Newark Airport except in cases of emergency. They may use the airfield if weather conditions prevent them from landing at New York's Idlewild Airport.

The FAA administrator said in his letter no "planning or operational reasons" exist why "turbo jet aircraft could not be operated at Newark Airport."

# Defied 'White Only' Signs

## Suspended Sentences Seen For Mississippi Bus Riders

JACKSON, Miss. (UPI)—The 27 "Freedom Riders" who rode from riots in Alabama to jail in Mississippi assaulting segregation in the Deep South were expected to receive suspended sentences today for ignoring "white only" signs at the Jackson bus station.

It was believed the 25 Negroes and two whites would appeal if convicted in hopes of overturning the 1960 laws passed as part of a package to preserve Mississippi's 90 years of segregation. The laws have never been tested in court.

### Trial By Judge

Judge James L. Spencer will try them without a jury in city court on charges of disorderly conduct and refusing to obey an officer. The laws carry maximum penalties of a year in jail and up to \$500 fines, but Spencer was ex-

pected to hand out only token fines and suspended sentences.

The "freedom riders" were arrested Wednesday when they arrived here from Montgomery, Ala., and tried to use segregated facilities in the bus station.

Their attorney Jack Young said they had received "good treatment" in jail and were in "good spirits."

### Segregation Law Challenged

In Washington the Justice Department announced it would take part as a "friend of the court" in a suit challenging the constitutionality of Alabama's segregation laws. The suit was filed earlier Thursday in Montgomery by an attorney for the Rev. Ralph Abernathy, one of the jailed integration leaders, and six "freedom riders."

# 2 Cagemen Foul Out at Seton Hall

SOUTH ORANGE (UPI) — Two Seton Hall University basketball players named in the point-shaving scandals have been expelled.

Msgr. John J. Dougherty, university president, said the boys were officially dropped from the university rolls as of April 12. They were identified as Art Hicks of Chicago and Henry Gunter of New York.

## Points Shaved

The boys were suspended from the school last March 17 after New York District Attorney Frank Hogan announced their alleged roles in the nationwide basketball bribe scandal.

The boys were said to have conspired to shave points in seven Seton Hall games. Hogan had said they received \$1,000 each for losing to Duke University Feb. 23 in Madison Square Garden and another \$1,000 apiece for shaving points in the school's loss to the University of Dayton Feb. 9.

Neither of the boys faces criminal charges. New York City authorities said both have cooperated fully with the district attorney's investigation.

## Future of Sport Studied

Dougherty also announced Thursday that a special committee had been set up at the school to consider the future of basketball at the university.

The Rev. Edward R. Fleming, chairman of the committee, said the group had been holding regular meetings since the middle of March.

A report was expected sometime this summer on whether the university would de-emphasize basketball next winter.

# Palmer Tied For Lead

INDIANAPOLIS, Ind. (UPI) — A weather break was the major desire today of 140 golf pros chasing Arnold Palmer, Jim Ferree and Johnny Pott into the second round of the \$50,000 "500" Festival Open Tournament which will pay the winner \$9,000.

Palmer, Ferree and Pott led the field after 18 holes with four under par 67's, but there was a massive group within striking distance and all of them figured good weather would help them move into the top spot.

In the first round high winds, increasing throughout the day, hampered all but the earliest starters, and the three front-runners all were out in early threesomes, so that the bottom two-thirds of the starting field had to combat less favorable conditions.

Light rains also affected the final dozen pairings.

The unfavorable weather didn't help the pros at all in their expectations to rip apart the 6,605 yard speedway course which was so simple last year when 63 players broke par on the first round.

Yesterday, only 38 bettered the par of 71 and nobody approached the performance of Jerry Barber's course record 63 on the opening day of the 1960 event.

Behind the front-runners there were eight deadlocked at 68, one stroke off, Art Wall Jr., Pocono Manor, Pa., Peter Thomson, Australia, Billy Maxwell, Dallas, Tex., Ken Still, Tacoma, Wash., George Bayer, South Pasadena, Calif., Bob Shave Jr., Willoughby, O., Bill Collins, Crystal River, Fla., and Hulien Coker, San Diego, Calif.

## *Laugh's on New York*

One of the funniest publicity stunts in years was that race across Manhattan involving a motor scooter, a taxicab, a limousine, a horse-drawn carriage and a man on foot — the latter, Kyle Rote of the New York Football Giants.

The scooter won by mere seconds over the cab; the limousine was an unimpressive third; the horse and carriage a distant fourth; and the man, dead last. It was side-splitting fun as they struggled slowly through the impeding crush of cars, cabs and trucks.

It also proved once again that New York slowly is being strangled by its own traffic.

Moreover, it repeated dramatically one of the most powerful arguments for the removal of industry to this side of the Hudson.

The first such industry to leave New York en masse, we hope, will be the food industry. This now is expensively scattered about Manhattan and, therefore, the victim of most wasteful traffic congestion.

It is interesting to note that while New York was laughing over the bizarre race through traffic-choked streets the New Jersey Public Market Commission quietly was inviting engineering bids to speed construction of a vast metropolitan food distribution center whose first units are expected to be occupied by 1963.
