

Dear Classmates of NMH'57,

Did you ever imagine what it would be like to be sailing across a stormy ocean without a navigational chart? We have not... however, in some ways we are experiencing something similar these days of the Covid-19 pandemic. It is unprecedented in our lifetime.

We, Darrell and Joyce, are known as collectors of your life stories as well as encouraging support for the school. But today we write to you to tell you we are thinking of you wherever you may be and hope that you are safe and well.

Although anxiety and fear may permeate our daily activities, the strength of family and friends can remind us that when this siege is over, we will have had a time of creative and new thinking that has buoyed us through. This is significant for NMH where the students have left campus for spring break, not to return for the rest of the year. What a challenge for NMH to keep the spirit and the learning alive in the students scattered over the world.

And the same is true for you and me. We spent two to four years together in Massachusetts in a protected (then described as confined) environment. Since then, we have traveled and moved to probably many corners of the world.

You may wonder where other friends from our days together may be. Should you wish to contact them, we would be glad to send you an email address to connect with them.

In addition, a class Zoom gathering is being explored. If you might be interested in joining such an endeavor, let us know.

While looking ahead with NMH, keep in mind:

*September 22-24, 2020, on the shores of Lake Winnepesaukee, NH!
(contact Dave Williams, revdcwms@metrocast.net, Class President, for information)

*June 2022 (first weekend), 65th reunion at NMH!
(contact Steve Springer, natureboy0312@gmail.com, or Joyce Moore Arthur, joyoftraveling@gmail.com, 65th Reunion Co-chairs)

Please know that we are hoping you and your loved ones maintain good health and are fiscally safe throughout the Covid-19 pandemic that we are experiencing and that all our fellow citizens will be sustained as we travel the rough seas of this siege.
