After graduating from high school I went to work in banking until our daughter was born in 1970. Eight years later I went back to work in property management for 26 years. After retiring in 2007 my husband, Bob and I moved to Camano Island. We did some traveling while living there as well as enjoying the grandchildren and making new friends. When he passed away in 2011 I moved back to Mukilteo where I could be closer to my family and friends. I have three wonderful grandchildren, Austin 11, Emily 9 and Carson 6.

Favorite high school memories

While married I lived all around the United States as well as Europe. My daughter was born in Spain. I got a BS from Oregon State and a Masters degree from Southern Connecticut State University.

Favorite high school memories

I think my favorite memories from my High School days are of my girlfriend adventures as a Girl Scout. We hung together as a group through our Senior year just so we could travel to Hawaii. The friendships from that group were wonderful.

Thoughts and future plans

Not living in the area, I look forward to connecting back with the friends & classmates I had while in school. It has been half a century after all!

Favorite high school memories

Received an excellent education at Edmonds High School, while following a college prep course. I am sorry I didn't discover art until I attended UW. However, better late than never!

Thoughts and future plans

I have more to do than time to do it these days. Retirement is appealing. I worked on the Edmonds yearbook for a couple years and remember faces that go with many names. It will be interesting to see how people have changed over the years and learn what they have been up to.

Significant Other

Highlights of the last 50 years

It took several years for me to actually become a responsible adult. I went to college, began a banking career then added realtor, orchardist, country club management and the medical field to my resume.

Favorite high school memories

I remember sharing sack lunches in the P.E. office with "Morgie", our P.E. instructor. We all thought we were pretty special to get to do that. Lot's of talk about our future goals and our "football" team. "GO TIGERS!"

Thoughts and future plans

My wonderful husband passed away a few years ago but one of the last things we did together was go to his class reunion in Mason City, Iowa. We had such a wonderful time that I decided to attend my reunion as we had planned to do together. I hope to see some friendly faces, talk about the "good 'ol days" and hopefully reconnect with thoses I haven't seen since graduation. (I know we will all "look the same" - right!)

Significant Other Carla

Highlights of the last 50 years

My professional life was spent working with multinational firms as a consulting manager and then serving as senior director of a global biotechnology firm based in Boston. My wife, Carla, and I met in Phoenix where she was a beautiful court reporter with an English accent. My son, Stowell, served the USMC as an intelligence officer and is an attorney, married, with two sons ages 1 and 13.

Favorite high school memories

I always felt bad that I accidentally pushed open the door to our math class too hard and gave Lois Salisbury a bloody nose. A less vexing memory was attending Marv Wray and DeeDee Wilson's wedding. That was the only time in my life I ever did a proper job of gift wrapping.

Thoughts and future plans

Carla and I finally finished our home in Gig Harbor after 30 years of being on the road and so it's nice to be enjoying it. I'm also seemingly working to get an internet company off the ground, much to Carla's chagrin, and enjoying being with my son and his family especially as he was away for many years too.

Highlights of the last 50 years

I went to business college in Seattle, married my husband of 48 years, have 7 children and currently 18 grandchildren. We joined the Church of Jesus Christ of Latter-day Saints in 1969 (best decision). 3 of our 4 sons served missions in Florida, Georgia, and Honduras. One grandson is currently in Japan on his mission. I play the piano and taught myself the organ so I could play for church. We currently care in our home for a 91 year old sister of our church (great learning experience). My husband drag raced a '72 Nova called "Families Are Forever" for a couple years before the heat of the track got to us. Now we are content just to share the message on our daily drivers.

Favorite high school memories

Lots of memories but the ones that stand out are best friend Sandy Anderson, Choir, flunking 1 quarter of English because of a boyfriend???, and a teacher who's name escapes me but I'll never forget how she used to stare over the top of her glasses at the unruly students. I always loved the business classes, learning to type etc. and football games...Go Tigers!

Thoughts and future plans

I won't be able to attend the reunion but would love to hear from any of my "old" friends (yes we are officially "old" now). I have no idea what the future will bring hopefully a mission for the church and more grandkids. May God bless us all and our nation.

P.S. Jack Kerouac lived in Edmonds

Three sons, one a teacher, one a high climber, one a musician. Have met many celebrities in my life... Colonel Sanders, Johnny Carson, Jose Feliciano, Steve Forbes, Levar Burton, Rudy Giuliani, Don Meredith, Melba Moore. Biggest regret - not going to meet Jimi Hendrix when his next door neighbor (my best friend Linda) asked me to in 1965 when we were working at Nordstrom! It has been a hectic life, but heaven knows I am well travelled, as are my children.

Favorite high school memories

I want to Thank some wonderful, caring and talented teachers: Mr. Vukov, Mr. Bridges, Mrs. Krumbaugh, Mrs. Hollingshead, Mr. Evans, Mrs. Shaw, Miss Klett, Mr. Anderson, and not to forget Miss Ellis...I deserved that D in typing because I wouldn't stop watching the keys but you will be shocked to know that I got my speed from 35 wpm to 100 wpm by doing just that when I went to work. Soon I rarely looked down. Darlyn Sherwood Gephart encouraged me through it with her good humor. Thanks Dar! I loved every one of you solicitous teachers. Even though I was not very studious, you always gave your best. Thank you.

Thoughts and future plans

Future plans: there is not a lot that I have not done on the proverbial bucket list. I will continue to enjoy music, Pink Floyd and the Doors particularly. I have fond memories of Junior High as well. Ron Ulberg and I gave our librarian Miss Palmer a run for her money - she was wonderful. Patient to a fault. I wish to spend the remaining years in peace with nature and my animals remembering all the precious friends of my youth. I might make another trip to Europe- love the Alps. I live in a mountainous terrain and far prefer higher elevations to sea level. I hope to continue to appreciate all that God has given. The apparent coming global turmoil could prove daunting. Let us be observant of and prepared for the changes. It truly has been a Magical Mystery Tour since 1964. Let's cherish our sunset years. We have earned it.

Significant Other

Highlights of the last 50 years

I married my high school sweetheart, Dave Seitz, in 1967. We were very active in our community. I was an "old-fashioned" mom – staying home with our three sons supporting Dave throughout his career. Our marriage ended after 32 years. While we had many wonderful times we also had our share of trials and tribulations. Our middle son contracted leukemia at age 9 but today he and his wife are the proud parents of my third granddaughter with my first grandson on the way! Our youngest son spent a good portion of his young adult life as an addict that nearly cost him his life. Two and a half months in Harborview (much of it in ICU) fighting flesh-eating bacteria caused him to see the light. Now he's completing nursing school at UW and plans to pursue a doctorate! (Please visit UW360 Homeless Nursing on the internet to see his wonderful story!). Our oldest son is a successful manager at Microsoft. He and his wife have two beautiful girls (my first two granddaughters). I'm so grateful to have them all living in the Seattle area. Many of my days are spent being a grandma and caring for the girls after school

Favorite high school memories

EVERYTHING...When I was in school I was SO happy! Home...not so much :- (I really loved saying "Hi" to everyone!!!! Then, of course, cheerleading!!! Too much fun! My granddaughters think its cool!!!! too :-)

Thoughts and future plans

As to the future, I try to live each day in the present knowing that my future is in my hands. Time spent with my children, grandchildren, family, friends and others close to me remind me how blessed my life has been and continues to be. I'm certain more surprises and blessings await and I look forward to each one and every one. I've waited fifty years for this reunion. Now that it's here, I intend to celebrate with old friends the stories of our lives and the memories of the short time we spent together before the rest of our lives happened. Other memories and friendships will be renewed and flourish!!!!

Favorite high school memories

I am fortunate to have grown up in Edmonds and attended Edmonds schools. All in all, it gave me a good start to my education and life-long pursuit to keep evolving in my lifework. Many indelible memories of various friends and things that occurred through those years...grateful for those.

Thoughts and future plans

It was a fine time and place to be young. To be able to reconnect with some of those people with whom I was young, would be a pleasure. Having a second chance at life, makes me aware of what truly has meaning for me. Most of all, it is to have good connection with the people in my life, to work hard to evolve in my painting, and to live my life as much in harmony with nature, the world around me as I can.

Elena Olsen Cornehl

Significant Other Cal Cornehl

Highlights of the last 50 years

I've been happily married for forty two years to Cal Cornehl. We have been self-employed and are currently still actively involved with our business of leasing commercial buildings that we own. We have two children and three grandchildren that we adore and feel blessed to have time to be in their lives and spend lots of time with them. We are animal lovers and enjoy our furry and feathery friends and they make us laugh everyday. As most everyone else, I've experienced the loss of loved ones and celebrated the births of my children and grandchildren. I've been blessed with a positive attitude and have learned lessons that have helped me to believe that being kind to all beings is the greatest gift I can share. I wanted to skydive for 40 years so for my sixtieth birthday I did a tandem skydive. My daughter joined me on the plane ride and she skydived also. This was the scariest moment of my life, but I will remember it fondly forever!!!

Favorite high school memories

Thinking about the person that touched my life the most I see the angelic face of Bruce Nelson. He seemed shy like me and I had no idea what he was going through, but he was always so gentle and kind....I spent most of my high school days just trying to overcome my shyness and found friends that I felt comfortable with and for each of you I want you to know how much fun I had with you and thank you for all the great laughs. I actually liked my Spanish teacher (Mrs. Penichet) as she was always nice to me. When I worked at Boeing and car pooled I was shocked to see our new rider as she entered the car and sitting next to me there she was! From here we shared many conversations over lunch together until I transferred to 747 administration.....I still think about that strange encounter....it was weird because of the way her teaching career ended at Edmonds(for those of you who remember). My fondest memory was knowing that graduation was here and that the next phase of life was my choice and that the stress of tests and grades was over!

Thoughts and future plans

My thoughts and prayers are always with those of our class that are no longer here and are unable to share their lives with all of us....I miss Kathy Carlson a lot as we grew up together from nine months old and knew each others families. I still enjoy the photos taken of us sharing good times as little kids. For the future I attempt to live in the Now and enjoy the moments that I am offered with gratitude. I attended the last two reunions and found them enjoyable and have flashbacks of special moments shared with some of you. I am looking forward to seeing you again and I wish all of you the best and hope that you all enjoy your lives. I'd like to share my favorite quote with you....."We don't see things as they are. We see things as we are."

The last fifty years have been a wonderful adventure. I graduated from the University of Washington and am a lifelong Husky fan. I met my amazing husband Billy at the U and we have four fabulous daughters, two wonderful son in-laws, three darling granddaughters, a grandson due in Oct., and a wedding in March. Life is good! We lived on the east coast for many years and loved it. I worked with a thousand children while living in Oregon and our children thrived there. We now live in Hawaii and it is paradise to me. My husband runs the family business and we live in the old family ranch on the ocean. Life is sweet!

Favorite high school memories

My memories of high school are happy ones. I remember special teachers like Mrs. Haertig, Mr. Cunningham, Mr. O'brian one of my favorites, and of course "The Importance of Being Earnest" making lifelong friends like Charlotte Carol. The football games, Columbus Day Storm, GAA, and most of all the faces of classmates I care about are the memories I cherish the most.

Thoughts and future plans

We will live in Hawaii as long as my husband runs the company and I will cherish each day. I hope we will build on the coast and fill our home with family and friends. In the meantime I love to paddle board, ride my bike, build, china paint, walk the coast and listen to audible book all the time. The goals for the future are many. I want to travel with family and friends and just spend quality time. I want to be kinder, more patient, and be an emotionally safe person in our hurried and sometime caustic world. I don't want to be self-focused and of course I draw closer to God there is hope. I want to remember long lost friends and that includes many from dear old Edmonds High. We have many happy adventures ahead. Most of all I want to finish well.

Highlights of the last 50 years

The years since graduation have gone too fast! College - UW. Career - 26 years primarily in Commercial Lending at NBofC > Rainier Bank > Security Pacific Bank > Bank of America. Retired since 2004. 2 daughters, 1 step-son, 8 grandchildren! Years of family, fun, fly-fishing, lots of traveling, and genealogy (current passion).

Favorite high school memories

So many math classes with Mr. Steberle and I've never been asked to "prove" a math equation since-LOL! Plus all those hours translating Latin - I should have taken Spanish. All the friends and energy we created everyday! A safe and sane learning environment that gave me a foundation for success.

Thoughts and future plans

I hope to continue traveling to all the ends of the earth. Also to enjoy the growth and maturity of all my grandchildren and to be able to finish the biographies of my grandparents. This reunion gives me an opportunity to reconnect with high school friends that I haven't seen in ever so long - a little nostalgic walk back in time.

Favorite high school memories

Too long ago to remember.

Danny & I love being able to spend our winters in the warmth/sunny weather of Arizona and summers in Washington with family & friends. Enjoy reunions to catch up with schoolmates I have lost contact with over the years.

Highlights of the last 50 years

Wow, what a journey! My path became the role of wife and mother, intermingled with college classes as I could work them in. A BA in Fine Arts gave me a safe sense of freedom of expression. Several years later a masters in psychology provided a surge of emotional growth. Meditation and yoga now get me through what's left of my journey.

Favorite high school memories

High school was an exciting and fun filled distraction for my rather intense and depressive life at home. Activities, sports, friendships and a place to belong with other adolescents provided a rich bed of compost to nurture the seed of my adulthood.

Thoughts and future plans

If a spaceship landed before me at this moment and invited me to come aboard for an adventure, I wouldn't hesitate for a moment. Earth school has been interesting and I'm sure I have had my share of the experiences I needed but I'm still trying to make sense of it all. The class of 64 was full of special people. They were smart, talented and full of unbridled ambition. I want to hear their stories and affirm them for their strength and courage over the past 50 years. I will continue to do my best to serve others by living authentically and in tune with my potential as a senior citizen.

Highlights of the last 50 years

After a college degree, two different career paths, many obnoxious and self serving bosses and too many meetings and too much b.s., I found my calling. Professional retired guy. Fishing boat, old cars and digging in the dirt. Paradise!

Favorite high school memories

I took typing because that was where the sophomore girls were and boys home ec. because that's where the fun was. Turns out they were the only two classes that really helped me much in life at all. The rest was pretty much useless nonsense.

Thoughts and future plans

Future plans for 50 year h.s. grads. Interesting concept. "And what are you going to do when you grow up?" Since I never really grew up, I'm not sure. I guess my future plan is to try to live 20 more years. I'm going to the reunion because it is fun to see old friends, swap lies and generally talk about the old days, I guess. High school was generally a fun time for me. I still have life long friends from that time.
