

Dear Members and Staff,

Election 2020 LOOMS before us. All year we face severe state and national attacks that threaten our pensions, Social Security, Medicare, our schools, our profession, and our students! We must act and act now! Retired members are fabulous supporters of the NEA Fund for Children and Public Education. Every donation given can make an impact on our students, our profession, and our very democracy! We need leadership in the White House! We need leadership in the House and Senate, in our states and in Washington. YOU can help make a difference by supporting the NEA FUND. President Lily invites you to join again in this effort.

Yes, we're asking you again to dig deep and contribute to our PAC so that NEA can help the candidates who help us. We need folks in Congress who will say, "No!" to privatizing Social Security and Medicare and say, "Yes!" to finally getting rid of GPO-WEP. You understand better than anyone that elections matter.

There are many ways to give. Go to the address above in the red box. Find a retired member on the GO FUND page. Every donation is credited to you, to Retired, and to your state. For those of you who like to write checks, send your donation to NEA Fund, P.O. Box 96225; Washington, D.C. 20077-7501. Please give, not till it hurts, but because it will hurt if you don't! Thanks for all you do.

Most sincerely,

Sarah Borgman, NEA Retired President
