As individuals we support our respective high school alumni chapters.

The focus of United '74 Inc. is to be of service to parents, youth and community. We want to enhance the experiences of the next generation and help them to become more competitive this global society as they prepare to move forward into the twenty first Century. We are vigilant of changes locally, state and nation wide that will impact their way of life and make them aware. It is our intent to be a repository for information to help members of the community by providing assistance accessing services and agencies. We will collect and disseminate information as well as provide feedback and directions to those that need assistance. Each of us individually has the unique opportunity to make a significant difference in the future of youth and the community. Collectively, United '74 is a formidable adversary or ally.

The impact of this dynamic organization will be to "Wake up everybody" civic and clergy leaders, educators and families and bring result based solutions to the concerns of communities and schools. In this venture "We Are One". As go the family so goes the community.

The overarching goal of United '74 Inc. bring the concern of the parents, schools and youth to the forefront of discussions and to have input into the decisions that will impact our communities and its inhabitants.
