## The '60s

**Walt Baile, '62** will be retiring after 40 years in academic psychiatry, the last 25 at the University of Texas MD Anderson Cancer Center. "I am gratified to have had an interesting career and met so many wonderful patients and families who showed me what courage and resiliency is in the face of devastating disease," he says. "In retirement I hope to pursue my interests in photography, take up my clarinet again and best of all travel with my wife Beth."

**George Searles, '62** continues to teach English and Latin at Mohawk Valley Community College in Utica, NY. He has remained professionally active during the past several years, delivering the keynote address at the 2015 Technical Education Colloquium in Honolulu, publishing several poems and a new college English text, and seeing one of his earlier books, *Workplace Communication: The Basics* (used on more than 200 campuses) published in a Mandarin translation from Tsinghua University in Beijing. Since turning 70 he's won more than 25 age-group awards in 5K road races, and he plays fullcourt basketball with a group that includes his neighbor **John Lapinski, '74**.
